**Hosted over 150 College Expos, Financial Aid Seminars and College Planning Sessions**

**Over 95% of our scholarship winners finish college**

**BCE has awarded over 1 million dollars in Scholarships**

National College Resources Foundation is a staple in underserved communities. We provide programs and services to students and families focused on three pillar areas:

- Educational Achievement Gap
- Workforce Gap
- Economic Disparities

Due to the gaps widening in Achievement, Workforce and Economics, National College Resources Foundation has programs to address these areas and we have made significant impact on our communities.

**The Movement Enrichment Program**- A program that confronts the disparities in the educational system by providing holistic, comprehensive intervention, mentoring, tutoring, college and career planning, financial literacy, student athlete assistance and internship and career placement.

**Students Think STEAM**- A program that provides 20+ hands on curriculum to increase awareness and diversity STEAM (Science, Technology, Engineering, Arts, Aviation, Aerospace, and Mathematics). To help students from underserved communities increase their grades and test scores in math and science, and to help students explore all the career opportunities in STEM/STEAM. NCRF hosts "Students Think STEAM Expo" annually reaching over 3,500 students.

**Latino College Expo** – A program that engages Latino students ages 6th-12th grade in resources and opportunities that exist in higher education and post-secondary pursuits. Latino College Expo exposes current college students to opportunities and resources that exist for undergraduate/graduate students, such as scholarships/grants, and internship/career programs. This EXPO brings Hispanic Serving Institutions (HSI), Educational Funding Sources (Dream Act, Cal Grants, etc.), along with Internship and Career opportunities together to help students succeed.

**Black College Expo™**- BCE highlights over 50 of the 104 historically black colleges and universities, along with other higher learning institutions and educational services. BCE was created in 1999 to serve as a vital link between minorities and college admissions. Although the purpose is to educate ALL students about HBCUs and the college admission process, you'll find public colleges, private colleges, Ivy Leagues, and military colleges on site. The overall goal is to encourage and promote the importance of higher education, while providing positive guidance and pathways towards post-secondary pursuits for students from underserved and underrepresented communities.

**Student Athlete Program** - Student Athlete Program focuses on connecting students to college coaches to get recruited to play at the next level. We host sports showcases- Softball Showcase, HBCU Basketball Showcase, and HBCU Football Combine to give students an opportunity to get exposure. Our overall goal is to help students use their talent to get their college degrees. SAP teaches students how to be successful in sports, life and in the classroom. We have helped close to 1,000 athletes totaling over 80 million in athletic scholarships.
