LIFT + FIRM SCULPTING CREAM
FOR FACE AND NECK

Solving The Aging Problem from The Inside Out

Like many aging men and women, I got tired of the constant lies in the anti-aging, anti-wrinkle skin care industry. I had been taken advantage of by the so called top anti-aging wrinkle creams, throwing my money down the drain with no results to show for it. Nearing 50 years of age with very little headway on controlling my crow's feet, sagging and age lines, I gave up. I wanted something natural and not abrasive, I wanted something I could afford, but most of all, I wanted something THAT WORKED.

I stumbled upon [this video](#) by Dr. John Layke, a renowned cosmetic surgeon in Beverly Hills, and it CHANGED MY LIFE. Beverly Hills MD Lift + Firm Sculpting Cream does more than just pile on collagen and elastin. This formula focuses more on restoring your skin's support structure, enabling it to slow down the aging process. With unique technologies that I hadn't even heard of, I knew this company was thinking outside of the box.

What's in it?

How to use Beverly Hills MD Lift & Firm Cream

Why I chose (and still choose) this product

- money back guarantee, no risk free trial gimmick
- no irritation, dryness or flaky feeling after repeated use
- targeted an area of aging that I didn't even think of (neck)
- noticeable change in a few days (smoother, glowing skin) with vast changes over several months (tightened skin on face and neck with some diminishing lines)
- works on hands (plumps and fills)

What can be improved

- price (can get on Amazon for \$65 or promotional for less), discounts on multiple jars

- critics feel that this product takes too long to see results
- better product packaging (lots of complaints on air bubble – leaving less cream in the jar)
