STAND & PRAY

## The Extraordinary Impact Of Our Work

*"I just want to say thank you again. You and all the others who were praying for me that day changed my life forever. I do not regret my decision to keep him. He's perfect in every way and I couldn't imagine what my life would be like if I had gone through with such a horrible thing that day."*

## Join Us In A Peaceful, Prayerful Presence...

The most vulnerable among us are innocent, defenseless unborn human beings. These babies have no voice. Their pain, their anguish and their cries are silent. They depend on us to SPEAK UP! They depend on us to ACT in defense of their lives.

This is a unique opportunity to share the pro-life message up to the last possible moment with those entering Planned Parenthood's abortion facility!

## Be A Witness For The Unborn

When people stand in peaceful prayer on the sidewalks outside of the abortion facility, it draws women to investigate these life-affirming alternatives! Your presence can be a channel of God's grace to a frightened mother in crisis.

Countless post-abortive mothers have later reflected on their abortions by saying:

*"If only someone had been there, I know I would never have gone through with it."*

We cannot afford for there to be even one single day where a mother goes into an abortion clinic convinced that there is no-one to offer her the support she needs to choose life for her baby.

**The Big Blue Bus** is one of our mobile crisis pregnancy centers (CPC's), which was the first of its kind in Texas and is strategically parked next to the largest abortion facility in the Western Hemisphere, Planned Parenthood of the Gulf Coast.

This vehicle is a key part of the last line of defense before a pregnant mother sees the abortionist.

**Baby Blue** was launched in 2014 following the dynamic success of the Big Blue Bus and offers the same services outside of the Texas Ambulatory Surgical Center.
