

Report on: Selected Students

Number of Students with Results: 7
 Average Test Time per Student: 00:42:44
 Testing Window: 08/01/2019 - 09/30/2019
 Target Score: Fall

Overall Universal Screener Assessment Results - Mathematics

Average Readiness: 339

Overall Universal Screener Results by Key Strands - Mathematics

Geometry	Numeration	Operations	Statistics & Probability	
				RECOMMEND FURTHER EVALUATION
Stephens, Stephanie Buccheim, Hans Henley, Jerry Avila, Alicia Johnson, Jada	Stephens, Stephanie Buccheim, Hans Henley, Jerry Avila, Alicia	Stephens, Stephanie Buccheim, Hans	Stephens, Stephanie Buchheim, Hans Henley, Jerry Avila, Alicia	

Purpose: Analyzes student results for grade-level readiness. Identify students requiring further evaluation by strand and potential intervention. Results are also used to determine movement across tiers in RtI.
Next Steps: Target instruction and accelerate growth by strand for each student by generating and monitoring ILP for each student.
Disclaimer: These recommendations are based on student assessment results and represent a snapshot in time. They do not represent the totality of the student. As such, they should be used as only part of the RtI assessment process.
