

FIRMVIEW® MOBILE

“Keeps you in the know”, while on the go...

FirmView® is a cloud-based Performance Management and Reporting Solution for the Alternative Investment Industry. The FirmView® mobile app provides access to your firms most important data for investors, deals and fund performance.

TOP FEATURES

Get immediate visibility into financial performance with real-time, consolidated reports. Reduce the time spent compiling, reconciling, and consolidating data from fragmented systems

INVESTORS

View investor commitments, performance and contact information

PERFORMANCE

Stay up-to-date with the latest fund and investment performance across your portfolio

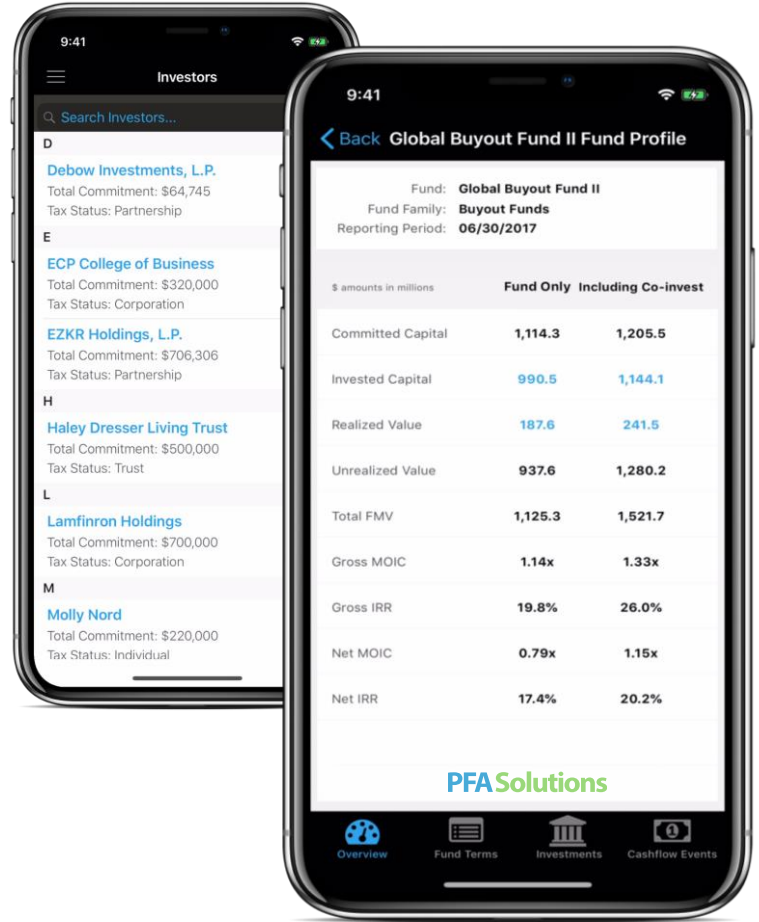

PORTFOLIO

Monitor specific portfolio level data and risk exposures

CASH FLOWS

Track the latest cash flow activity for distributions and capital calls

“By deploying the mobile app, we’ve been able to ensure that everyone in the firm has the latest information in their hands wherever they may be in the world.”

- Peter Haskopoulos
