The Supervisor said that this was the continuation of a public hearing with regard to proposed Local Law to add Chapter A175, entitled TOWN SANITARY SEWER FACILITIES, in its entirety to the Code of the Town of Somers. He explained that historically Somers had been a community of septic systems, however the Town was growing. He said that a prior Town Engineer had drafted a Sewer Code in anticipation of the existing Town of Somers Sewer System. The Supervisor continued that they had the Woodard and Curran, Town Consulting Engineering Firm, the Superintendent of Water and Sewer and the Principal Engineering Technician review the draft legislation. He said that what was before the Board that evening was the final draft. He said that as the Baldwin Place area had grown and sewers were being installed the Town had a need for the legislation.

The Supervisor declared the hearing open and asked for comments from the public.

There being no one to be heard on motion of Supervisor Morrissey, seconded by Councilman Clinchy, the hearing was declared closed at 7:08 PM.
