

MAX-D

AUDIO PERFECTED

STOCK SYMBOL:
MAX-D

WHETHER YOU'RE COMMUNICATING ON THE PHONE, LISTENING TO MUSIC, PLAYING A VIDEO GAME, OR WATCHING A MOVIE, **MAX-D CREATES THE RICHEST AND MOST REALISTIC AUDITORY EXPERIENCE POSSIBLE, ON ANY DEVICE...**

-  MAX-D is the way music should be heard.
-  MAX-D restores sound quality without increasing the file size.
-  MAX-D creates an unparalleled audio experience for consumers; and will establish your brand with premium sound and performance.
-  MAX-D is cost effective and easy to implement.
-  MAX-D processed WAV files can be saved/converted as a compressed audio file - while having more definition, harmonic content, and dimension than the original WAV file.
-  MAX-D helps alleviate voice recognition errors.
-  MAX-D filters out background noise and keeps conversations focused.
-  MAX-D clarifies common phase anomalies in real time.
-  MAX-D is a proprietary process that, once applied to any voice transmission or audio file, will result in the most "true-to-life" audio ever experienced.
-  MAX-D is a dynamic, NOT a static, process.

MAX-D DEPTH, DIMENSION & DETAIL - DELIVERED!

“ I was ready to give up on the quality of today’s audio, then I came across this revolutionary technology and it renewed my faith in the future of all things audio. ”

— MICK FLEETWOOD —
