Providing the best suited solution for your needs

- Highly resilient and secure global networks.
- Global DID Numbers
- G723 & G729 Codecs (iLBC also supported)
- Tier-1 carrier agnostic voice providers
- Customized voice solutions to fit our customers needs
- Online portal to manage your costs.
- Integration between multiple WAN access technologies (VSAT, LTE, Wifi, etc.).
- Low Cost global rates, Fixed Line and Mobile.
- Easily managed with both post paid and pre-paid options
- 24/7 global monitoring and support.

SPEAKEASY SOLUTION FEATURES:

- Worldwide local telephone numbers can be associated to the telephones, so any phone in the world can contact them
- Direct Inbound Dialing (DID): International telephone numbers (DIDs) for over 79 countries available, allowing third parties in those countries to call the remote location for the cost of a local call.
- Postpaid Voice: Standard voice services, utilizing core Voice features and services invoiced monthly in arrears with standard tariffs.
- Prepaid and Post Paid Calling: Can be purchased online without intervention from vessel management.
- SIP Trunk Integration: Customized voice system integration with direct IP trunking between customers' PBX, Voice Gateways and voice-enabled endpoints to NearshoreNetworks Global Voice infrastructure with a fully redundant global footprint.
