PRODUCT SYSTEM CATALOGUE

*Scandinavian design.
Global commitment.
Join the Reflex revolution!*

Looking for a smarter way of cleaning? Look no further.

REKOLA REFLEX is the given alternative to traditional flat mop systems whenever performance, productivity and environmental requirements are exceptionally stringent.

PROVIDING YOU WITH A COMPLETE 2-IN-1 multipurpose system, smart accessories and a ground-breaking cleaning method, Rekola Reflex will help you boost your business in a sustainable way.

JOIN THE REFLEX REVOLUTION!

Double-sided mopcloths combined with Power Squeegee and the unique Reflex cleaning method means outstanding possibilities to optimize the cleaning process and boost productivity.

REKOLA REFLEX APPLICATION AREAS

HEALTH CARE

PUBLIC AREAS
GENERAL BUILDINGS

FOOD INDUSTRY
HORECA

Two functions in one. Unlimited possibilities.

THE BEST OF TWO WORLDS. Dry, damp or absolutely wet? Light or heavy dirt? Or just dust? With or without cloth attached, Reflex is a professional tool that delivers outstanding performance and excellent ergonomics.

EXTREMELY VERSATILE. Push or pull? Reflex squeegee works perfectly both ways, and thanks to a full range of cloths and wipes, there is always a solution at hand that fits your needs.

2. Power Squeegee
For wet & dry surfaces

1. Power Squeegee + Mopcloth
Complete system for all-room cleaning

The Reflex cloth range offers four types of mopcloths and two types of disposable wipes. See price list for information.

How come that Reflex cleans deeper,
with no extra effort?

Because Reflex provides
80 % higher surface pressure.

THE SHARP AND FLEXIBLE rubber blade provides 80 % higher surface pressure than traditional flat mop systems. The result is deeper, more efficient cleaning, with less effort and in less time.

THE LIGHT WEIGHT OF THE TOOL is enough to obtain the pressure needed for optimum cleaning efficiency. No extra force need to be applied by the cleaner, which spares backs, shoulders, arms and wrists.

JUST KEEP MOVING and Reflex will keep floors cleaner than ever!

The Reflex mopcloth is 9 times smarter than a flat mop.

It is easy to see why.

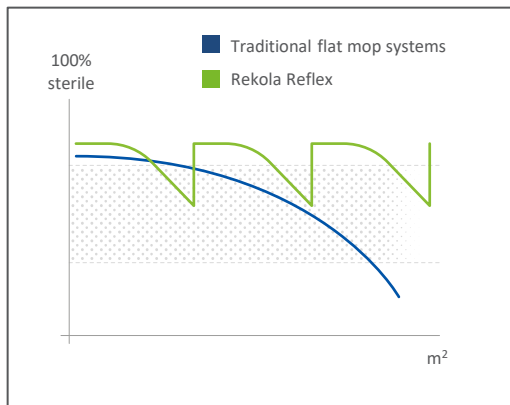

SAY GOODBYE TO FLATMOPS and say hello to better performance, improved productivity and user-friendly ergonomics. Here is how it works.

- **POSITION THE SQUEEGEE** on the mopcloth and start working your way backwards or forwards with traditional S-movements.
- **RE-POSITION THE SQUEEGEE** when the cloth has picked up enough dirt in front of the blade. Start mopping again.
- **USE UP TO 6 POSITIONS ON THE FRONT SIDE** before flipping over to the back side of the mopcloth.
- **USE UP TO 3 POSITIONS ON THE BACK SIDE** before you drop the mopcloth in the laundry bag (with no touch of course), and put on a new, clean mopcloth.

99.9 %

*Ultra microfibre eliminates
≥ 99.9 % of bacteria,
according to laboratory
tests

It takes something extra to fight bacteria and microbes.

Reflex does it over and over again, and better than the rest.

PROVEN RESULTS. The dirt uptake capacity of Reflex Ultra Microfibre (UMF) is superior to other materials, and therefore ideal for hospitals, clean rooms, laboratories and other places where hygiene is crucial. And when using UMF the Reflex way, you get all the benefits of both the material and the method. Nothing comes close to Reflex when it comes to hygiene.

HYGIENIC BY DESIGN. A short summary of the benefits of Reflex and UMF combined:

- REFLEX UMF eliminates ≥ 99.9 % of bacteria* and has superior dirt uptake
- 6–9 clean positions per REFLEX UMF mopcloth
- No touch changing
- Clean product design without dirt collecting Velcro or pockets
- The system cleans corners and edges, and works with floors, walls and ceilings

The Reflex recipe for smart and sustainable cleaning starts here:

*Put 10 mopcloths in the box.
Add 0.6–1.2 litres of water*
Close the lid
Wait 5–10 minutes
Go ahead and clean!*

*Tap water with or without chemicals,
or Ultra H₂O, Terzano or InnuScience

Good news for our planet and
your cleaning economy:

Reflex helps you save time, money
and water.

REFLEX SAVES YOUR DAY. Compared to flat mops, Reflex mopcloths substantially reduce costs for purchasing, energy, laundering and pre-preparation. And throughout the cleaning process the Reflex System contributes to both time and environmental gains.

BEST-IN-CLASS CLEANING LOGISTICS. From pre-preparation and loading of the trolley, Reflex mopcloths make the work day easier for the cleaner. A 14 Ltr loaded box contains up to 10 prepared UMF cloths, each providing up to 9 fresh positions per cloth – enough for cleaning up to 10 regular hospital rooms!

THIS MEANS EXCEPTIONAL potential to optimize the overall cleaning process, boosting hygienics and user-friendliness at the same time. Reflex makes everybody a winner. Even the planet.

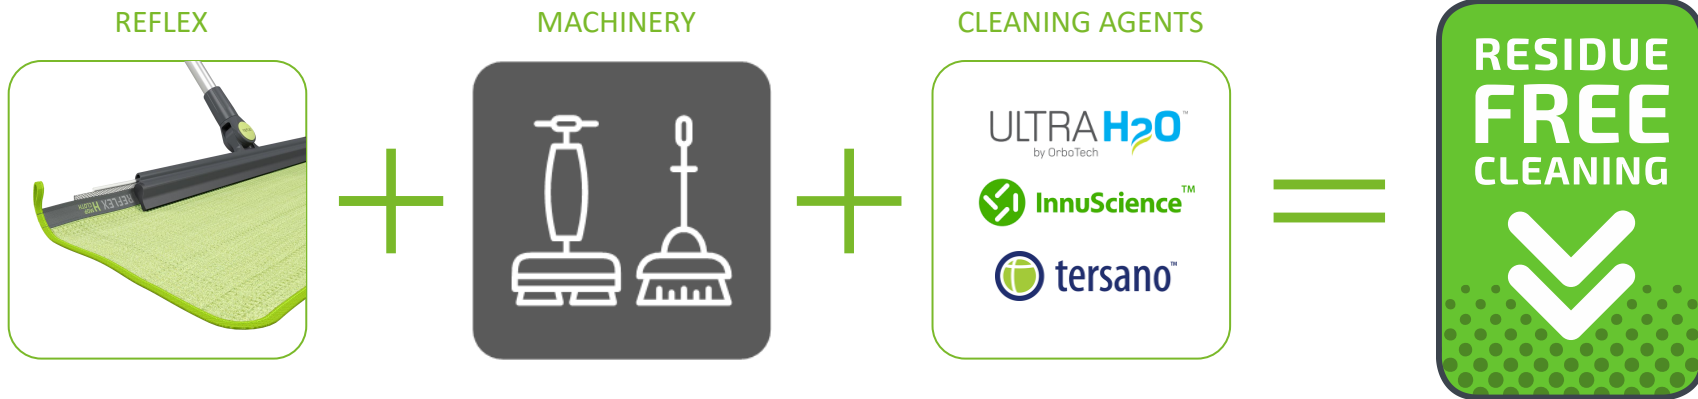

Rekola Reflex supports Residue Free Cleaning.

Here is how it works.

RESIDUE FREE CLEANING (RFC) is the concept of eliminating residue of dirt and chemicals that can harm people's health.

RFC HAS BEEN DEVELOPED by Rekola together with a group of partners committed to fight residue that traditional cleaning methods fail to remove. Please contact Rekola for more information.

Summary of benefits vs. flat mop systems:

#1. OUTSTANDING PERFORMANCE & VERSATILITY

PROVEN HYGIENICS

- Ultra Microfibre eliminates $\geq 99.9\%$ of bacteria (laboratory tests)
- 6–9 clean positions per cloth
- No touch cloth changing
- Clean product design without dirt collecting Velcro or pockets

DEEP CLEANING PERFORMANCE

- 80x higher surface pressure, deeper cleaning
- Outstanding dirt uptake with Ultra Microfibre
- Optimized performance due to flexible rubber blade

VERSATILE & AGILE

- Cleans corners and edges, and gets into crannies
- Works with floors, walls and ceilings
- Squeegee for wet or dry surfaces
- Full range of mopcloths for pre-prepared cleaning
- Two types of disposable wipes

LIGHT & ERGONOMIC

- Light-weight system
- Low drag resistance when mopping
- Comfortable grip
- Telescopic handle with quick-set extensions
- Lighter load and fewer tools on the trolley

99.9 %

Ultra microfibre eliminates
 $\geq 99.9\%$ of bacteria,
according to laboratory
tests

93.8 %

Dirt removal on soiled
floors, according to
laboratory tests

Summary of benefits vs. flat mop systems:

#2. INCREASED PRODUCTIVITY

REDEFINING CLEANING EFFICIENCY

- Easy to use, quick implementation
- Optimized workflow
- 2-in-1 system squeegee and mopcloth
- One mopcloth covers 50% more sqm than a flat mop!
 - Fewer mop changes – saves time, improves hygiene
 - Less washing – saves money and water
 - Fewer mops needed – saves money & space
- Only Reflex can use Ultra Microfibre for floor cleaning

OPTIMIZED CLEANING ECONOMY

- Reduced laundry costs
- Reduced costs for chemicals and water usage
- Reduced investment costs
- Reduced costs for transport and storage space
- Reduced costs for trolleys (smaller is possible)

50 %

more square metres
covered with Reflex
mopcloths!

Summary of benefits vs. flat mop systems:

#3. CLIMATE- & ECO-FRIENDLY

EXCELLENT ENVIRONMENTAL PERFORMANCE

- Reduced consumption of drinking water
- Less or no need for chemicals
- Reduced consumption of detergent
- 80% savings on laundry and electricity
- Nordic Swan Ecolabel
- Low microplastic shedding

80 %

Savings on laundry
and electricity

All prices exclusive VAT and ex-works our warehouses

Rekola Reflex H MOPCLOTH

100 % UMF

54 x 22,5 cm

18-2050 **blue** code

18-2054 **red** code

18-2055 **green** code

18-2056 **yellow** code

160 pcs per box per color

100% UMF for optimal daily cleaning on well maintained smooth floors. Suitable for areas where high standards are required, such as healthcare, schools, food, gastronomy, etc. We recommend deep machine cleaning or sealing prior to use.

Rekola Reflex G MOPCLOTH

50 % UMF, 50 % PE

54 x 22,5 cm

18-4050 **blue** code

18-4054 **red** code

160 pcs per box per color

50% UMF for cleaning of less maintained smooth floors. Suitable for areas where a good visible cleaning is required, also on edges and in corners. Ideal for offices, public buildings and less closed floors like non-treated linoleum or rubber floors.

All prices exclusive VAT and ex-works our warehouses

Rekola Reflex S MOPCLOTH

50 % UMF, 50 % PET
54 x 22,5 cm

18-7050 blue
18-7054 red

100 pcs per box per color

50% UMF combined with PET film. For manual deep-cleaning and cleaning of abrasive floors like bathrooms, dressing rooms and toilet areas in healthcare, schools or kitchens. Also applicable for industrial cleaning like the food industry (bakeries and meat production) or around machinery at production sites.

Rekola Reflex A MOPCLOTH

100 % MICRO
54 x 16 cm
4 color tags – blue, red, green, yellow

18-0057 grey

100 pcs per box per color

100% Polyester Microfiber. Highly absorbing (up to 500 ml). Suitable for manual cleaning of entrance areas during the winter season, or as a dusting mop for floors, walls and around windows and doors. Also ideal for applying wax or coatings

All prices exclusive VAT and ex-works our warehouses

Rekola DUSTER

Disposable wipe
52 X 35 cm

17-5050

150 pcs per box

100% Polypropylene for dusting. Double-sided with a capacity of up to 1000 m² (dust and floor related). Suitable for dust control in cleanroom areas and for public areas such as airport terminals where daily cleaning is done by machines.

Rekola Reflex DUOSPEED

Disposable wipe
54 X 18 cm

17-5010

150 pcs per box

100% Microfiber for damp mopping. Both sides can be used for optimal daily cleaning on well maintained smooth floors. Suitable for areas like healthcare and gastronomy where hygiene requirements are high but washing of Mopcloths is not an option

All prices exclusive VAT and ex-works Hewitex BV The Netherlands, larger volumes on request.

*Bendable duster for dusting dry or damp of higher areas like cupboards and (round) air channels.
The cloth in the picture is not included.*

Rekola Reflex DUSTER
(without cloth)

08-90002
20 pcs per box

Duoflex tool for streak free dry or damp cleaning of surfaces, like glass and stainless steel

*Two different pads are available.
The abrasive pad is aimed at more greasy surfaces and/or protein removal (flies, food)*

Rekola Reflex DUOFLEX
2 x 7 x 20 cm

11-9071
72 pcs per box

Rekola Reflex PAD FOR DUOFLEX
23 x 18,5 cm. 5 pieces in polybag

11-90076 blue Glass cloth
200 pcs per box

11-90077 blue AbrasiveSoft
200 pcs per box

*100% Ultra Microfiber that picks up protein and bacteria up to 99,9%.
The pocket structure secures that also larger dirt particles are picked up.*

Rekola Reflex H HANDCLOTH

100 % UMF Standard waffle cloths 300 Grs

54 x 22,5 cm

Package unit 40 pcs 5 pack

05-0250 **blue**

05-0254 **red**

05-0255 **green**

05-0256 **yellow**

200 pcs per box per color

50% UMF and 50% PE film make the hand pad ideal for cleaning sink and sanitary ware without damaging chrome on taps etc. Washable after use and therefore a better and more sustainable choice than unhygienic sponges.

Rekola Reflex S HANDPAD

50 % UMF, 50 % PET

15 x 18 cm

Package unit 40 pcs 5 pack

10-0350-2 **blue**

10-0354-2 **red**
