

## **Product Manager – IoT Device Partnerships and Integrations (Full-Time/Remote, U.S.)**

### **Role summary**

Do you want to help define the new energy economy? We are looking for a driven, empathetic, and curious product manager to lead the integrations of new load-controlling smart devices (e.g., smart plugs, smart thermostats, storage, EVs, etc.) onto the OhmConnect platform and ensure customers have delightful experiences as they add more devices into their homes; someone who understands the intricacies of IoT hardware, connectivity, and good product experiences

### **About us**

OhmConnect was created to improve the lives of people and the health of the planet by reimagining the way we use energy. We are tackling such a grand challenge by solving massive inefficiencies in energy markets, changing how people use and view energy, and connecting smart homes with the smart grid.

At OhmConnect, we build products that connect deeply with consumers and invite them to take action to positively impact the planet, their communities, and their own finances.

### **Responsibilities**

- Own integration and maintenance of new load-controlling smart devices on the OhmConnect platform, including feature evaluation, API integration, testing, and product and store integration
- Own the OhmConnect online store, including profit and loss, inventory management, forecasting, fulfillment, and logistics
- Support the sourcing of new products from global suppliers
- Support our device partnership roadmap and strategy in collaboration with the Partnerships & Business Development teams
- Gather customer feedback and consumer research and incorporate it into the development process
- Proactively identify and resolve obstacles that could get in the way of the team achieving its strategic, financial, and technical goals

## Qualifications

- Experience with the smart home ecosystem, smart devices, IoT
- Experience with hardware development, product management, and the Agile framework
- Experience with global operations including sourcing, distribution, fulfillment, and logistics
- Experience with smart device pricing, merchandising, and product marketing
- Excellent oral, analytical, and written communication skills
- Problem-solving aptitude

## What we offer

- We have a fully remote work environment. We are a 'work-from-anywhere' business with (post-COVID) monthly in-person team-building days and quarterly retreats based primarily in the San Francisco Bay Area
- Outstanding benefits package, stock options, and salary commensurate with experience
- Equal Opportunity Employer who is committed to creating and supporting an equitable, diverse, and inclusive environment where every voice is heard
- Real and lived work-life balance. Company perks include unlimited vacation (which our C-level team actively encourages everyone to take!), commuter benefits, parental leave benefits
- Opportunity to be part of a mission-driven startup that's building a carbon neutral world
