

REKOLA

REFLEX

The new guide
for floor cleaning

A smarter way of manual floor cleaning.

REKOLA REFLEX is the alternative for traditional mop systems whenever performance, productivity and environmental requirements are your priorities.

OFFERING YOU WITH A COMPLETE 2-IN-1 multipurpose system, smart accessories and a ground-breaking cleaning method, Rekola Reflex will help you boost your business in a sustainable way.

Two functions in one. Unlimited possibilities.

THE BEST OF TWO WORLDS. Dry, damp or absolutely wet? Light or heavy dirt? Or just dust? With or without cloth attached, Reflex is a professional tool that delivers outstanding performance and excellent ergonomics.

EXTREMELY MULTIFUNCTIONAL. Push or pull? Reflex squeegee works perfectly both ways, and thanks to a full range of cloths and wipes, there is always a solution at hand that fits your needs.

1. Power Squeegee + Mopcloth
Complete system for all-room cleaning

REKOLA REFLEX APPLICATION AREAS

HEALTH
CARE

PUBLIC AREAS
GENERAL BUILDINGS

FOOD INDUSTRY
HORECA

2. Power Squeegee
For wet & dry surfaces

REKOLA REFLEX BENEFITS

• INCREASED PRODUCTIVITY

REDEFINING CLEANING EFFICIENCY

- Easy to use, quick implementation
- Optimized workflow
- 2-in-1 system squeegee and mopcloth
- One mopcloth covers 50% or more sqm than a flat mop!
- Fewer mop changes – save time, improve hygiene
- Less washing – save money and water
- Fewer mops needed – save money & space
- Only Reflex can use Ultra Microfibre for floor cleaning

OPTIMIZED CLEANING ECONOMY

- Reduced laundry costs
- Reduced costs for chemicals and water usage
- Reduced investment costs
- Reduced costs for transport and storage space
- Reduced costs for trolleys (smaller is possible)

50 %

or more square
metres covered with
Reflex mopcloths!

80x

higher surface
pressure = deeper
cleaning

How come that Reflex cleans deeper, with no extra effort?
Because Reflex provides 80x higher surface pressure

• OUTSTANDING PERFORMANCE & MULTIFUNCTIONALITY

PROVEN HYGIENICS

- Ultra Microfibre eliminates $\geq 99.9\%$ of bacteria (laboratory tests)
- 6–9 clean positions per cloth
- No touch cloth changing
- Clean product design without dirt collecting Velcro or pockets

DEEP CLEANING PERFORMANCE

- 80x higher surface pressure, deeper cleaning
- Outstanding dirt uptake with Ultra Microfibre
- Optimized performance due to flexible rubber blade

EASY & MULTIFUNCTIONAL USE

- Cleans corners and edges, and gets into crannies
- Works with floors, walls and ceilings
- Squeegee can be used for squeegeeing & sweeping
- Full range of mopcloths for pre-prepared cleaning
- Two types of disposable wipes

LIGHT & ERGONOMIC

- Light-weight system
- Low drag resistance when mopping
- Comfortable grip
- Telescopic handle with quick-set extensions
- Lighter load and fewer tools on the trolley

THE SHARP AND FLEXIBLE rubber blade provides 80x higher surface pressure than traditional flat mop systems. The result is deeper, more efficient cleaning, with less effort and in less time.

THE LIGHT WEIGHT OF THE TOOL is enough to obtain the pressure needed for optimum cleaning efficiency. No extra force need to be applied by the cleaner, which spares backs, shoulders, arms and wrists.

JUST KEEP MOVING and Reflex will keep floors cleaner than ever!

CLIMATE- & ECO-FRIENDLY

EXCELLENT ENVIRONMENTAL PERFORMANCE

- Reduced consumption of drinking water
- Less or no need for chemicals
- Reduced consumption of detergent
- 80% savings on laundry and electricity
- Nordic Swan Ecolabel
- Low microplastic shedding

80 %

Savings on laundry and electricity

Low plastic emission

RESIDUE FREE CLEANING

Rekola Reflex supports Residue Free Cleaning. Here is how it works.

RESIDUE FREE CLEANING (RFC) is the concept of eliminating residue of dirt and chemicals that can harm people's health.

RFC HAS BEEN DEVELOPED by Rekola together with a group of partners committed to fight residue that traditional cleaning methods fail to remove. Please contact Rekola for more information.

Learn how to use Rekola Reflex:
