tripgrid

Project Management Software for Team Travel

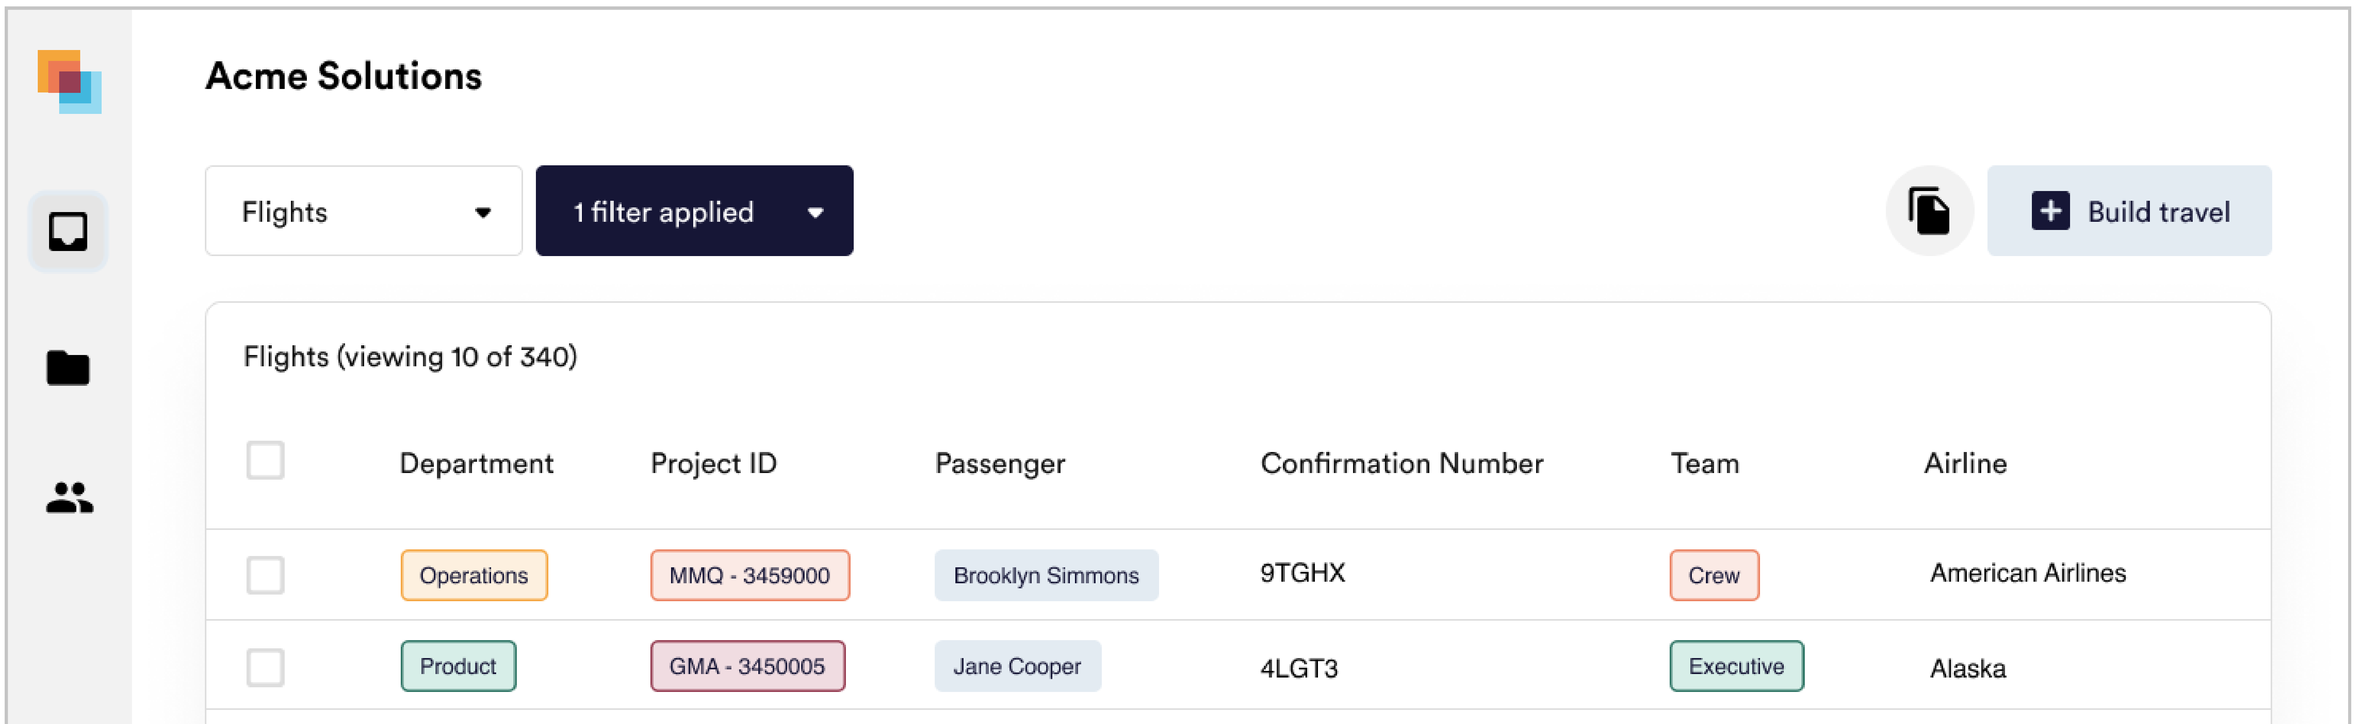
Increase visibility. Automate workflows.
Send real-time travel itineraries and reports.

SAP® Concur® Partner

SAP Concur & Tripgrid revolutionize the way that team travel is coordinated and managed.

Connect Tripgrid to your company's Concur Travel instance and all your organization's booked reservation data now lives in one project management workspace. Automate workflows, streamline outputs and provide up to 99% visibility for reconciliation.

Say goodbye to manual entry, static spreadsheets and siloed inboxes.



COORDINATORS

Do twice the work in half the time.

Tripgrid helps to automate the most tedious and error-prone tasks of team travel coordination like hand entering travel data into spreadsheets.

KEY FEATURES

- Email Parsing & Spreadsheet Uploads
- Custom Document Builder
- Automated Document Creation

MANAGERS

Get a bird's eye view of team travel.

View every corporate travel reservation in real-time as your team books. Sort, filter and tag all your travel in one place including Key IDs.

KEY FEATURES

- Global Dashboard
- Sophisticated Filters
- Intuitive Budget Reporting

TRAVELERS

Receive real-time outputs.

Outputs like itineraries and manifests are tied to live travel data. That means when travel changes your travelers outputs do too.

KEY FEATURES

- Integrated Reservation Data from Concur Travel
- Live Link Online Documents
