We are dedicated to becoming a strong partner with each business. In order to have a progressive partnership, we have found that each party has to be invested in the process, including your employees. Some companies have found that a matching program works well for their culture. Most companies we work with do not have any type of budget for these types of services, but we at Verve work diligently to make sure everybody has a vested interest in their own wellness. Without the commitment to make a change, there won't be a lasting benefit.
