This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.

This compound contains: Alprostadil, Papaverine HCl, Phentolamine Mesylate, Mannitol, Sodium Metabisulfite Granular, Ethyl Alcohol, Sterile Water & Bacteriostatic Water. Sodium Hydroxide and/or Hydrochloric Acid may have been used to adjust pH.
