

We will get through this together

# COVID-19 Best Practice & Safety Guidelines

Ensuring the safety of our employees, logistics team and valued customers

We will get through this together

To facilitate collections for those socially distancing, our logistics team have been equipped with PPE and briefed on safe practice to minimise any risks and implement the procedures as listed below.

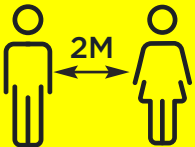

### Green IT Disposal Ltd - COVID -19 Best Practice & Safety Guidelines

- Our logistics team will call the customer upon arrival to be escorted to the equipment for collection and minimise the waiting time in reception areas

- Drivers use hand sanitiser before and after collections and all vehicles are regularly sanitised throughout the day

- During the collection our drivers will adhere to a 2m safe social distance where possible

- Masks are provided to the drivers if you feel it's necessary for them to be worn onsite during the collection

- All our logistics team are issued with disposable gloves

- None touch collection paperwork will be sent to you before the collection and full audited documents emailed to you on completion of processing your IT assets

Our safety guidelines and procedures have been implemented to ensure our customers of a safe collection, secure disposal process and to minimise the risks of COVID-19. For further information please contact our sales team.

All the team here at Green IT Disposal hope you stay healthy and look after each other.
