EVERYONE CONTRIBUTES

We believe the more people that can help contribute content to a digital signage system the better! That's why we've designed Carousel so that everyone can use it, not just graphic designers.

- Template-based content
- Multi-user access
- Granular permissions
- Easy to use interface
- Mobile-friendly

KEEP CONTENT FRESH

We know that digital signage systems with stale content get ignored. We give you the tools to make sure your digital signage content is always up to date and relevant for your audience.

- Dynamic playlists
- External data feeds
- Alert/approval workflows
- Interactive content
- Full API

GROWS WITH YOU

We value long-term sustainability of digital signage networks. Carousel focuses on administration, up-time and total cost of ownership so you get the most value out of your signage network.

- Scalable server software
- Zero-touch player deployment
- Remote player management
- Streamlined administration
- 3rd party media player support

CUSTOM DESIGNS & TRAINING SERVICES

We help you get the most out of your digital signage from day one. Start with a beautifully designed channel layout for your signage that looks and feels just like you, but with none of the hassle of doing it yourself. Then get your staff trained quickly by our top-notch training team.
