

REDUCE WORKPLACE COVID RISK BY **82%**

THE PROVEN INDUSTRIAL SAFETY SOLUTION

THE STRENGTH OF STRONGARM TECH

StrongArm Tech understands first-hand how the profile of industrial risk can change in the blink of an eye, and we're constantly innovating to uphold our commitment of keeping the world's Industrial Athletes™ Proud, Protected and Productive no matter the conditions.

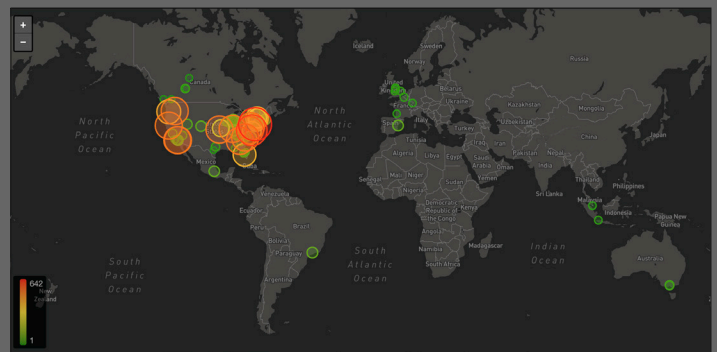

With more industrial wearables deployed than anyone else in the marketplace, and 2 million hours of movement, environmental and safety data collected every month, StrongArm is uniquely positioned to adapt quickly to the changing risk environment and deliver solutions that keep people safe.

With current deployments of our reconfigured FUSE Risk Management Platform and its new Covid capabilities - physical distancing alerts, customizable daily reports and contact tracing capabilities among them - we can definitively say that the FUSE wearable sensor is empirically proven to be effective in altering Industrial Athlete™ behavior to create a safer work environment in the Covid-19 era.

WHY STRONGARM TECH, WHY NOW?

We consistently deliver an **ROI of 5 to 1** or better for our clients.

- **More industrial wearables deployed than anyone else in the marketplace**
- **2 million hours of actionable movement, environmental and safety data collected every month**
- **15,000 FUSE Sensors active on Industrial Athletes™ worldwide, and counting**
- **Enduring partnerships with several top Fortune 100 companies**

WORKPLACE SAFETY IN THE COVID AREA

As cities around the world slowly begin to reopen, a new Covid-19 normal has emerged: Face masks, physical distancing, constant hand-cleaning ... these are all long-term realities whether you're going out for a meal with friends or putting gas in your car.

In industrial workplaces of all shapes and sizes, the future is even more uncertain. How do we continue to support our national critical infrastructure in the face of such a serious pandemic?

One thing is clear: Workplace safety in the Covid era will be a pressing issue for months, if not years. And the time to act is now.

PHYSICAL DISTANCING ALERTS

CONTACT TRACING CAPABILITIES

DAILY CUSTOMIZED REPORTS

THE STRONGARM COVID RESPONSE

CURRENT DEPLOYMENT SUCCESS

31%

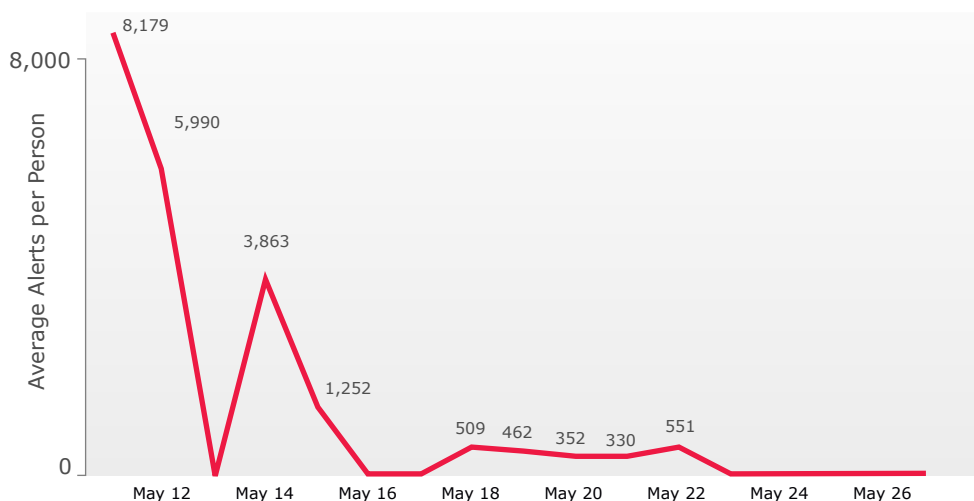

Decrease in proximity alerts between day 1 and day 2

82%

Decrease in proximity alerts between day 1 and day 20

95%

Decrease in exposure risk for individual with highest number of day-one alerts

In just two weeks, workers wearing FUSE dramatically changed their behavior to reduce risk of exposure to other people.
