

success story:

Plattco Valve Increases Production by 10%

Plattco Model: H-1222
Material: Soda Ash
Capacity: 600 cubic feet per hour
Temperature: 400°F

Equipment Above: Cyclone
Equipment Below: Screw Conveyor
Pressure Above: -5" wc
Pressure Below: 1" wc

Plattco double dump valve with 6" Dutchman conveying hot soda ash from cyclone back to the mill. Replaced inefficient rotary valve and improved cyclone efficiency so much that production on this process increased 10%.
