

## Serviced Hot Water Price Changes and Other Information for 2022-2023

Metered Energy is proud of the high levels of service we provide to all of our customers and this fact sheet has been created to give all of our customers the most up to date information in relation to changes that have been implemented for the 2022-2023 financial year.

### Gas and Hot Water Information

Metered Energy will provide and maintain the central hot water plant for the building and ensure each customer is metered individually to provide accurate billing against consumption.

The hot water plants are engineered to provide constant hot water suitable to the buildings demand.

Gas in most residential properties is billed on a fixed daily rate and is commonly known as a UMA or Unmetered Appliance charge.

Large users are normally individually metered and charged on a tariff structure per MJ. The rates will depend on geographic location.

### South East Queensland Serviced Hot Water Price Comparison

Our serviced hot water rates are calculated per billing period which for sites on a monthly billing cycle is between 28 & 32 days, those on a quarterly billing cycle is between 86 & 96 days.

Usage Type	2021-2022	2022-2023
<b>0-1,333 Litres</b> (c/litre, per month)	2.679	3.081
<b>0-4000 Litres</b> (c/litre, per quarter)	2.679	3.081
<b>1,333-2,666 Litres</b> (c/litre, per month)	1.683	1.936
<b>4,000-8,000 Litres</b> (c/litre, per quarter)	1.683	1.936
<b>&gt;2,666+ Litres</b> (c/litre, per month)	1.231	1.416
<b>&gt;8,000+ Litres</b> (c/litre, per quarter)	1.231	1.416
<b>Minimum Charge</b> (c/day)	71.320	82.017
<b>Hot Water Supply Charge<sup>1</sup></b> (c/day)	14.774	20.866

### Frequently Asked Questions

#### What is UMA?

UMA stands for Unmetered Appliance and relates to a gas cooktop or other gas appliance in a unit. Installing a meter to these appliances is impractical and not cost effective.

If a meter was installed, you would be charged on the basis of actual consumption and would see significantly higher gas charges.

### Unmetered Appliance Charge Comparison

Usage Type	2021-2022	2022-2023
<b>UMA per day</b> (c/day)	38.50	44.275

#### Important Notes

All prices are listed in cents per day (c/day) or cents per litre (c/litre) and include GST.

<sup>1</sup>The Hot Water Supply Charge is waived if you are billed for electricity on the same invoice.

#### Price Changes

We may vary our Default Market Offer not more than once every 6 months.

## Serviced Hot Water Price Changes and Other Information for 2022-2023

For all enquiries, power outages or emergencies between 7:30 am to 5:30 pm, Monday to Friday contact us on 1300 633 637.

### QLD Government Rebates

#### 2022-2023 Electricity Rebate

As the standard domestic tariff in Queensland has increased for 2022-2023,

If you are a consumer of electricity and/or reticulated natural gas purchased from a Retail Entity and are in receipt of one of the cards stated below you may be eligible for a rebate of the following:

The new gazetted rebate is **\$0.9270 per day** (GST exclusive) per day applied against the dollar and cents value of the electricity consumed based on the applicable (GST exclusive) tariff. This rebate equates to an annual rebate of **\$372.20 per year** (GST inclusive).

#### 2022-2023 Reticulated Natural Gas Rebate

The Natural Gas concession has increased.

If you are a consumer of electricity and/or reticulated natural gas purchased from a Retail Entity and are in receipt of one of the cards stated below you may be eligible for a rebate of the following:

The new gazetted rebate is **\$0.2012** (GST exclusive) per day applied against the dollar and cents value. This rebate equates to an annual rebate of **\$80.77 per year** (GST inclusive).

#### How to apply for a rebate

To find out if you are eligible and for more information on how to apply for a rebate and concession visit [www.meteredenergy.com.au](http://www.meteredenergy.com.au)

### Benefits of being a Metered Energy Customer
