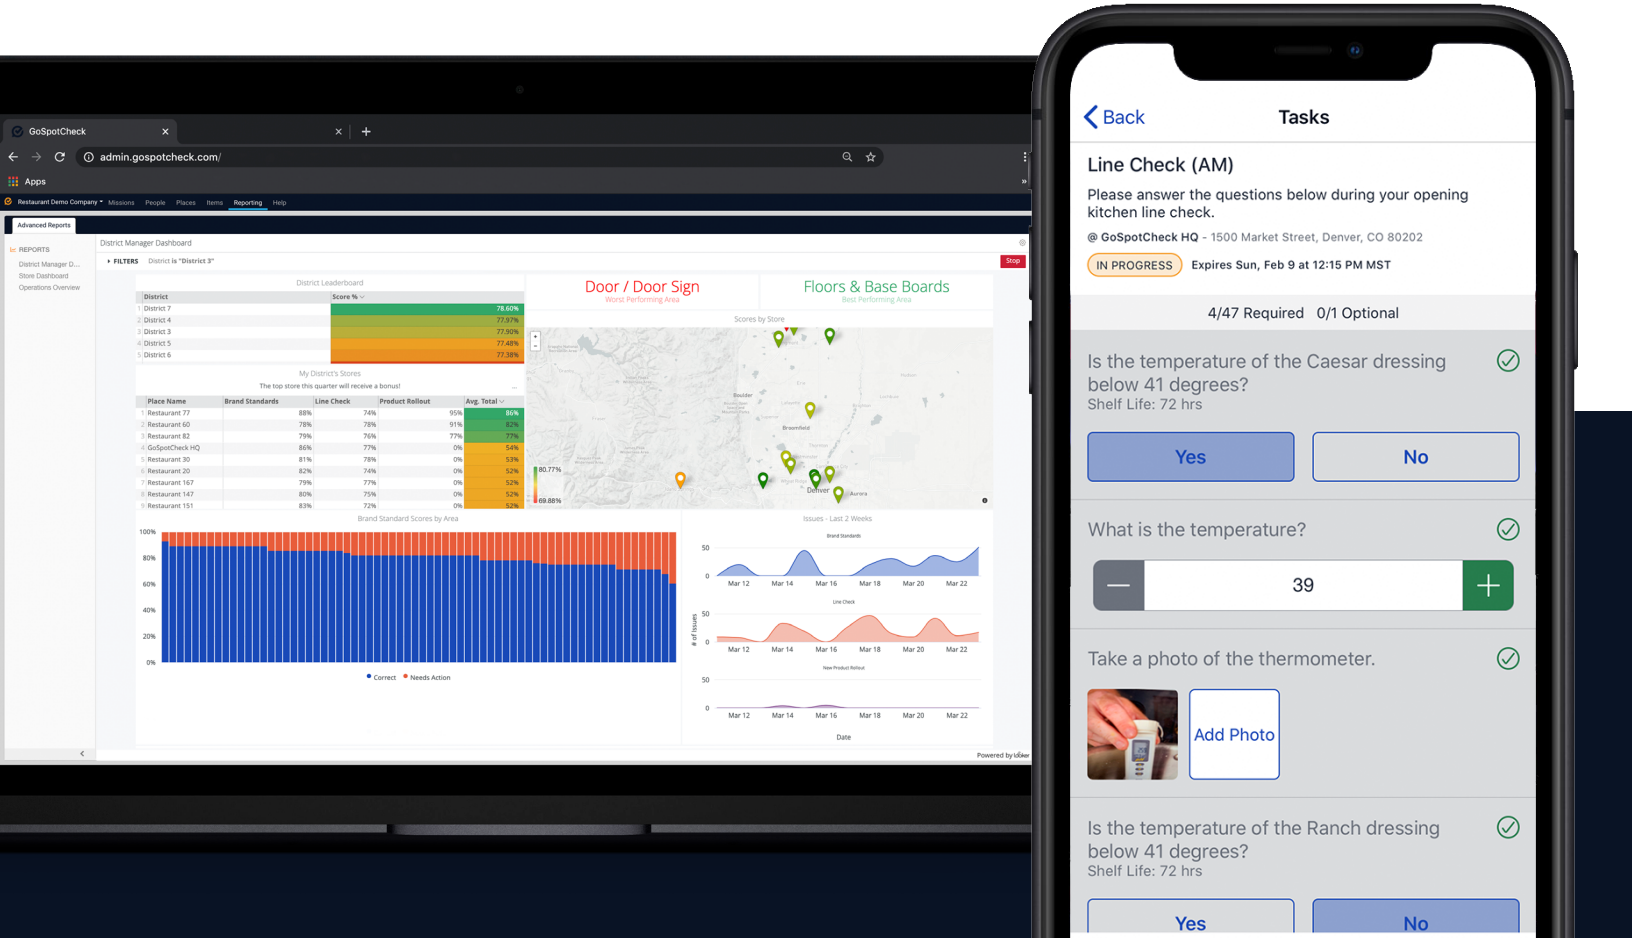
GoSpotCheck

Execute with precision in every restaurant.

With one platform to rule them all.

225+ of the world's top brands use our mobile app to distribute tasks to the frontline, and our reporting dashboards to spot and close execution gaps in every restaurant, instantly.

Our software presents the right action at the right time to the right people to improve execution and help leaders make better decisions, faster.



Restaurant Applications

GoSpotCheck is designed to work the way you do. We enable business processes for restaurants to improve outcomes in these areas:

Daily Operations

You set standards for daily execution to improve speed of service, trips, and your online reputation. **GoSpotCheck** keeps your frontline focused on top priorities:

- Opening & closing checklists
- Line checks
- Seating & condiment area checks
- Equipment & supply checks
- Loss prevention
- Spoilage tracking

Food + Occupational Safety

You protect your guests and employees by ensuring safety in all ways. **GoSpotCheck** reduces your risk and helps you intervene while there's still time:

- Temp, cleaning, organic & grind logs
- Allergen notices
- Location scorecarding
- Product recalls
- Cut gloves & PPE
- Hazardous supply handling
- OSHA & EHS walks
- Bluetooth thermometer integration

Training + SOPs

You operate with new employees and minimal labor to train. **GoSpotCheck** ensures SOPs are followed and employees focus on guests–on their first day or their 400th:

- In-app training
- New hire onboarding
- Video, PDF, image & URL content sharing
- Daily SOPs
- Corrective action
- Build sheets & new recipe launches

New Program Launches

You innovate with new items and invest in R&D, ingredient sourcing, and distribution to keep guests coming back. **GoSpotCheck** keeps everyone on track from day one:

- Program overviews
- Culinary instruction
- Pick up & delivery operational guidance
- Sourcing & distribution details
- Pricing & promotions
- Franchise guidance
- Program localization & extension

Marketing, Menus + POP

You build your brand through trial, seasonal sellers, upsells, online ratings, and loyalty. **GoSpotCheck** protects your marketing spend by ensuring promotional materials are executed across locations and brand standards are met with consistency.

- Sign walks
- POP & POS compliance
- New menu rollouts
- Promo displays

Facilities & Asset Management

You manage valuable facilities and equipment that directly impact your ability to serve guests. **GoSpotCheck** helps you maintain your assets and avoid surprises:

- Capex asset walks
- Equipment cleaning schedules
- Preventative maintenance checklists
- Scale & POS Audits
- Bathroom cleaning compliance
- Easement & property audits

Capabilities Overview

Data Model + Dynamic Task Distribution

Enable smart task distribution following your unique organizational design. Set time parameters for task availability to prioritize and schedule work efficiently.

Task Creation + Push Notifications

Author and share tasks for completion at specific (groups of) places by specific people using an intuitive drag-and-drop task engine with 12 task types. Alert frontline teams with in-app push notifications. Work in offline mode.

Bluetooth Thermometer Integration

Capture food and appliance temperatures wirelessly and accurately with integrated bluetooth thermometer digital recording. When readings exceed acceptable thresholds, prescribe corrective action and validate resolution.

Item Catalogs

Create and manage authorized product catalogs and capital assets in-app; assign items to relevant concepts, locations, programs, planograms, or other groupings.

Location History

Save all-time history at a location level to build continuity and preserve institutional knowledge.

Content Sharing

Attach video, PDF, Excel, weblink, and other reference materials in-app to provide build-sheets, new product launch documents, training materials, and more.

Scorecarding, Leaderboards, + Attainment Reporting

Scorecard and benchmark SOPs, restaurants, and leaders, communicate goals, and post real-time results in leaderboards to ensure KPIs are met; spotlight risks.

Photo Analytics

Create and aggregate photo data with advanced tagging, filtering, sorting, and sharing capabilities. Enable photo search by location, campaign, concepts, and more. Instantly download photo reports to PowerPoint or PDF.

Advanced Reporting + Issue Resolution

Configure intuitive data visualizations to drive action and schedule automated reporting to provide transparency to stakeholders. Configure alerts to identify risk and confirm resolution.

GPS Time/Date Stamp + Offline Capabilities

Validate data and drive accountability with user and GPS time-and-date stamp metadata.

Customer Support

Receive live support, 7 days a week, via text, phone or email from our Denver, CO-based technical support team for all platform users (frontline and admin).

API, Integrations + SSO

Integrate your GoSpotCheck instance with other systems of record, including ERPs, CRMs, Salesforce, and more. We provide deep linking, data encryption in transit and at rest, SCIM provisioning, and are GDPR-compliant and SSO-enabled.

Track Record

50-75% Labor Optimization
Customer benchmark for labor optimized by digitizing data collection and reporting; includes frontline and corporate-level labor pools

2-9% Revenue Growth
Customer benchmark for net new revenue attributed to execution improvement directly enabled by GoSpotCheck
