LiveSchool
*Proudly made in Nashville, TN.*

Track, reward & improve student behavior

What is LiveSchool?

✓ A teacher-friendly app for tracking behavior

✓ An app for student and parent feedback

✓ Tools for a school store and other engaging incentive systems

✓ A system for school and district data

Aligned with leading behavior interventions

PBIS   **CHAMPs**   **MTSS**   **RTI**

LiveSchool has not only decreased the number of students sent to the principal's office by 77%, it has also opened an amazing line of communication with families. Parents can easily look online to see how their students are doing 24 hours a day, 7 days a week. We're seeing better parent communication, more motivated students, and more student success!

Deryl Gentry   PRINCIPAL

LiveSchool is a 21st Century tool for school-wide behavior improvement.

The Old Approach

With the old approach, teachers and administrators design a system using behavior bucks, tickets, clipboards, spreadsheets, and other manual tools.

Staff have to spend lots of time tracking and managing the system. For all that work, parents don't get feedback about student behavior and administrators are left without data to monitor school progress.

Why LiveSchool?

LiveSchool is the most user-friendly, flexible tool to implement your school's behavior interventions.

Whether you use points, bucks, or a different approach, LiveSchool will lead to major improvements.

- Save teacher time
- Improve feedback to parents
- Access to data at any time
- Improve student engagement

More than an app

Support and resources you need to be successful
