

INSIGHT

Helping Industry-Leading Companies Scale Their Data Teams

Insight Fellowship provides an unique opportunity to close the hiring gap and help your company find best fit

VETTING

Insight receives over 10,000 applications per year from PhDs and engineers, we select the top 6% to join our programs.

TRAINING

Insight Fellows solve real industry data problems to learn and demonstrate their skills in cutting-edge data techniques.

UNIQUE TIME-SAVING PROCESS

Average interview to hire rate is 5 TIMES better than standard recruiting pipelines, saving up to 100 hours of team recruiting time per data scientist & engineering hire.

PROVEN RESULTS

Over 400 companies have hired more than 1600 Insight Fellows, including over 20+ at each of Facebook, Netflix, LinkedIn, Amazon, and other top data teams.

By combining our outstanding pool of candidates with a unique approach to training and matching Insight Fellows to teams, we de-risk your hiring process, saving your data & recruiting teams time & money.
