CBENT COVID-19 Mitigation Protocol

1. Patient screening, including oxygen level, temperature, symptoms, and contacts. PCR testing for high-risk patients/procedures. Mandatory use of masks.
2. Staff training in infection control; use of PPE; periodic testing
3. Limiting traffic: Telehealth, direct from car to exam room without waiting room, check-in or check-out
4. Exam room modifications, including CDC-compliant Airborne Infection Isolation Rooms
5. Frequent sanitizing with EPA-registered cleaner and fog disinfection
