

Slideshow

Dedication Video

A Custom Presentation

What you will need

1. Your images need to be in a digital format. **If you only have physical prints:** we offer [Bulk scanning](#) for up to 300 pictures for \$100. Required 3 days before the start of video production.
2. Images are sorted by name in the order you want them to appear.
3. Music; we will provide a few samples.
4. Additional features, *i.e.*, *Titles*
5. Final Format - **Where is your video going to be played?** The format depends on the device you will play the video on.

Getting started

Want us to make you a Slideshow video?

We craft simple videos for your occasion using Adobe Premiere. Memorials, birthdays, and special events. A 2-week turnaround is required for videos. Under particular circumstances, we can make a video sooner.

Procedure -

- a. After receiving the images, we will make a proof video for reviewing.

The video will be password protected on **YouTube for your private viewing to make revisions and discuss any changes you would like to add.** *In-store review is by appointment only.*

- b. Once changes are made, another video will replace the original for reviewing. After the proof is approved, it will go to processing.
- c. Exporting to the selected format.

Video formats

MP4: The most common file type for videos, playable on TV and laptops via USB or disk - \$20 for each USB.

Online video: This is an excellent option for families with members who can't attend but still want to see the video. JPI will post the video on a website like YouTube or Vimeo for a **limited time** and available to download from a cloud storage service (May vary depending on video size and cloud limitations) - \$10

Disk: With the advancements of technology, Disks are becoming outdated. We still offer them, but their quality reflects their limitations. A DVD has the only option with menu capabilities. - \$10

Copyrighted information

We will not use any copyrighted materials: *ANYTHING* with copyright is prohibited from being used in your video, including

copyrighted photos and music you provide. If you want to use copyrighted material, you will need to provide a copyright release from the copyright holder in email form to Lab@JPIPhoto.com with contact information to the copyright holder.
