

ToogleBox

ArkiveBox archives **Google Workspace** email accounts and keeps them safe for future use. Once archived, you can download the account information as an MBox with metadata, or reinstate it in a Gmail account

ToogleBox

Metadata

- Email account
- User Name
- Total number of emails
- Total size of emails
- Date of the first and last email
- User Account info, such as job title, department name, etc
- # of archives done

Installation

- The Superadmin must give access manually to ArkiveBox in the Security section on the Google Workspace Console
- Please contact us at services@tooglebox.com in order to activate the service.

ArkiveBox Characteristics

- **ArkiveBox** is an archiving service restricted to emails. No other Google Workspace app will be archived.
- It is not included in **ToogleBox**. It is a separate service that costs \$8 per account per year. We sell it in blocks of 10 accounts, with a minimum cost of \$80
- There are no limits for the size of the inbox.
- Once the account has been archived, the information can be downloaded in MBox format or reinstated to a Google Workspace account
