- CATCH MONITORING... IN REAL TIME
- CREW & CLIENT CONFERENCING... IN REAL TIME

AND SO MANY MORE

ALL BACKED UP TO THE CLOUD FOR FUTURE NEED

CONNECT REAL TIME & LIVE GLOBALLY

THE VIDEO CHALLENGE SOLVED

What has held back real time video adoption?

1. The high monetary cost of bandwidth
2. The challenge to deliver sufficient bandwidth through today's send/receive technologies

NearshoreNetworks has solved both problems through our proprietary hardware and software.

We can enable any existing cameras aboard your Vessel, ROV, Security or Conferencing System to accomplish your goals securely and affordably.

And we can provide new systems including a fully managed service aboard new builds or refits. Schedule a demo today because it will be the most impressive you have ever seen.

BENEFITS

- COST REDUCTION THROUGH BANDWIDTH OPTIMIZATION
- CAPTAIN AND CREW INTERACTION ENHANCEMENT
- SAFETY AND COMPLIANCE FULFILLMENT
- UNIQUE APPLICATION ENABLEMENT
- TURNKEY MANAGED SO NO INCREASE IN OVERHEADS
