

ARCTIC SAFARI – PRACTICAL INFORMATION

WHAT TO BRING

DAY TRIPS UP TO 3 HOURS WITH M/V «BIGFISHER II»

CLOTHING:

Bring your own warm and windproof clothes – this applies for both summer and winter. Bring also headwear, scarf and gloves. We recommend underwear and woolen shirt – experience has thought us that this is the most effective when it comes to keeping warm out in sea. We also recommend UV protected sunglasses. If needed Arctic Safari has thermal suits for rental. Life jackets will be received onboard.

FOOTWEAR:

Wear warm and light shoes, and some warm socks – preferably of wool. The footwear is particularly important onboard.

SMOKING AND ALCOHOL:

Bringing alcohol or smoking indoors onboard is not allowed.

MEDICINE AND FIRST-AID KIT:

Gives us a notice beforehand if there's any health issues we need to be aware of and take into consideration.

SERVING:

On day trips up to 3 hours we don't serve hot food onboard. Mineral water and coffee can be purchased onboard.

OTHER:

We have a WC onboard with soap, toilet paper and towels.

Normally, there's no need for anti-motion sickness medication on the 3-hour day trips – the expedition goes in quiet surroundings.

We have all necessary equipment onboard for fishing, and will assist everyone on how to use it.

We can assist you with getting the fish of the hook if wanted, and we can also clean the fish for our customers, so that you may bring the fish home for preparation.

The most common fishes to catch on our expeditions are cod and pollock. We recommend our expeditions to families with children, or visitors to Tromsø who wish to combine a comfortable sightseeing tour with exciting fishing.

Bon voyage 😊

«Fishin' is our mission»
