

# Organizations Scale

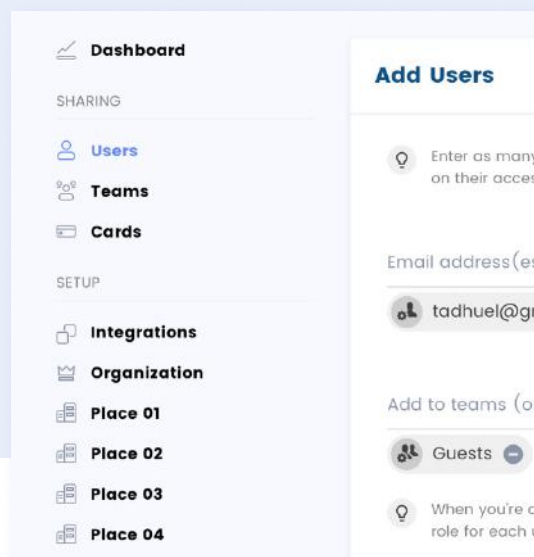

Here's what Organizations can do for your setup:

01

## Manage Users Across Multiple Places With One Click

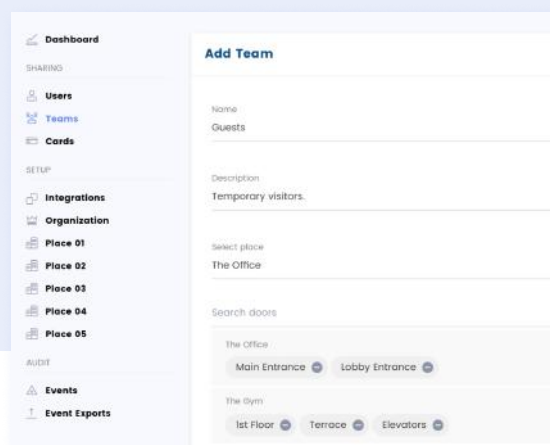

With Organizations you can add and remove users with one click to give them access to multiple places with predefined permissions. You can add users to "teams," which consist of access rights to different places.

02

## Set Up Teams

Using Organizations to manage permissions is easy: Simply set up a team, consisting of select access to doors across your entire organization, and manage all permissions globally.

03

## Streamline Billing Under One Account

With Organizations you get one invoice for all your places. You can also see all invoices in your dashboard with a detailed view and download receipts.

The screenshot shows a dashboard with a sidebar on the left and a main content area. The sidebar includes a 'Back' button and a section for 'ORGANIZATION SETUP' with menu items: Settings, Branding, Billing, Invoices (highlighted), and Create Place. The main content area is titled 'Invoices' and lists four items:

Amount	Charge Type	Period	Status	Actions
\$425	Subscription Charge	Mar 10, 2019 - Apr 10, 2019	Payment failed	View Details, Download, Pay, View Receipt
\$200	Non-Recurring Charge	Mar 15, 2019	Completed	View Details, Download, Pay, View Receipt
\$425	Subscription Charge	Feb 10, 2019 - Mar 10, 2019	Completed	View Details, Download, Pay, View Receipt
\$400	Subscription Charge	Jan 10, 2019 - Feb 10, 2019	Completed	View Details, Download, Pay, View Receipt

The first item has a 'Payment failed' label and a red 'X' icon. A dropdown menu is open for the first item, showing options: View Details, Download, Pay, and View Receipt.
