

# NEBRASKA PUBLIC POWER DISTRICT

Schedule: BT Issued: 11/15/17

Supersedes Schedule: BT Issued: 11/23/16

Sheet No: 1 of 2 Sheets

## BULK TRANSMISSION SERVICE RATE SCHEDULE (RESTRICTED)

(Name of Schedule)

### SECTION 1. AVAILABILITY

The Bulk Transmission Service Rate Schedule is available to a Transmission Service Customer for transmission services provided on the Bulk Transmission System only in conjunction with a contract between a Transmission Service Customer and NPPD entered into on or before January 1981 pursuant to which NPPD purchased, sold, exchanged or transferred participation power and energy or 345 kV and other transmission facilities and property; and only for the transmission and delivery of power and energy as specifically described in such contract.

### SECTION 2. DEFINITION OF BULK TRANSMISSION SERVICE

Bulk Transmission Service is defined as the wheeling of electric power and energy over the District's Bulk Transmission System which will include only facilities designed to operate at nominal voltages of 345 kV and higher and transformers and transformer terminal facilities for one level of transformation down from the transmission voltages of the Bulk Transmission System.

### SECTION 3. LIMITATIONS OF BULK TRANSMISSION SERVICE

- A. The District's underlying high-voltage transmission system and power generating resources are essential to the reliability of the Bulk Transmission System and inadvertent flows of electric power and energy may occur on such high-voltage system. However, such inadvertent flows shall not create any rights for use of such high-voltage transmission system by the Transmission Service Customer or for continuance of such inadvertent flows.
- B. The District shall be under no obligation to deliver electric power and energy at the point(s) of delivery in amounts in excess of that received by the District at the point(s) of receipt, adjusted for transmission losses. Neither shall the District be obligated to provide any point(s) of receipt or point(s) of delivery other than at established substations on the District's Bulk Transmission System or points of interconnection to the Transmission Service Customer as provided for by the contract between the Transmission Service Customer and the District.

### SECTION 4. RATES AND CHARGES FOR BULK TRANSMISSION SERVICE

- A. The rates and charges for Bulk Transmission Service are designed to recover the District's costs which the District deems allocable to acquiring, owning, operating, maintaining, and generally administering such of the foregoing utility functions as are attributable to the

**TAX CLAUSE:** In the event of the imposition of any new or increased tax or any payment in lieu thereof, in excess of that provided for under Article VIII, Section 11 of the Nebraska Constitution, by any lawful authority on the production, transmission, or sale of electricity, the rate provided herein may be increased to reflect the amount of such tax or in lieu of tax increase.

Effective : With service provided on and after January 1, 2018.

Approved: 11/9/17

Resolution No.: 17-48

**(Name of Schedule)**

Bulk Transmission System plus an amount to be determined by the District to finance renewals and replacements and improvements to the Bulk Transmission System.

B. Monthly Rates and Charges in dollars per kilowatt of maximum capacity reserved shall be as follows:

- (1) \$1.61 per kilowatt per month for the capacity reserved in the Bulk Transmission System lines, transformers (including transformation and related facilities at the Gerald Gentleman Station switchyard) and related facilities.
- (2) Any applicable Ancillary Service for (1) Regulation Up Service, (2) Regulation Down Service, (3) Spinning Reserve Service, (4) Supplemental Reserve Service, and (5) Reactive Supply/Voltage Control Service, as defined and at the charges specified in the District's Schedule T-2, Transmission Service Rate Schedule.

The above Rates and Charges shall be applied to the maximum capacity as set forth in the contract in which this Rate Schedule BT is incorporated.

**SECTION 5. CUSTOMER RESPONSIBILITY**

- A. The Transmission Service Customer receiving Bulk Transmission Service will be responsible for production of electric power and energy delivered to the District at the point(s) of receipt. The District will not be obligated to provide generating capacity backup as a part of Bulk Transmission Service in the event of unavailability of such input to the point(s) of receipt.
- B. Transmission losses associated with Bulk Transmission Service shall be provided by the Transmission Service Customer receiving Bulk Transmission Service pursuant to the contract to which this Rate Schedule BT is attached.
- C. The Transmission Service Customer receiving Bulk Transmission Service will be responsible for the adequacy of the transmission facilities on such Transmission Service Customer's side of the interconnection at the point(s) of delivery.

**SECTION 6. MODIFICATION OF SCHEDULE**

NPPD retains and reserves the right, power and authority to modify, revise, amend, replace or repeal this Bulk Transmission Service Rate Schedule, in whole or in part, by resolution adopted by the NPPD Board of Directors.

**TAX CLAUSE:** In the event of the imposition of any new or increased tax or any payment in lieu thereof, in excess of that provided for under Article VIII, Section 11 of the Nebraska Constitution, by any lawful authority on the production, transmission, or sale of electricity, the rate provided herein may be increased to reflect the amount of such tax or in lieu of tax increase.

Effective : With service provided on and after January 1, 2018.
