

Progress Monitoring District Report

Reporting Period: 2020 - 2021

Filters: On both pages, Filter by subject, school, month, and grade.

PM OVERVIEW

Summary Data

The data on the right-hand side labeled "Summary Data" is an overview of how students are performing on Progress Monitoring.

[Active Progress Monitoring Sessions](#)

The first number indicates how many active progress monitoring sessions your district has turned on during the selected time filter.

[Participation Percentage](#)

The second number, participation percentage, is the percentage of students with active sessions that have completed at least one CBM in a given month.

[Average Rate of Improvement](#)

The third number is the average rate of improvement on progress monitoring assessments for students.

[Percent on Target](#)

The last number is the percentage who have met or exceeded their targeted rate of improvement on progress monitoring.

[Skills Summary](#)

The chart on the left-hand side is a break down of all skills covered in progress monitoring ranked by student performance. Performance in this case indicates the number of questions students have answered correctly about this skill divided by the total number of questions answered about this skill.

PM USAGE & ROI

Active Sessions by School

The tree chart on the second page shows the number of progress monitoring sessions that have been active throughout the semester grouped by schools.

Average Rate of Improvement by Grade

The bar graph below shows the average rate of improvement on progress monitoring assessments grouped by grade. Below each grade header you can see the number of students by grade used to calculate the rate of improvement.
