📖 GetGLOWY, How To Glow, Lifestyle, Reading

When it comes to spiritual bookstores, we've found few who can compete with Venice, California's Mystic Journey Bookstore. This is our favorite place to kill time and get lost in a sea of #glowspiration.

If you find yourself in Venice, make sure to check out one of our top glow spots in Los Angeles, [Mystic Journey Bookstore](#). This place is brimming with a wide selection of spiritual books to enlighten and enrich every aspect of your life. We love to come and peruse through the books, and chill out and read in this relaxing environment—its really the perfect place to go when you have a little time to kill on the west side.

In addition to books, the shop also sells tons of glowy items such as singing bowls, worry stones, crystals, incense, chimes and much much more, making it a really special gift spot. Make sure to check out their full [calendar](#) of events with healers, psychics, inspirational speakers and more.
