JANUARY 24TH, 2022

The Covid-19 pandemic persists with new variants emerging. Now almost two years in, governments continue to impose lockdowns, travel restrictions, and other measures to contain the spread of the virus. Interruption to business is broader, including the impact of global natural disasters: hurricanes in the Americas, tsunamis in Asia, volcano eruptions in Iceland. Match this with human error akin to the 2021 Suez Canal Blockage, and important narratives about causation unfold.

Dr. Harald Sippel and Dr. Kabir Duggal

along with NYIAC invite you to a timely launch on a book entitled
"Force Majeure and Hardship in the Asia Pacific Region."

This book provides us with a comprehensive
discussion of these topics in 17 jurisdictions
