

# EXPLORER

**An affordable, performance rowing boat – ideal for fun and adventures on open water**

The Explorer is an exciting, brand new addition to Rannoch Adventure's fleet of adventure rowing boats. It's ideal for anyone wanting to enjoy rowing on open waters - whether you're a novice wanting a casual trip down the river with a picnic, or an experienced adventurer intent on exploring some of our planet's least trodden waters.

Rannoch Adventure is the world's #1 ocean rowing company and has a wealth of experience designing and building rowing boats. However, not everyone has the time or desire to spend months at sea crossing an ocean so it was always a matter of time before Rannoch came up with the ultimate rowing boat for shorter trips.

## Hail the Explorer!

- **Suitable for anyone and everyone** – no specialist training required.
- **High performance** – with topsides to expel the larger waves in choppy conditions yet light enough to cut through the water at an astonishing pace without much effort.
- **Easy to repair** – a unique feature for lightweight rowing boats - after a bad knock, the Explorer can easily be repaired anywhere in the world.
- **Stability** - capable of stability in choppy waters but robust and easy to handle.
- **Good looks** – a polished gelcoat gives a fantastic finish with intricate detailing.
- **Space** - designed for one or two people and has enough storage space for a tent, camping kits and a large dry bag. There's even room for your dog on board!
- **Affordability** – no more expensive than a top quality mountain bike!
- **Mobility** – weighing under 50kgs, the boat is easily managed by one person and comes with its own unique mobile wheel cradle for launching and moving around. A single boat can easily be lifted onto a car roof rack by two people or up to 8 boats can be stacked onto a road trailer.
- **Easy to store** - at just over 5 metres long, it doesn't take up much storage space.

## Is this boat for you?

It's the perfect boat for **everyone** - solo, pairs, mixed, man and dog, kids, veterans, ex Olympians and hesitant newcomers to rowing. The Explorer can get you wherever you want to go easily, safely and quickly.

It is ideal for anyone unsure about rowing a skiff anymore, anyone fed up of rolling their kayak, anyone who dreams of enjoying rowing into their advancing years, or anyone who simply wants to enjoy a healthy morning cutting through the water.

The Explorer is ideal for:

- Recreational rowing in rivers, lakes, estuaries;
- Cruising and camping;
- Challenging coastal adventure expeditions;
- Training and developing rowing skills.

The Explorer is unique - there are few other boats like this. Rannoch Adventure believes they have filled a **niche market** in the rowing world, by providing a boat in which anyone can enjoy performance rowing on a sturdy platform at an **affordable price**. It is a quality constructed rowing boat that anyone could step onto and enjoy without the need for any special training beforehand, a great boat for schools, clubs or institutions.

**The Explorer is a very clever boat that fits all these bills.**

## Unique design, manufacture and performance

The Explorer has been designed and created by Rannoch Adventure founder, Charlie Pitcher, and world renowned naval architect Phil Morrison.

With its **GRP construction** and a **polished gelcoat finish**, the Explorer is much **lighter and cheaper** than injection moulded boats and, as a result, has significantly superior and **more exciting performance** and **handling characteristics**.

The Explorer has a very practical and comfortable layout with shaped riggers, a large water proof hatch for dry storage, and is suitable for solo or pairs rowers. There are three rowing stations which ensure the boat is always balanced, regardless of whether it is used as a solo or pair's boat.

### Specifications

Length	510cm
Width	92cm
Depth	13cm
Length on water line	500cm
Width on waterline	80cm
Height (for crating)	52cm

## Delivery time

28 days from order and payment being received.

## Explore Your World - #RannochExplorer

*"I've always dreamed of making this special rowing boat a reality. We just needed to clock up enough miles and experience to understand what sort of boat would suit everyone, not just a small bunch of high octane ocean rowing adventurers."*

Charlie Pitcher, Founder – Rannoch Adventure
