Classic Play Structures

Made in Australia
Concepts and Design © Playtec Pty Ltd

At Playtec we are about tailoring solutions and for complete customisation you can't beat our Playtec Classic range of soft play structures. Designed and developed by Playtec with almost twenty years of product development behind it, Classic Play is manufactured in Australia and is ideal for customers seeking a large, tall playground or perhaps have a building which is difficult to access (e.g. through narrow doors or up elevators). Classic Play is ideally suited to customers seeking a soft play structure that is at least three to five play levels high and with a ceiling height of at least five and half metres. Playtec can build Classic structures up to nine metres high incorporating the biggest and fastest slides in Australia without compromising safety. Classic flexibility is in our 'sleeve on fitting system' best described as a big meccano set, it is capable of working around columns and ceiling beams, it is engineered strong and can be tailored to any age group, theme, building shape - virtually any customer requirement!
