Roxy Caribbean Sea Island Hopping 2021 Expedition

Late April 2021

Our eight day Caribbean island hopping expedition is a chance to explore the stunning islands around Antigua from the sea. These trips are ideal for anyone wanting to mix a strong row with fun exploring the turquoise coastlines, pristine beaches and characterful towns and villages of the Caribbean in a unique manner.

If you want a taste of what the Caribbean is all about, this is a great way to do it!

What to expect

Participating in a Roxy Expedition will be fun, testing and memorable. The rowing schedule for this trip will change each day but expect up to 12 hours of rowing per person on any single day, broken into two hour shifts. This is a tough schedule and parts of it will be mentally and physically exhausting. However, expect multiple swims ashore for some chill time on various beaches too!

Rowing in the ocean open waters under your own power is a fantastic achievement and you will look back on the adventure with great pride. The memories and friendships made along the way will hopefully last a lifetime.

Dates & Venues

Subject to confirmation, the expedition will leave from English Harbour in Antigua in the last two weeks in April 2020, arriving back into the same location 8 days later.

Accommodation

We have planned for 4 nights to be spent on board Roxy and 4 nights on land in simple accommodation. In adverse weather, there are up to 12 berths in close quarters on board. (The only reason for all 12 berths to be used at the same time would be in violent conditions). Rowers are required to bring their own sleeping bag.

Meals

All expedition meals and snacks on board are provided. Drinking water is available on the boat (via a water maker). Rowers may bring a limited amount of personal snacks if they wish, although plenty of food will be available. As this will be an island hopping expedition, stop offs on islands and restaurants will be scheduled depending on weather and rowing conditions.

Safety & Medical

- There are 2x professional Rannoch Adventure staff on board for the duration of the row.
- All on board safety equipment is provided.
- First aid kits and non-prescription medical supplies are available on the boat.
- The Rannoch Adventure skipper and co-skipper hold all required qualifications to lead this expedition.
- No smoking or drinking alcohol is allowed on or near Roxy.

Training and Fitness

The fitter you are, the more you will enjoy the expedition!

General Fitness

- You should be a strong swimmer, ideally being able to swim 100 metres fully clothed. Please certify yourself.
- In advance of a row of this nature, we suggest a minimum 10 week personal training programme which mixes erg work with dynamic exercise (ideally cycling but swimming, aerobics, yoga are all good too).
- A combination of high intensity exercise with prolonged endurance exercise is recommended.

We suggest rowers build their own programme bearing the above in mind and subject to their current level of fitness. We strongly advise rowers use a qualified personal trainer for any more specific advice.
