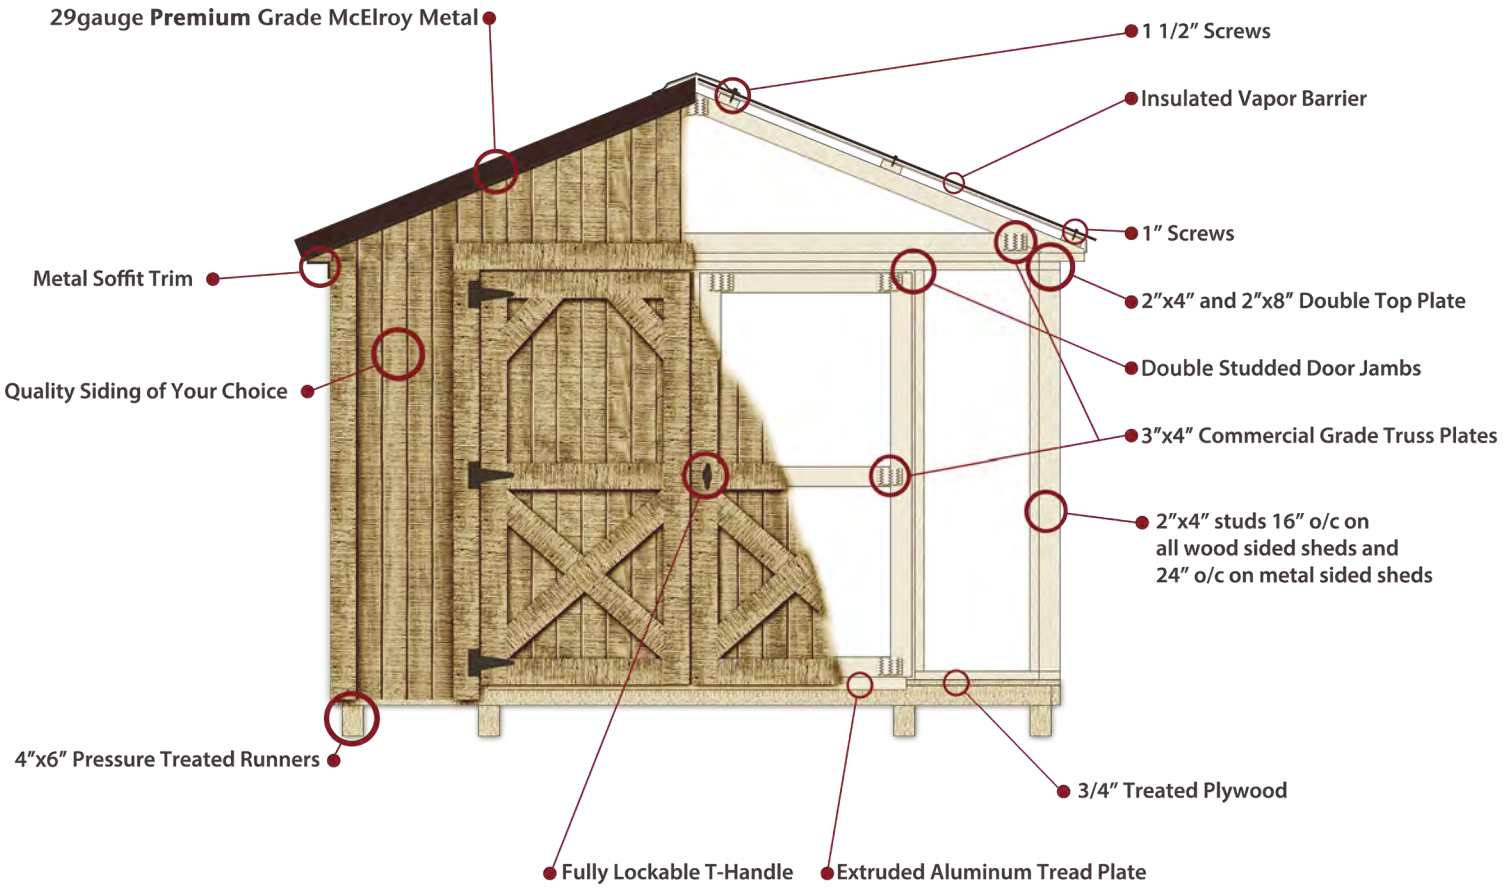
Quality Construction



Quality and Service *have long been our highest priority here at Cricket Valley Structures. From the very first barn we built in 2005 to the ones coming off the line today, we are continually looking for ways to improve our barns without making you pay a premium price for it. Quality is why we use a Premium Grade 2"x4" for all our studs, 2"x8" top plates, 3"x4" metal truss plates for our trusses and doors, 4"x6" runners.... the list goes on and on (Please refer to the "Quality Features" section on page 16 for more details). We greatly value you as a customer and even more as a person, therefore we believe you should be treated with the best customer care in the industry and we would be happy to supply you with a "best in class" Cricket Valley Structures shed.* ***We will stand behind the quality workmanship of our buildings with a 6 year warranty on all of our structures.***

Your new Workshop, Garage or Garden Shed is shown in the pages of this brochure. You can decide what model you would like; add windows, flower boxes, shutters and even extra doors if you would prefer. If you can't find the right style that fits your need, please talk to your local sales representative and we will be delighted to see if we can design a barn specifically to fit your needs.

Enjoy!
Your Cricket Valley Structures Team

- Stainable and paintable.
- Comes with a 3-5yr water resistant stain.

*Should be stained or painted on a regular basis.

pro'wood PROFESSIONAL GRADE

"When we received our barn it was so much more than I even imagined. You if you are waiting to find the perfect place to purchase you just did. Don't second guess it. You won't be sorry. The quality of this barn is beyond anything you could even imagine. We didn't have one issue at all. It's a dream come true. Thanks again for your skill and choice materials. It's awesome!"

B. Taylor

Product Information

R-10 Insulation Value

Standard in all our roofs!

- Reduces building condensation.
- Forms an effective wind and vapor barrier.
- Reduces heat loss in winter and heat gain in summer.
- Not affected by moisture and humidity.
- Bird, rodent and insect resistant.

Rent-To-Own

Tired of driving across town to get to your storage?

Now you can have a storage unit in your own backyard,
and after making just 36 monthly rental payments the building is yours.

Why rent a storage unit when you can have your own Rent-To-Own?

Rent-To-Own

Rent a building in the size, color and style you choose, delivered to your own backyard, and own that building after renting for only 36 months.

All that is required to enroll in our rent-to-own program is an initial payment of one month rent, a security deposit equal to one rental payment (including sales tax and damage waiver fee if applicable) and the ability to make 35 monthly payments thereafter. Since this is not a loan, no credit check is required. You simply rent on a month by month basis for 36 months.

You may cancel the rental contract at any time simply by calling us and requesting that we pick up the building at no further cost to you. You may also purchase the building at any point by simply paying 60% of the remaining balance on your 36 month lease.

If you choose our Rent-to-Own plan, you do not acquire any ownership rights unless you pay the full amount required for ownership or exercise an early purchase option.

Rent-To-Own is made available by;

Country Classic Rentals, LLC
PO Box 2
Russellville, Ohio 45168

Delivery and Setup

FREE
Delivery + Setup!
Within 50 Miles of Dealer

- Reduces yard damage.
- Enables delivery in moist areas.
- Easily maneuvers thru tight spots.

Site Preparation Recommendation

WE RECOMMEND -

Level Ground - Base should be 12" larger than building on all four sides. Remove 3 - 4" of sod and fill back in with No. 57 limestone or gravel, making sure that the entire area of stone is level. Or, put 4-5" of gravel on top of sod, than make sure it is level and compacted.

Sloped Ground - Remove 4-5" of sod on high end and build up low end using 4"x4"s fastened together on top of each other creating a box frame, fill frame with No. 57 limestone. Level and compact stone. If barn is NOT built On-Site, pad must be accessible for equipment to move shed into place.

We level and block to a maximum height of 12". There is a charge of $10 per block used over 12".

Customer is responsible for all anchoring and permits.

Your Professional Dealer

We appreciate that you chose to look at our quality-built buildings.

CHOICES

We all have many choices to make in our journey through life. From birth till death we travel between the eternities. May the choices we make help us to find calmness in our soul, peace in our heart, a meaningful future, and a safe eternity…*For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.* JOHN 3:16
