Letter of Recommendation Guidelines

To Whom It May Concern:

Based on our previous application review, we have found the letter of recommendation is a very important component of the scholarship application process. The application already contains the student's transcripts, an essay from the student, and details of their qualifications. The letter of recommendation should provide information that describes who the student is and how they exemplify the qualities we are looking for when choosing the scholarship recipient.

We are looking for a portrait of this applicant's character, examples of their contributions, interaction with others, and a report on their promise for the future based on their performance in the present.

Cody Brown was a Griffin Elementary School fifth grader when a tragic accident took his life. Cody was a dependable student, an athlete, a musician, but mostly he was a great person of promise. He had a conciliatory attitude and worked for the underdog. Through your letter, we hope to get know how the applicant embodies the character Cody would have become.
