RE: Joint Permit Application for Somers Sidewalk Project

Evans Associates, the environmental consultants for DeCicco’s relative to their obligation under the Community Benefits Agreement they inherited as part of the Somers Crossing approval, is preparing a Joint Permit Application between Somers and NYS DEC relative to a portion of the sidewalks.

The Joint Permit Application project involves constructing a sidewalk with a pedestrian bridge to provide safe access for pedestrians between the Somers Middle School and the Town Centre at Somers along Route 202. The sidewalk would cross a Class C (T) stream and encroach within the 100’ Adjacent Area of DEC Freshwater Wetland F-1.

There are no direct wetland/watercourse impacts. The pedestrian bridge and a portion of the sidewalk will encroach within 50’ of the Class C(T) stream and within the 100’ DEC Freshwater Wetland Adjacent Area (AA). Structural encroachment within the 100’ AA includes approximately 880 sq. ft. for the sidewalk, 150 sq. ft. for the bridge and 50 sq. ft. for the bridge abutments. Additional impacts within the AA include rain gardens to treat sidewalk runoff, and grading for the sidewalk and rain gardens. Encroachment int the 100’ AA totals 4,500 sq. ft.

As identified in the cover letter to the Application, measures are being taken to reduce the impacts to the wetland Adjacent Area.
The actions the Town Board needs to take to allow Evans Associates to submit the Joint Application are the following:

- Declare itself lead agency at its meeting of April 4, 2019
- Authorize the Supervisor to sign the Short Form EAF
- Authorize the Supervisor to sign the Joint Application Form and return all to Evans Associates for Submission to DEC

The draft cover letter from Evans Associates, the Short Form EAF, the Joint Application Form and the Lead Agency forms are attached to this memorandum for review by the Town Board.

Construct a 5’ wide, 588’ long sidewalk along Route 202 between the DeCicco Supermarket and the Somers Middle School, including a pedestrian bridge over a stream. See attached plans.

d. Type of structures and fill materials to be installed, and quantity of materials to be used (e.g., square feet of coverage, cubic yards of fill material, structures below ordinary/mean high water, etc.):
No fill/structures below ordinary/mean high water, or in wetlands. No impacts to bed of the watercourse. A total of 4,050 sq. ft. of disturbance is proposed within 100’ of the watercourse. Structural encroachments are approximately 880 sq. ft. of pervious pavers for the sidewalk; 150 sq. ft. for the bridge over the watercourse; and 50 sq. ft. for the bridge abutments. Grading and stormwater basins are also proposed within the buffer.

Erosion and sediment control measures (during construction) are depicted on Drawing EC-1, Erosion and Sediment Control Plan. Post construction, rain gardens and filter strips will be used to treat sidewalk runoff.

k. Alternatives considered to avoid regulated areas. If no feasible alternatives exist, explain how the project will minimize impacts:
The sidewalk must cross the watercourse in order to connect the school to the Towne Centre. Impacts will be minimized through the use of erosion and sediment controls, and stormwater treatment (see responses i and j).

necessary legal approvals. This IMA shall apply to and bind any successor(s) in interest of the
respective parties.

B. If any term or provision of this IMA is held by a court of competent jurisdiction
to be invalid or void or unenforceable, the remainder of the terms and provisions of this IMA
will in no way be affected, impaired, or invalidated, and to the extent permitted by applicable
law, any such term, or provision will be restricted in applicability or reformed to the minimum
extent required for such to be enforceable. This provision will be interpreted and enforced to
give effect to the original written intent of the parties prior to determination of such invalidity or
unenforceability.
C. It is acknowledged and agreed that any defined terms contained in the initial "Whereas Clauses" are incorporated by reference into the body of this IMA.

D. No party hereto shall make any assignment of their respective rights and responsibilities hereunder, without the prior written consent of all other parties hereto. Any assignment or attempt to assign, without the prior written consent of the parties hereto shall be void.

E. This IMA shall be construed and enforced in accordance with the laws of the State of New York. In addition, the parties hereby agree that for any cause of action arising out of this IMA shall be brought in the County of Westchester.

F. Pursuant to Section 308.01 of the Laws of Westchester County, it is the goal of the County to use its best efforts to encourage, promote and increase the participation of business enterprises owned and controlled by persons of color or women in contracts and projects funded by all departments of the County. Under this IMA it is recognized and understood that the County encourages the Municipality to act similarly.

The Municipality acknowledges and agrees that Westchester maintains a zero tolerance policy prohibiting all forms of harassment or discrimination against its employees by co-workers, supervisors, vendors, contractor(s) or others.

G. This IMA shall not be enforceable until executed by all of the parties and approved by the Office of the Westchester County Attorney.

H. In the event of any material noncompliance with the terms hereof, including without limitation, use of the funds disbursed hereunder for ineligible costs, or failure to submit required reports, which remains uncured for thirty (30) days after service on the Municipality of written notice thereof (the "Cure Period"), the County, at its option, may seek any and all
appropriate legal and/or equitable remedies, including, but not limited to, damages, reasonable attorney's fees, disbursements and court costs in such amounts as shall be allowed by the court.

The Commissioner of Planning, in her sole discretion, may agree to stay any such enforcement beyond Cure Period, provided however that the County determines that the Municipality is diligently and continuously acting to cure said noncompliance. Without limiting the foregoing, upon written notice to the Municipality, repeated non-compliance by the Municipality of any particular duty or obligation under this Agreement will be deemed a material breach of this Agreement justifying termination for cause hereunder without requirement for further opportunity to cure. Notice will be effective as set forth herein.

I. It is recognized and understood that the Municipality is not an agent of the County and in accordance with such status, the Municipality, any contractor(s), and all of their respective officers, agents, employees, representatives and servants shall at all times during the term of this IMA neither hold themselves out as, nor claim to be acting in the capacity of officers, employees, agents, representatives or servants of the County, nor make any claim, demand or application for any right or privilege applicable to the County, including without limitation, rights or privileges derived from workers compensation coverage, unemployment insurance benefits, social security coverage and retirement membership or credit.

J. The Municipality hereby acknowledges that any provision of this IMA which requires consent of the County shall be subject to receipt by the County of any and all necessary legal approvals.

K. Failure of the County to insist, in any one or more instances, upon strict performance of any term or condition herein contained shall not be deemed a waiver or relinquishment for the future of such term or condition, but the same shall remain in full force and effect.

L. This IMA may be executed simultaneously in several identical copies, each of which shall be an original and all of which shall constitute but one and the same agreement.
M. Except as may be expressly set forth herein, nothing herein is intended or shall be construed to confer upon or give any third party or its successors and assigns any rights, remedies or basis for reliance upon, under or by reason of this IMA. Notwithstanding the foregoing, it is expressly acknowledged and agreed that the NYCDEP is an express third party beneficiary hereunder.

N. The parties each agrees to execute and deliver such further instruments and to seek such additional authority as may be required to carry out the intent and purpose of this IMA.

O. The captions are inserted only as a matter of convenience and for reference and in no way define, limit or describe the scope of this IMA nor the intent of any provision thereof.

VII. NOTICES:

SCHEDULE “A”

PROJECT DESCRIPTION

The Municipality shall construct a salt receiving, processing and storing structure at the Somers Highway Garage located off of Route 100 in the Municipality, in accordance with the plans and budget attached hereto (the “Project”). Upon completion of the Project, the Municipality shall submit to the County properly executed payment voucher(s) of the County for eligible costs as defined in the MOA (as defined in the body of this agreement) in an amount(s) up to $175,000. The voucher(s) shall match the plans and budget attached hereto. The Municipality further agrees to provide the County with any and all documentation as may be required by the Planning Commissioner for approval of the voucher(s) in her sole discretion. Upon approval by the Planning Commissioner, the County shall reimburse the Municipality in accordance with the voucher(s) within thirty (30) days after such approval and only for eligible costs as defined in the MOA. Changes to the scope of the Project are subject to approval by the Planning Commissioner and must be in accordance with the Watershed MOA.
1. Prior to commencing work, and throughout the term of the Agreement, the Municipality shall obtain at its own cost and expense the required insurance as delineated below from insurance companies licensed in the State of New York, carrying a Best's financial rating of A or better. Municipality shall provide evidence of such insurance to the County of Westchester ("County"), either by providing a copy of policies and/or certificates as may be required and approved by the Director of Risk Management of the County ("Director"). The policies or certificates thereof shall provide that ten (10) days prior to cancellation or material change in the policy, notices of same shall be given to the Director either by overnight mail or personal delivery for all of the following stated insurance policies. All notices shall name the Municipality and identify the Agreement.

If at any time any of the policies required herein shall be or become unsatisfactory to the Director, as to form or substance, or if a company issuing any such policy shall be or become unsatisfactory to the Director, the Municipality shall upon notice to that effect from the County, promptly obtain a new policy, and submit the policy or the certificate as requested by the Director to the Office of Risk Management of the County for approval by the Director. Upon failure of the Municipality to furnish, deliver and maintain such insurance, the Agreement, at the election of the County, may be declared suspended, discontinued or terminated.

Failure of the Municipality to take out, maintain, or the taking out or maintenance of any required insurance, shall not relieve the Municipality from any liability under the Agreement, nor shall the insurance requirements be construed to conflict with or otherwise limit the contractual obligations of the Municipality concerning indemnification.

All property losses shall be made payable to the "County of Westchester" and adjusted with the appropriate County personnel.

In the event that claims, for which the County may be liable, in excess of the insured amounts provided herein are filed by reason of Municipality’s negligent acts or omissions under the Agreement or by virtue of the provisions of the labor law or other statute or any other reason, the amount of excess of such claims or any portion thereof, may be withheld from payment due or to become due the Municipality until such time as the Municipality shall furnish such additional security covering such claims in form satisfactory to the Director.
In the event of any loss, if the Municipality maintains broader coverage and/or higher limits than the minimums identified herein, the County shall be entitled to the broader coverage and/or higher limits maintained by the Municipality. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the County.

2 The Municipality shall provide proof of the following coverage (if additional coverage is required for a specific agreement, those requirements will be described in the Agreement):

a) Workers' Compensation and Employer's Liability. Certificate form C-105.2 or State Fund Insurance Company form U-26.3 is required for proof of compliance with the New York State Workers' Compensation Law. State Workers' Compensation Board form DB-120.1 is required for proof of compliance with the New York State Disability Benefits Law. Location of operation shall be "All locations in Westchester County, New York."

Where an applicant claims to not be required to carry either a Workers' Compensation Policy or Disability Benefits Policy, or both, the employer must complete NYS form CE-200, available to download at: http://www.web.ny.gov.

If the employer is self-insured for Workers' Compensation, he/she should present a certificate from the New York State Worker's Compensation Board evidencing that fact (Either SI-12, Certificate of Workers' Compensation Self-Insurance, or GSI-105.2, Certificate of Participation in Workers' Compensation Group Self-Insurance).

b) Commercial General Liability Insurance with a combined single limit of $1,000,000 (c.s.1) per occurrence and a $2,000,000 aggregate limit naming the "County of Westchester" as an additional insured on a primary and non-contributory basis. This insurance shall include the following coverages:

i. Premises - Operations.
ii. Broad Form Contractual.
iii. Independent Contractor and Sub-Contractor.

c) Commercial Umbrella/Excess Insurance: $2,000,000 each Occurrence and Aggregate naming the "County of Westchester" as additional insured, written on a "follow the form" basis.

NOTE: Additional insured status shall be provided by standard or other endorsement that extends coverage to the County of Westchester for both on-going and completed operations.

d) Automobile Liability Insurance with a minimum limit of liability per occurrence of $1,000,000 for bodily injury and a minimum limit of $100,000 per occurrence for property damage or a combined single limit of $1,000,000 unless otherwise indicated in the contract specifications. This insurance shall include for bodily injury and
property damage the following coverages and name the "County of Westchester" as additional insured:

   (i) Owned automobiles.
   (ii) Hired automobiles.
   (iii) Non-owned automobiles.

3. All policies of the Municipality shall be endorsed to contain the following clauses:

   (a) Insurers shall have no right to recovery or subrogation against the County (including its employees and other agents and agencies), it being the intention of the parties that the insurance policies so effected shall protect both parties and be primary coverage for any and all losses covered by the above-described insurance.

   (b) The clause "other insurance provisions" in a policy in which the County is named as an insured, shall not apply to the County.

   (c) The insurance companies issuing the policy or policies shall have no recourse against the County (including its agents and agencies as aforesaid) for payment of any premiums or for assessments under any form of policy.

   (d) Any and all deductibles in the above described insurance policies shall be assumed by and be for the account of, and at the sole risk of, the Municipality.
I wanted to let you know that we are adding the following line to the IMA which is standard.

*The municipality shall perform an environmental review pursuant to the New York State Environmental Quality Review Act and its implementing regulations, include the County of Westchester as an Involved Agency, and conduct a coordinated review by circulating a Lead Agency Notice to all Involved Agencies, unless the action is determined to be a Type II action. The municipality shall submit to the County copies of all SEQR documentation for the project.*

RE: Waiving Permit Fees for Somers Fire District

DATE: March 22, 2019

Permission is being requested to waive the Plumbing Permit fee of $200.00 for the removal of a 5,000 buried exterior fuel oil storage tank and the install of two new 330-gallon interior tanks.

In the past no permits were ever issued for anything for the Somers Fire District as far as I’m aware. I would like to do a permit for the purpose of review and inspection for code compliance moving forward. Would the Town Board consider waiving the permit fees?

In addition, a $300.00 fee has already been paid to the Health Department and a P.B.S. Work Permit has been secured. It was issued by the D.O.H. on January 25, 2019 with an expiration date of April 25, 2019.
Hi Rick,
Sorry it took so long to get back to you, we were in Hawaii for two weeks.

I would like to serve on the Parks Board for another term. I'm finally feeling that I have a handle on it.

That's for your show of support.

Yours truly,

Erosion Control Bond – Transfer to General Fund

This office has been in the process of notifying applicants to request the return of their outstanding erosion control bonds that the Town has in the Trust and Agency Account. The Town attempted to contact Landgarden Landscape Architects multiple times however, the applicant’s phone extension is invalid and messages that have been left have not been returned.

Therefore, this office believes that we have exhausted our attempts to locate the individual and suggests that the bond in the amount of $500.00 be transferred to the General Fund.

Please be aware that in the event a payee does contact the Town at a future date for the return of the bond, it is my understanding that the bond can still be returned.

RE: Title III-B Transportation Services Contract, PY 2019

Dear Ms. Taberer:

Attached is an electronic blank copy of the Title III-B Transportation Services contract. The contract is comprised of an Agreement and Schedules “A”, “B”, “C”, and “D” to cover the program period commencing on January 1, 2019 and continuing through December 31, 2019. Funding for the program will be in an amount not to exceed $3,483 for actual services provided and data entered in the NYSOF A Client Statewide Data System (PeerPlan) with the Town of Somers required to contribute $2,420 in matching funds to the Program. The Department may reduce the amount payable to its contractors if the New York State Office for the Aging reduces the Department’s Federal and/or State funding, in which case you will be notified. It should be noted that the Board Act giving the County authority to enter into agreement with your municipality is pending the approval of the Westchester County Board of Legislators. This means that although your municipality can sign off on the agreement that Commissioner Carpenter cannot do so until the required approval has been granted.

You MUST use the original contract documents that we have provided. NO ALTERATIONS may be made to the contract without the prior consent of the Dept. With the exception of the applicable Excel Pages, DO NOT fill out the contract electronically as we want to maintain the integrity of the document. Noncompliance with these requests will result in the contract returned to your agency. We recommend that you keep a blank copy of the contract in the event that you need to reprint a page.

Printout a hard copy of the contract and fill it out making sure that where signatures are required on all documents that they are original. Return the ENTIRE originally signed contract to me at the address in the footer below. Contracts with COPIED signatures are unacceptable. We also suggest that you keep a completed copy of the contract for your records.
Please refer to the “Standard Insurance Provisions” on pages 5 and 6 of Schedule “A” for detailed information regarding ALL required insurances. Contracts will be on hold pending receipt of any missing insurance form. Remember to list Westchester County as an Additional Insured on the Certificate of Liability insurance.

Transportation Program Contractors are required to mail in the completed PeerPlace MONTHLY REPORT signed by the staff member responsible for the report. The reports should be received by the County no later than the tenth (10th) day of the following month. The County reserves the right to withhold payment to Contractor for its failure to submit the monthly report by the deadline until the monthly report is received by the County.

Please direct program-related questions to your program liaison Meleita Jones at 914-813- 8428. You may also contact me at 914-813-6958 or via e-mail at ssj3@westchestergov.com for questions pertaining to the processing of the contract.

Re: Request of Mancini Building Corp. for Town Board Acceptance of Conservation Easement
Merritt Park Subdivision, Lovell Street/Adson Way, Town of Somers
Tax Identification No.: Section 5.20, Block 1, Lot 1

Dear Supervisor Morrissey and Members of the Town Board:

This firm represents Mancini Building Corp. ("Mancini") in connection with the above-referenced subdivision on Lovell Street and Adson Way in the Town, for which the Planning Board has granted Final Subdivision Approval. Six copies copy of the Final Subdivision Plan are enclosed for your information. One of the conditions of the Approval requires Mancini to convey a Conservation Easement to the Town along portions of Lots 8, 9, 12 and 13 fronting on Lovell Street, in an area with mature trees and vegetation and steep slopes. The Conservation Easement will protect those resources, provide an undisturbed, natural buffer to residential properties to the west and continue a scenic corridor along the Subdivision’s frontage on Lovell Street. Enclosed are six copies of a proposed Conservation Easement (with Schedules) from Mancini to the Town, which Easement has been reviewed and approved as to substance and form by Town Attorney Roland Baroni, Esq. We request that the Town Board accept the Conservation Easement so it can be recorded in the Office of the Westchester County Clerk.

Under General Municipal Law Section 247, your Board must conduct a public hearing before the Board can accept the Conservation Easement. In accordance with my discussions with Mr. Baroni, I am writing to request that this matter be scheduled for your Board’s April 4, 2019 meeting for the purpose of scheduling such public hearing for the next available regular meeting of the Board.

If you have any questions or require assistance with publishing notice of the hearing, please contact me. Thank you for your courtesy.

Respectfully yours,

Hocherman Tortorella & Wekstein, LLP

CONSERVATION EASEMENT

This conservation easement agreement is made as of the _____ day of __________, 2019, between Mancini Building Corp., a New York Corporation having a principal place of business at 8 Elide Road, Katonah, New York ("Grantor"), and the Town of Somers, a municipal corporation organized and existing under the laws of the State of New York having its principal place of business at 335 Route 202, Somers, New York 10589 ("Grantee").

WITNESSETH:

WHEREAS, Grantor is the owner in fee title of Lots 8, 9, 12, and 13 (the “Property”) as shown on a certain map entitled “Subdivision of Property Known as Merritt Park Estates, Situate in the Town of Somers, Westchester County, NY,” prepared by Donnelly Land Surveying, P.C., dated March 6, 2009, last revised February 18, 2016, which was filed in the Westchester County Clerk’s Office on ____________, as Map No. ______ (the “Subdivision Plat”); and

WHEREAS, the Grantee is a public body within the meaning of Article 49, Title 3, of the Environmental Conservation Law of the State of New York, and is thereby qualified to be the grantee of conservation easements that limit and restrict the development, management or use of real property in order to preserve or maintain scenic, open, historic, archaeological, architectural or natural conditions, characteristics, or significant amenities of real property; and

WHEREAS, the Property contains approximately 3.33 acres of land which includes substantial and significant natural resources important to the parties to this Easement and the public in general (the “Easement Area”); and

WHEREAS, a conservation easement over the Easement Area is intended to promote the following conservation values:

1. Preserve open space and provide a natural buffer to residential properties to the west;
2. Provide an undisturbed, vegetated, scenic corridor ranging from 60 feet to more than 275 feet in width along Lovell Street, a public road;
3. Preserve and restrict the disturbance of approximately 3.33 acres of land containing mature trees and vegetation and steep slopes;
4. Provide an area that will support resident wildlife population;
5. Control the establishment of future impervious surfaces and other development activities within the Easement Area that potentially could cause increases in pollutant loads to nearby wetlands; and
6. Provide a natural and vegetated buffer to treat stormwater from upgradient locations.

WHEREAS, conservation of the Easement Area subject to the terms of this easement is expected to yield significant benefits to the public by protecting the scenic value of the Easement
Area and promoting and protecting wildlife habitat; a stream and the ecological resources thereof; and steep slopes on the Property; and

WHEREAS, the conservation values of the Easement Area are documented in a Baseline Data Report dated which is on file in the office of the Grantee, and is incorporated herein by reference, and which includes an inventory of the relevant conservation values, maps, photographs, reports and other documents that the parties agree provide an accurate representation of the Easement Area at the time of the execution of this conservation easement, and which is intended to provide objective baseline information for purposes of future monitoring and enforcement; and

WHEREAS, the Grantor hereby donates substantial and significant development rights in and to the Easement Area and conveys to Grantee the right to preserve and protect the conservation values described herein by encumbering the Easement Area with a conservation easement pursuant to the provisions of New York Environmental Conservation Law, Article 49, Title 3; and

WHEREAS, the Grantee agrees to accept this conservation easement, to honor the intentions of the Grantor as stated herein, to inspect and report on the conditions of the Easement Area on no less than an annual basis, and to preserve and protect the Easement Area in perpetuity according to the terms of this Easement for the benefit of this and future generations.

NOW THEREFORE, in consideration of the foregoing and the mutual covenants, terms, conditions, and restrictions contained herein, the Grantor hereby voluntarily grants and conveys to Grantee a conservation easement (the "Conservation Easement" or the "Easement") in perpetuity over the area described in Schedule A, annexed hereto and made a part hereof (the "Conservation Easement Area" or the "Easement Area") of the nature and character and to the extent set forth herein.

1. Purpose. It is the purpose of this easement to preserve the open space, steep slopes, stormwater treatment function, and wildlife habitat resources on the eastern side of the Property, to preserve a corridor to support resident wildlife population, to preserve a scenic, vegetated corridor along Lovell Street, and to control the establishment of future impervious surfaces and other development activities within the Conservation Easement Area. This Easement shall restrict the use of the Conservation Easement Area as provided herein so as to prevent the impairment of or interference with the conservation values of the Property.

2. Prohibited Uses and Restrictions. Subject to the provisions of Section 4 herein, any activity on or use of the Conservation Easement Area inconsistent with the purpose of this Conservation Easement is prohibited. Without limiting the generality of the foregoing provision, except as otherwise provided in Section 4 hereof, the following restrictions specifically apply to the Property:
a. No residences, mobile homes, or other buildings and no impervious surfaces shall be permitted on or in the Conservation Easement Area.

b. No quarry, gravel pit, surface or subsurface mining or drilling, or other mining or drilling activities prohibited under applicable provisions of Section 170(h) of the Internal Revenue Code shall be permitted on or under the Conservation Easement Area.

c. No dumping or storage of ashes, noncomposted organic waste, sewage, garbage, or any toxic or offensive materials or waste, shall be allowed in the Conservation Easement Area.

d. No excavation, extraction, grading, or removal of soil, sand and gravel shall be allowed in the Conservation Easement Area.

e. Notwithstanding any other restriction contained herein, the owner of the Property (or any relevant part thereof) or the Grantee may take such actions with respect to the Conservation Easement Area as are necessary to protect the health and safety of the persons using the Property; provided that if any such action is contrary to a restriction contained herein, the action shall be limited to the minimum variation necessary to afford the required protection. Grantor shall be immediately notified and consulted with regard to any such emergency action.

3. Rights Conveyed to Grantee. To accomplish the purposes of this Easement, the following rights are conveyed to the Grantee by this Easement,

a. The right to preserve and protect the conservation values of the Conservation Easement.

b. The right to access the Conservation Easement Area from Lovell Street and to enter upon the Conservation Easement Area at reasonable times on reasonable notice to monitor compliance with and otherwise enforce the terms of this Easement. Grantee shall provide Grantor or Grantor’s successors seven (7) days notice of such entry unless Grantee determines that immediate entry is required to prevent, terminate or mitigate violation of this Easement. Grantee agrees that if a written report of any inspection is prepared, a copy thereof shall be provided to Grantor within 30 days of the inspection. Nothing in this paragraph shall be construed to require Grantee to perform regular inspections or to prepare written reports thereof.

c. The right to prevent any activity on, incursion into, or use of the Conservation Easement Area that is inconsistent with the terms of this Easement, and to require the restoration of such areas or features of the Easement Area that are damaged by any inconsistent activity or use pursuant to the remedies set forth in section 5 herein.
d. The right to enforce the terms, conditions and restrictions set forth in this Easement.

e. Nothing in this easement shall be construed to grant the right to allow public access to the Easement Area. Grantee specifically acknowledges and agrees that no public access to the Easement Area is permitted or allowed and that it will not authorize third parties to enter upon the Conservation Easement Area except as allowed pursuant to section 3(b) herein.

4. **Reserved Grantor’s Rights.** Grantor reserves for itself, its assigns, representatives, contractors, lessees, and successors in interest with respect to the Property all rights accruing from its ownership of the Property, including, without limitation, the right to sell, transfer or encumber the Property, as owner, subject to the restrictions and covenants set forth in this Easement; and the right to engage in, or permit others to engage in, all uses of the Property that are not expressly prohibited herein and are not inconsistent with the purposes of this Conservation Easement. Any other provision of this Easement to the contrary notwithstanding, Grantor specifically reserves for itself and its assigns, representatives, contractors, lessees, and successors in interest with respect to the Conservation Easement Area, and it shall enjoy, the following rights, which Grantee acknowledges and agrees are consistent with the purposes of this Conservation Easement.

a. The right: (i) to construct, install and/or replace drain manholes, a grassy swale, existing catch basins and a pocket basin with the Easement Area including any grading in connection therewith; (ii) to discharge stormwater runoff from stormwater management basins on Lot 14 as shown on the Subdivision Plat over land to a catch basin in Lovell Street; and (iii) to collect, store and/or discharge stormwater runoff from Lots 12 and 13 in the Subdivision into a basin within a Drainage Easement on Lots 12 and 13, as shown on the Subdivision Plat, all pursuant to a Stormwater Pollution Prevention Plan for the Subdivision (the “SWPPP”), approved by the New York City Department of Environmental Protection (“NYCDEP”) on May 11, 2009 and extended to May 11, 2024 (the “SWPPP Approval”).

b. The right: (i) to perform such maintenance within the Conservation Easement Area as may be required to comply with the SWPPP Approval; and (v) to perform such other maintenance as may be required by any governmental agency or body with jurisdiction over activities on and/or conditions of the Conservation Easement Area.

c. The right to remove dead or diseased vegetation from the Conservation Easement Area.

d. Grantor specifically reserves the right to control access to the Property including the Conservation Easement Area except such right of access to the Easement Area specifically granted to Grantee for purposes of monitoring compliance with this
Easement, and no right of access to the general public to any portion of the Property including the Conservation Easement Area is conveyed by this Easement.

5. **Enforcement.** The exercise of such reserved rights shall be subject to and in accordance with all applicable laws and regulations.

a. **Notice and An Opportunity to Cure.** If Grantee determines that a violation of this Easement has occurred or is threatened, Grantee shall give written notice to Grantor of such violation (the “Notice”) and identify such measures reasonably calculated to cure the alleged violation within 30 days after receipt of such Notice or, where the violation cannot reasonably be cured within such 30 day period, corrective action sufficient to begin curing such violation within 30 days of receipt of the Notice. Where the violation involves injury to the Conservation Easement Area resulting from any use inconsistent with the terms or the purposes of this Conservation Easement, Grantee shall demand that Grantor restore the Easement Area to its prior condition in accordance with a plan produced and approved by the Grantee. At the expiration of the time period provided herein, the Grantee shall notify Grantor of any failure to cure the alleged violation or breach set forth in the Notice (the “Second Notice”), whereupon Grantor shall have an additional fifteen (15) days from the date of receipt of the Second Notice (the “Second Notice Period”) to implement corrective measures or to cure the violation of the breach.

b. **Injunctive Relief.** If Grantor fails to cure the violation at the expiration of said Second Notice Period, or, where the violation cannot reasonably be cured within the Second Notice Period, Grantor fails to begin curing such violation within said Period, or Grantors fail to diligently continue to cure such violation until it is cured, Grantee may bring an action at law or in equity in a court of competent jurisdiction to enforce the terms of this Easement, to enjoin the violation by temporary or permanent injunction, and to require the restoration of the Easement Area to a stable condition.

As used herein with reference to the Easement Area, the term “stable condition” shall mean the approximate general and natural condition of the Easement Area as of the date of this Easement, giving due consideration to the following: (i) the normal effects of the passage of time; and (ii) the results of natural forces (including, but not limited to, fires, explosions, earthquakes, landslides, lightning, flooding, or other Acts of God).

Where this Easement requires or permits the restoration of the Easement Area to a stable condition following a violation or breach of this Easement, this Easement shall not be construed to allow or require the use of extraordinary means to effect such restoration unless the circumstances reasonably require the use of such extraordinary means. Grantee and Grantor agree that the following means will ordinarily be used to restore the Easement Area to a stable condition following a violation or breach of this
Easement: (i) removal of items and material not allowed by this Easement; (ii) closure, filling, grading and planting with appropriate vegetative cover, of areas adversely affected by activities not allowed by this Easement; and (iii) correction, through reasonably practicable measures, of conditions which adversely affect drainage, flood control, water quality, fish or wildlife habitat, erosion control or soil conservation.

c. **Damages.** If a court determines that Grantor has violated the terms of this Easement, then Grantee shall be entitled to recover damages from Grantor for such violation or for injury to any of the conservation values protected by this Easement, including, without limitation, damages for loss of scenic, aesthetic, or environmental values. Without limiting Grantor's liability therefor, Grantee may, in its sole discretion, apply any damages recovered to the costs of undertaking any corrective action in the Conservation Easement Area.

d. **Emergency Enforcement.** If Grantee, in its sole discretion, determines that circumstances require immediate action to prevent or mitigate significant damage to the conservation values of the Easement Area, Grantee may pursue its remedies under section 5 without prior notice to Grantor or without waiting for the period for cure to expire. However, notice that action has been taken or is underway shall be given to Grantor within a reasonable period after the action commences.

e. **Forbearance.** Forbearance or delay by Grantee in the exercise of any of its rights to enforce this Easement or to exercise any right granted to it under this Easement shall not be deemed a waiver of such rights or of any of the terms of the Easement.

f. **Acts Beyond Grantor's Control.** Notwithstanding anything contained in this instrument to the contrary, Grantee shall have no cause of action under this Easement against Grantor for injury or damage to the Conservation Easement Area which is: (i) beyond Grantor's control, including, without limitation, Acts of God, natural disasters, flood, fire, wind, storms, earth movement, war, judicial order, strike, insurrection, unlawful or unpermitted acts of third parties and/or the public, or acts of Grantee or its agents and representatives; or (ii) results from any prudent action taken by Grantor, under emergency conditions, to prevent, abate, or mitigate significant injury to the Easement Area or adjacent properties from such causes; or (iii) results from actions taken by third parties which cause conditions to exist which, through no fault or action of Grantor, may be deemed to have an adverse impact on the conservation values of the Conservation Easement, or may cause to exist on the Property a condition or conditions which would otherwise cause Grantee to take action under this section.

6. **Notices and Approvals.** Grantor agrees to give Grantee written notice before exercising any reserved right, the exercise of which may have an adverse impact on the
conservation values of this Conservation Easement. Grantor further agrees to notify Grantee of any conveyance, lease or transfer of the Conservation Easement Area, such notice to be given in writing within twenty (20) days of such conveyance, lease or transfer. The failure to give such notice shall not, however, invalidate the conveyance, lease or transfer. When Grantee’s or Grantor’s approval is required for any action or activity allowed by this Easement to be taken only with approval, such approval shall be in writing and signed by both parties to this Easement Agreement or their successors. Any notice required by this Easement shall be given as set forth in section 16 herein.

7. Costs and Liabilities. Grantor shall retain all responsibilities and shall bear all costs and liabilities of any kind related to the ownership, operation, upkeep, and maintenance of the Conservation Easement Area, including the maintenance of adequate liability insurance coverage. Grantor shall remain solely responsible for obtaining any applicable governmental permits and approvals for any construction or other activity or use permitted by this Easement, and all such construction and other such activity or use shall be undertaken in accordance with all applicable federal, state, and local laws, regulations, and requirements.

8. Taxes. Grantor shall pay before delinquency all taxes, assessments, fees, and charges of whatever description levied on or assessed against the Conservation Easement Area by competent authority. However, nothing herein shall be deemed to abrogate Grantor’s right to challenge any taxes, assessments, fees or charges so levied or assessed against the Conservation Easement Area.

9. Representations and Warranties. Grantor represents and warrants that, after reasonable investigation and to the best of its knowledge, the Easement Area is in compliance with all federal, state and local laws, regulations and requirements applicable to it or its use, and there is no threatened or pending litigation in any way affecting, involving, or related to the Easement Area.

10. Mortgages. Grantor represents that the Conservation Easement Area is not subject to a mortgage lien as of the date hereof.

11. Amendment. This Conservation Easement may be amended upon the written consent of Grantee and Grantor; provided that no amendment may alter the restrictions on use or permitted structures, nor shall it allow subdivision that is inconsistent with the purposes of this Conservation Easement, nor shall it in any way limit the perpetual duration of this Easement. Any such amendment, variance or waiver shall be consistent with the basic purposes of this Conservation Easement and shall comply with Article 49, Title 3, of the Environmental Conservation Law, and Section 170(h) of the Internal Revenue Code. Any such amendment, variance or waiver that does not comply with Article 49 or Section 170(h) shall be void and of no force or effect. Any amendment shall be in writing and shall be recorded in the official land records of the County of Westchester, State of New York.
12. **Recordation.** Grantee shall record this instrument in a timely fashion in the official land records of Westchester County, State of New York, and may re-record it at any time as may be required to preserve its rights in this Easement.

13. **Assignment.** Except as otherwise provided in section 19(iii) hereof, Grantee's rights and obligations under this Conservation Easement may not be assigned without Grantor's prior written consent, which consent shall be exercised at Grantor's sole discretion. Any prospective assignee must be an organization that is a qualified organization under Section 170(ii) of the Internal Revenue Code (or any successor provision then applicable) and is a not-for-profit conservation corporation or other entity authorized to take title to a Conservation Easement under New York Environmental Conservation Law, Article 49, Title 3, and which agrees to continue to carry out the conservation purposes of this Conservation Easement. Any assignee other than a governmental unit must be an entity able to enforce this Conservation Easement, having purposes similar to those of Grantee and which encompass those of this Conservation Easement.

14. **Subsequent Transfers.** Any subsequent conveyance of any interest in the Conservation Easement Area, including, without limitation, transfer, lease or mortgage, shall be subject to this Conservation Easement, and any deed, lease, mortgage or other instrument evidencing or effecting such conveyance shall contain language providing that the conveyance, lease, mortgage, or easement is subject to a Conservation Easement which runs with the land and which was granted to the Town of Somers and shall provide the date of this Easement and the Control Number by which the Westchester County Clerk's Land Records identify this Conservation Easement. The failure to include such language in any deed or instrument shall not affect the validity or enforceability of this Conservation Easement.

15. **Binding Effect.** The provisions of this Conservation Easement shall run with the Conservation Easement Area in perpetuity and shall bind and be enforceable against the Grantor and all future owners and any party entitled to possession or use of the Easement Area or any portion thereof while such party is the owner or entitled to possession or use thereof. As used in this Conservation Easement, the term "owner" includes the owner of any beneficial equitable interest in the Conservation Easement Area or any portion thereof; the term "Grantor" includes the original Grantor (while Grantor is the owner entitled to possession or use of the Property), heirs, successors and assigns, all future owners of all or any portion of the Conservation Easement Area, and any party entitled to possession or use thereof; and the term "Grantee" includes the original Grantee and its successors and assigns. Notwithstanding the foregoing, upon any transfer of title, the transferor shall cease being a Grantor or owner for purposes of this Conservation Easement and shall have no further responsibility or liability hereunder for acts done or conditions arising thereafter, but the transferor shall remain liable for earlier acts and conditions.
16. Notices. All notices, requests, and/or approvals required by this Easement shall be in writing, shall be delivered by certified mail, return receipt requested to the addresses set forth below, and shall be deemed given when received:

Any party may change the address to which notice to such party shall be sent by sending written notice of such change to the other party.

17. Extinguishment. If circumstances arise in the future making the purposes of this Easement impossible to accomplish, and if this Easement or any of its restrictions are extinguished by judicial proceeding, then, upon any subsequent sale, exchange or involuntary conversion by the Grantor, the Grantee shall be entitled to that portion of the proceeds equal to the proportionate value of the conservation restrictions as provided immediately below. Grantor agrees that the conveyance of this conservation easement to Grantee gives rise to a property right, immediately vested in Grantee, with a fair market value that is equal to the proportionate value that the conservation restrictions hereby created at the date hereof bears to the value of the Easement Area as a whole at the date hereof (subject to reasonable adjustment to the extent permissible under Section 170(h) of the Internal Revenue Code for any improvements which may hereafter be made on the Easement Area). Grantee agrees to use its share of such proceeds in a manner consistent with the conservation purposes of this Conservation Easement.

18. Condemnation. If all or any part of the Conservation Easement Area is taken by the exercise of the power of eminent domain, or acquired by purchase in lieu of condemnation,
whether by public, corporate, or other authority, so as to terminate this easement, in whole or in part, Grantor and Grantee shall act jointly to recover the full value of the interests in the Easement Area subject to the taking or in lieu purchase and all direct or incidental damages resulting therefrom. All expenses reasonably incurred by Grantor or Grantee in connection with the taking or in lieu purchase shall be paid out of the amount recovered. Grantee's share of the balance of the amount recovered shall be determined by multiplying that balance by the ratio set forth in section 17.

19. No Extinguishment Through Merger. Grantor and Grantee herein agree that, should Grantee come to own all or a portion of the fee interest subject to this Conservation Easement: (i) said owner shall observe and be bound by the obligations and restrictions imposed upon the Easement Area by this Conservation Easement; (ii) this Easement shall not be extinguished through the doctrine of merger in whole or in part in view of the public interest in its enforcement; and (iii) said owner shall as promptly as practicable assign the Grantee's interest in this Easement of record to another holder in conformity with the requirements of section 13. The instrument shall contain language suitable to re impose this Conservation Easement to the extent necessary, if any, to continue it in force.

20. Further Acts. Each party shall perform any further acts and execute and deliver any documents, including amendments to this Conservation Easement, which may be reasonably necessary to carry out its provisions or which are necessary to qualify this instrument as a Conservation Easement under Article 49, Title 3, of the Environmental Conservation Law, under Section 170(h) of the Internal Revenue Code, or under any regulations promulgated pursuant to such statutes.

21. Certificate of Compliance. Grantee shall provide Grantor within 20 days of written request therefor, a written notice stating whether the Easement Area is in compliance with the terms of the Conservation Easement, and if Grantee alleges it is not in compliance, stating the substance of the alleged violation and the proposed remedy therefor.

22. Severability. Invalidation of any provision of this Conservation Easement by court judgment, order, statute or otherwise shall not affect any other provisions, which shall be and remain in force and effect.

23. Interpretation. This instrument is intended to create a "qualified real property interest" for "conservation purposes," as defined in Section 170(h) of the Internal Revenue Code, and shall be interpreted consistently with such intention. In the event any provision has been omitted from this instrument which is necessary to qualify the interest hereby granted as a "qualified real property interest" for "conservation purposes", such provision shall be deemed incorporated herein to the extent necessary to cause the interest hereby granted to be so qualified provided such incorporation or addition shall not impair the rights of the Grantor in any material manner greater than are described herein.
24. **Authorization.** Grantee warrants that acceptance of this Conservation Easement has been duly authorized by its Board of Directors.
