AUTHORIZATION FOR INFORMATION AND INSURANCE RELEASE

I authorize release of information to my family dentist and to my insurance company(s) in order to process my insurance claim. I understand that I am responsible for all costs of my dental treatment. I understand that this endodontic specialty practice is a participating provider with Delta Dental Premier and no other insurance plans and that I am responsible for knowing the terms of my own insurance coverage. If fees are not paid in full by me at the time of service, I hereby authorize payment of dental benefits from insurance, otherwise payable to me, directly to David G. Oser, DDS, Inc.

Do You Anticipate Becoming Pregnant?

Are You Breast Feeding?

If Yes, How Many Months? _____

Please list any medications and/or recreational drugs (over the counter, prescription, or herbal/alternative) that you are taking now:

If you have had any serious complications involving dental treatment, please explain:

Informed Consent: I understand that root canal treatment is a procedure to retain a tooth which may otherwise require extraction. Occasionally, a patient may experience post-operative discomfort or swelling which may require medication for several days. Although root canal therapy has a very high degree of clinical success, it is still a biological procedure, so it cannot be guaranteed. Occasionally, a tooth which has had root canal therapy may require retreatment, surgery, or even extraction.
