**SOMERS TOWN BOARD
WORK SESSION 7:00PM
THURSDAY, MARCH 5, 2020
www.somersny.com**

6:30PM - Executive Session

A. PLEDGE OF ALLEGIANCE:

B. PUBLIC HEARING:

PUBLIC COMMENT

Please limit your comments to no more than 3 minutes.

C. PARKS & RECREATION: No additional business.

D. TOWN BOARD:

1. Somers Energy Environment Committee Update – Don Bleasdale
2. Somers Sewer District #2 Map, Plan, and Report Presentation – Woodard & Curran
 - a. Acknowledge receipt of Map, Plan, and Report relating to the establishment of the Somers Sewer District #2.
 - b. Declare the Town Board's intent to act as Lead Agency.
 - c. Adopt the order scheduling a Public Hearing for the establishment of sewer districts in Lake Lincolndale and Lake Shenorock for April 2, 2020.

**SOMERS TOWN BOARD
WORK SESSION 7:00PM
THURSDAY, MARCH 5, 2020
www.somersny.com**

3. Acknowledge completion and receipt of the Town Justice Court Audit by our Certified Public Accountants O'Connor Davies., LLP in accordance with Section 2019-a of the Uniform Justice Court Act for the year ending December 31, 2019.
4. Authorize Supervisor to approve going to bid for the upgrade of the Town House Meeting Room communication system.
5. Authorize the Supervisor to execute the following:
 - a. The 2020-2021 New York State Archives Grant Application
 - b. The Renewal Contract for the Town's 2020 Tax Map Maintenance with CAI Technologies, per email from Teresa Stegner, Assessor, dated February 13, 2020.
 - c. The Network Cabling Installation Proposal for the Town of Somers Assessor's Office in the amount of \$2,375.00 in order to fix phone line issues.
6. Authorize resolution to NYS DOT recommending a traffic study at the intersection of Route 100 & Route 35 and request a speed reduction to 35 mph from Route 139 to Route 35 and a speed reduction from Route 35/100 to the Somers Town line near Pines Bridge to 45mph.
7. Authorize the Supervisor to accept Somers Town Tax Warrants for 2020.
8. Move the April 9, 2020 Regular Meeting to April 16, 2020.
9. Authorize the Supervisor to sign the consent to the formation of SUEZ Sewer New York Inc. Sewage-Works Corporation to provide sanitary sewer service to the Heritage Hills Sewer District within the Town of Somers.

E. FINANCIAL:

1. Authorize 2019 Budget transfers and modifications per email dated February 27, 2020 from Robert Kehoe, Director of Finance.

F. HIGHWAY: No additional business.

**SOMERS TOWN BOARD
WORK SESSION 7:00PM
THURSDAY, MARCH 5, 2020

G. PERSONNEL:

1. Current Vacancies:

- a. Affordable Housing Board (1- 2-year term ending 7/11/2020.)
- b. Affordable Housing Board (2- 2-year terms ending 7/11/2021.)
- c. Library Board of Trustees (1– 4-year term ending 12/31/2023.)
- d. Partners in Prevention (4 – 3-year terms ending 12/31/2022.)
- e. Partners in Prevention (2 – 3-year terms ending 12/31/2020.)

2. Upcoming Vacancies - Terms Expiring in 2020:

- a. Architectural Review Board (4-3-year terms ending 3/31/2020.)
- b. Parks and Recreation Board (4–3-year terms ending 3/9/2020.)

H. PLANNING & ENGINEERING: No additional business.

I. POLICE: No additional business.

J. PROPOSED CONSENSUS AGENDA:

- 1. Authorize the return of the following Performance Bond per February 11, 2020 memo from Steven Woelfle, Principal Engineering Technician:
 - a. \$3,032,000.00 Performance Bond – Somers Realty Subdivision Phase 3, #106481274
- 2. Accept the following Maintenance Bond per February 11, 2020 memo from Steven Woelfle, Principal Engineering Technician:
 - a. \$303,200.00 Maintenance Bond – Somers Realty Subdivision Phase 3, #107207541

EXECUTIVE SUMMARY

The hamlets of Lake Shenorock and Lake Lincolndale, within the Town of Somers in Westchester County, New York, and the Croton Watershed of the New York City Department of Environmental Protection (NYCDEP) Reservoir System, do not have access to a municipal wastewater treatment system. Wastewater is currently treated using onsite treatment systems including septic systems and cesspools. Due to age and limiting site conditions, many of these onsite systems are beyond their useful lives and subject to potential failure. System failures, combined with the collective density of discharges, are contributing to the degradation of water quality in the watershed because of inadequate removal of contaminants and pose a risk to groundwater quality that is relied upon by homes within these communities. To improve water quality and ensure future preservation of resources and protection of public health within the NYCDEP water supply system watershed, the Town of Somers is proposing to extend sewer service from the Peekskill Sanitary Sewer District to Lake Shenorock and Lake Lincolndale. The Westchester County Peekskill Sanitary Sewer District currently serves several areas of Somers, with the nearest connection points to Lake Shenorock and Lake Lincolndale on Travis Road and Harris Court. This sewer extension has been anticipated since 1998 when The Preserves was constructed with the conveyance infrastructure to Peekskill Wastewater Treatment Plant designed to accommodate flow from these communities.

The extension of sewers to Lake Shenorock and Lake Lincolndale will form Somers Sewer District No. 2. The project will provide sanitary sewer service to 989 developed parcels in the R-10 zoning districts in the two lake communities, constructed in a minimum of two phases, with Phase 1 consisting of approximately 103 parcels and the remaining 886 parcels to be connected based on the timing and availability of future grant funding. Phase 1 is being funded from \$10M in settlement funds from the NYCDEP that has been allocated to the Town's lake communities based on the project's potential to divert sanitary sewage from the watershed. At full build-out, an estimated 326,370 gallons per day of sanitary wastewater would be removed from the watershed.

Key project infrastructure elements include:

- Gravity sewer mains where topography allows for sewer conveyance by gravity;
- Low-pressure sewer mains, fed from grinder pumps on parcels that cannot be served by gravity;
- Pavement restoration of sewer main and lateral trenching;
- Central pumping stations in each community (one in Shenorock, two in Lincolndale), to convey wastewater to the existing sewer collection and pumping system on Travis Road and Harris Court;
- Laterals from each parcel (from the location of the existing septic tank, if feasible), including installation of a grinder pump system, will be constructed and maintained by the District, with a mutually agreeable easement placed on each parcel;
- Abandonment of the septic tank on each parcel in accordance with Westchester County Health Department requirements; and
- Restoration of disturbed areas on private property to original upon condition.
- Parcel owner responsibilities will include:
 - Payment of Westchester County buy-in and operation and maintenance (O&M) fees for costs related to the treatment of wastewater for the Peekskill Sewer District;

- Payment of financing and O&M fees to the Somers Sewer District No. 2 for construction and operation of the sanitary sewer collection system;
- Granting of an easement on the parcel for access for construction of the sewer lateral and abandonment of the septic tank and for access and maintenance of grinder pumps (where installed);
- Electrical usage for the grinder pump (where installed);
- Electrical upgrades to accommodate the grinder pump (if capacity does not exist in the existing electrical system at the parcel);
- Cleaning and maintenance of the service lateral between the building and the sewer main (for gravity connections);
- Cleaning, operation and maintenance of the effluent pipe from between the building and the grinder pump and electricity for operation of the pumps (for low pressure connections); and
- Plumbing modifications to change the sewer connection point if necessary to accommodate parcel owner preferences or correct non-compliant plumbing arrangements).

The total estimated project cost of \$62.2M will be funded from a combination of existing NYCDEP allocated funds (\$10M), future grants and outside funding (\$36M), and local financing (\$16.2M). The Phase 1 construction capital cost is anticipated to be fully funded with the \$10M in NYCDEP allocated funds, thereby not requiring any capital financing. Capital financing will be used to leverage future grants and outside funding. Capital financing is not anticipated to be incurred until a proportionate amount of matching grants and funding are in place to proceed with construction, either in whole or in phases. Financing and O&M fees incurred by the Somers Sewer District No. 2 for the construction and operation of the local sewer system will be allocated to parcels on a flat-fee basis. Buy-in and O&M fees charged by Westchester County are determined on an ad-valorem basis but will be allocated to parcels on a flat-fee basis.

Annual costs are anticipated to be as follows:

- Phase 1 only: \$591 (unconnected parcels have no annual cost)
- Full build-out: \$1,187

This project has support of several local Westchester County legislators, who have agreed to support language in the extension of the Peekskill Sewer District that does not apply the County's buy-in or O&M fees to parcels until such time as construction begins on a phase of build-out that would result in the sewer being extended to serve those parcels. In this way, parcels that do not have the possibility to connect are not paying fees to the Peekskill Sewer District.

Changes from July 2019 Map, Plan, and Report

The modification for County buy-in and O&M fees to only apply at the time of construction is a change from the prior Map, Plan, and Report, dated July 2019. This revision also includes modifications to the cost basis for the County fees based on 2020 rates. In 2019, the County buy-in rate and O&M rate were \$0.569 and \$0.74 per \$1,000 of full equalized value, respectively. The 2020 rates are now \$0.563 and \$0.6924 per \$1,000 full equalized value. This change, coupled with an adjustment to the Town of Somers equalization rate results in a reduction of average County cost per parcel of approximately \$8 per year.

Other changes in this version of the Map, Plan, and Report include updating the parcel count, clarification of cost and financing distribution between Phase 1 parcels and full-buildout, use of flat rate basis for allocation of costs per parcel, and clarification that District financing is limited to the amounts included in this report. These modifications and

clarifications have been made based on continued feedback received from the public as well as ongoing negotiation and coordination with Westchester County.

DRAFT

1. INTRODUCTION

The hamlets of Lake Shenorock and Lake Lincolndale, within the Town of Somers in Westchester County, New York, and the Croton Watershed of the New York City Department of Environmental Protection (NYCDEP) Reservoir System, do not have access to a municipal wastewater treatment system. Wastewater is currently treated using onsite treatment systems including septic systems and cesspools. Due to age and limiting site conditions such as small lot size, poor soils, and shallow depth to bedrock and groundwater, many of these onsite systems are beyond their useful lives. Failures are contributing to the degradation of water quality in the watershed because of inadequate removal of contaminants and pose a risk to groundwater quality that is relied upon by homes within these communities. In addition, currently operating on-site systems do not have the capability to treat the new and emerging pollutants introduced into the systems as they did not exist when existing septic/cesspools were designed decades ago. Water quality degradation in this area, as well as new, emerging public health issues associated with on-site systems discharge, are a result of not only failing on-site wastewater systems, but a collective problem with all operating systems; the combined effect of many individuals with septic systems who live in the more densely populated areas today that were seasonally occupied decades ago. The systems were not intended to meet current day demands. Together with the sensitive resource areas noted in this report and the water quality and potential public health related concerns, existing on site wastewater systems cannot meet the requirements now required in this area.

Lake Shenorock and Lake Lincolndale are within the Croton Watershed of the New York City Department of Environmental Protection (NYCDEP) Reservoir System. Lake Shenorock and Lake Lincolndale are also located near existing connection points to the Peekskill Sanitary Sewer District (SSD) (Figure 1).

To improve water quality and ensure future preservation of resources and protection of public health within the NYCDEP water supply system watershed, the Town of Somers is proposing to extend sewer service from the Peekskill Sanitary Sewer District to Lake Shenorock and Lake Lincolndale. This Map, Plan and Report defines the limits of the area of the new sewer district, named Somers Sewer District No. 2, and provides a phased approach for connecting developed parcels to a municipal sewer.

1.1 Funding

The Croton and Kensico Watersheds provide 10% of daily water needs to New York City's water supply system. To maintain water quality within the watershed, the New York City Department of Environmental Protection (NYCDEP) manages the East of Hudson (EOH) Water Quality Improvement Program (WQIP). This program provides funding for water quality improvement projects addressing protection and enhancement of the quality of source waters of the NYC water supply system. Lake Shenorock and Lake Lincolndale are within the Croton Watershed of the NYCDEP Reservoir System and are thus within the boundaries of the program.

The EOH WQIP funds designing, planning, environmental assessment, permitting, acquisition, financing, constructing, and installing sewage diversion projects and other water projects which address existing or anticipated water quality problems. One of the highest priorities of this program is pathogen and phosphorus reduction initiatives. Westchester County is the recipient of \$38 M of the \$68 M available EOH WQIP funds. At the January 15, 2019 meeting of the Northern Westchester Watershed Coalition, a resolution was passed allocating \$10 M to the Town of Somers from the EOH WQIP for sanitary sewer extensions in Lake Shenorock and Lake Lincolndale. The \$10M in EOH WQIP funds will be supplemented with district financing and grant monies to fully implement the installation of sewers throughout the communities of Shenorock and Lincolndale (Somers Sewer District No. 2).

1.2 Phasing

To utilize the designated \$10 M in funding and plan for future funding opportunities, the sewer connections are proposed in three phases as illustrated on Figure 2. The proposed phases for Somers Sewer District No. 2 (District) are as follows:

- Phase 1 will utilize the \$10M of designated EOH WQIP funding to sewer parcels in proximity to Lake Lincolndale and Lake Shenorock with the goal to maximize the improvements to water quality and provide initial sanitary sewer infrastructure in each community.
- Phase 2A will connect the remaining parcels within Lake Shenorock as the District leverages available future funding and financing opportunities;
- Phase 2B will connect the remaining parcels within Lake Lincolndale as the District leverages available future funding and financing opportunities.

Phases 2A and 2B may be constructed in separate, smaller phases as funding becomes available. For the purposes of this report, they are described as combined phases to represent the future full buildout in each Lake community. Potential sources of other funding include the New York State Department of Environmental Conservation (NYSDEC) and the New York State Environmental Facilities Corporation (NYSEFC), as well as District borrowing and bonding (See Section 1).

1.3 Environmental Setting

The hamlets of Lake Shenorock and Lake Lincolndale are in the 350-square mile Croton Watershed. They are located north of the NYCDEP Amawalk Reservoir, which is a 564-acre reservoir in the NYCDEP water supply system. The Amawalk Reservoir is fed by the Muscoot River and is tributary to the Croton River. Plum Brook Stream flows from north to south between the two hamlets. The hamlets border their respective water bodies of Lake Shenorock and Lake Lincolndale.

Lake Shenorock is a 13-acre lake with a mean depth of about 4 feet and a watershed area of 988 acres (CSLAP 2010 Lake Water Quality Summary: Shenorock Lake, 2010). The lake is dammed and an unnamed outlet spills to the Amawalk Reservoir. The distance between the Lake Shenorock outlet and the Amawalk Reservoir is about ¼ mile.

Lake Shenorock has water quality concerns including high coliform bacteria and nutrient loading stemming from the inflow of stormwater and failing onsite wastewater treatment systems. In May 2015, the Town of Somers completed the *Lake Shenorock Area Wastewater Study Report* (Woodard & Curran, 2015), funded by the EOH WQIP, which identified options to improve water quality in Lake Shenorock. The study evaluated options including stormwater infrastructure maintenance and education, lake dredging, remediation, construction of sanitary sewers, and implementation of a septic maintenance district.

Lake Lincolndale is a 19-acre lake with a mean depth of about 6 feet and a watershed area of 343 acres. The lake is eutrophic based on low water clarity and high nutrient (phosphorus) and algae levels. Lake Lincolndale exhibits regular shoreline algae blooms and open water algae levels are periodically elevated (2017 CSLAP Report, Lake Lincolndale, 2017). Lake Lincolndale is about 1-¼ miles northeast of the Amawalk Reservoir.

Since the study, Lake Shenorock and Lake Lincolndale have been designated as Impaired Inland Waterways by the NYSDEC. This designation qualifies the Town of Somers for Waterfront Revitalization Funds through the Local Waterfront Revitalization Program. Based on this designation and the associated opportunities for funding, the Town initiated in 2017 a three-pronged strategy to improve the water quality of three lakes – Lake Shenorock, Lake Lincolndale, and Lake Purdys. The three prongs include:

1. Improve water quality through the implementation of stormwater projects aimed at the removal of total phosphorus;
2. Improve water quality through the installation of sanitary sewer focused on nutrient loading and coliform removal;
3. Improve recreational opportunities to increase usage and engagement of the Lakes.

As part of Prong 1 of this approach in Lake Shenorock, the Town was awarded \$847,500 in Water Quality Improvement Program funds in December 2016 from New York State, which was used for stormwater improvements. The Town will continue to pursue additional State grants on an annual basis to support continued stormwater improvements in these communities.

1.4 Land Use and Zoning

Zoning within the new sewer district is shown on Figure 3 and Figure 4. Zoning within the district is primarily Residential-10 (R-10) with some Beach-Community House (BC) zoning concentrated generally around the lakes. Lots zoned as R-10 range from 2 to 8.9 dwelling units per acre and lot areas range from 4,900 to 20,000 square feet. A small portion of the Lake Shenorock community (4.5 acres) is zoned as Neighborhood Shopping (NS), but currently only one parcel has developed retail, with the remaining parcels residential.

Land use consists primarily of single-family residences. About 2% of the residential land use is two-family or multi-family. Due to the uniformity of land use, sewer generation is based on a flow per parcel basis (See Section 2.2). There are 1,315 parcels within the district and 75% of the parcels are developed with structures, as summarized in Table 1.

Table 1: Parcel Counts

	Parcel Count	Vacant / Undeveloped Parcel Count	Developed Parcel Count	% Developed Parcels
Lake Shenorock	799	126	673	84%
Lake Lincolndale	516	200	316	61%
District Total	1,315	326	989	75%

1.5 Existing Underground Utility Lines

Lake Shenorock and Lake Lincolndale have partial municipal stormwater facilities. Lake Shenorock also has underground municipal potable water utilities. Lake Lincolndale has private wells and no underground municipal water utilities.

1.6 Existing Onsite Wastewater Treatment Systems

The hamlets of Lake Shenorock and Lake Lincolndale were originally built as summer vacation homes in the 1930s and 1940s and have since developed into year-round residential communities. Wastewater is treated using onsite treatment systems including septic systems and cesspools. Due to age and limiting site conditions such as small lot size, poor soils, and shallow depth to bedrock and groundwater, many of these onsite systems are beyond their useful lives and failures are contributing to the degradation of water quality in the watershed and local groundwater drinking well supplies. With on-site wastewater systems dating back decades, the ability of these systems to "treat" new, modern pollutants/nutrients such as Nitrogen, Phosphorus, personal care products, pharmaceuticals etc. are non-existent, thus even an on-site system that is considered operating and not in failure, cannot meet the stringent requirements of pollutant removal to meet current water quality standards, as well as preserve current public health requirements. So, while there are existing systems in use not in a failure mode, operating systems continue to degrade the environment

due to their inability to treat to today's standards. In addition, systems that are not failing today are likely to fail at some point in the future, which would further degrade water quality and result in significant up front cost to the homeowner.

1.7 Peekskill Sanitary Sewer District

As indicated on Figure 2, in 1998 when The Preserves (formerly Meadows-Stephans Green Subdivision) was planned it accounted for the connection of Shenorock and Lincolndale to the County system and included two connection points to the Peekskill SSD which are located in the Preserves subdivision on the east and south sides of Travis Road. The south connection point is on Harris Court just off of Travis Road, a few hundred feet away from the northern boundary of the Lake Shenorock area. The east connection point for Lake Lincolndale is roughly 1,000 feet west of Tulip Road and Larch Drive in Lake Lincolndale. Plum Brook Creek would have to be crossed to connect Lake Lincolndale to the Peekskill SSD.

Wastewater generated in the Peekskill SSD is treated at the Peekskill Wastewater Treatment Plant (WWTP), which is owned by Westchester County. The Peekskill WWTP is a 10 million gallon per day facility serving the City of Peekskill and Towns of Cortlandt, Shrub Oak, Lake Mohegan, and Yorktown. Currently it has a wastewater flow of 7 million gallons per day and serves a population of 32,500. Wastewater processes include screening, grit removal, primary sedimentation, aeration, final sedimentation and chlorination. Treated effluent is discharged to the Hudson River and the County is moving toward using ultraviolet disinfection in the future to reduce the use of chlorine and other chemicals. Sludge facilities at the WWTP include gravity thickening, two stage anaerobic digestion, dewatering by centrifugation and drying beds. Digested sludge is trucked to the Ossining WWTP for processing. Digester gas is used onsite as fuel in plant boilers (Westchester County Executive Office, n.d.).

2. PROPOSED SEWER DISTRICT BOUNDARIES AND FLOWS

2.1 Sewer District Boundaries

Somers Sewer District No. 2 (District) encompasses 989 developed parcels covering an area of 314 acres. The sewer district boundary was developed based on zoning and land use. As shown on Figure 3 and Figure 4, the District boundary encompasses areas zoned as R-10, which ranges in density from 2 to 8.9 dwelling units per acre with lot areas from 4,900 to 20,000 square feet. The District also includes three parcels within the R-40 that have frontage along the proposed sewer route.

2.2 Estimated Wastewater Flows

As discussed in Section 1.4, the uniformity of land use allows wastewater flows to be estimated by applying a wastewater generation factor to the number of parcels within the Districts. The wastewater generation factor was calculated based on per bedroom rates in the New York State Department of Environmental Conservation (NYSDEC) *Design Standards for Intermediate-sized Wastewater Treatment Systems*, assuming three bedrooms per developed parcel and 110 gallons per day per bedroom, for a total wastewater generation factor of 330 gallons per day per parcel. To estimate wastewater generation, the water consumption factor is applied to developed parcels with structures (non-vacant). Table 3 summarizes the estimated wastewater generated by the District.

Table 2: Estimated Wastewater Flows

Hamlet	Area (acres)	Developed Parcels	Generation Factor (gpd/parcel)	Wastewater Flow (gpd)
Lake Shenorock	198.5	673	330	222,090
Lake Lincolndale	115.8	316	330	104,280
District Total	314.3	989	330	326,370

As discussed in Section 1.1, \$10 M in funding from the EOH WQIP, will be used to sewer developed parcels immediately upgradient of Lake Shenorock and Lake Lincolndale where failing septic systems would have the highest influence on lake water quality. Subsequent phases would occur when funding became available from other sources. Phase 2A consists of the remaining parcels within Lake Shenorock and Phase 2B consists of the remaining parcels within Lake Lincolndale. Table 3 summarizes the wastewater flows by phase.

Table 3: Wastewater Flows by Phase

Phase	Area (acres)	Developed Parcels	Generation Factor (gpd/parcel)	Wastewater Flow (gpd)
Phase 1 (Lake Shenorock and Lake Lincolndale)	28.4	103	330	33,990
Phase 2A (Lake Shenorock)	181.9	605	330	199,650
Phase 2B (Lake Lincolndale)	104.0	281	330	92,730
District Total	314.3	989	330	326,370

3. PROPOSED SEWAGE FACILITIES

Existing topography was evaluated to plan a sewage collection system consisting of gravity sewer, pump stations, force mains, and low-pressure sewer. Phase 1 sewage facilities are shown on Figure 5. Phase 2A (Lake Shenorock) and Phase 2B (Lake Lincolndale) are shown on Figure 6 and Figure 7, respectively. Existing pipelines are shown as solid lines and proposed pipelines are shown as dashed lines.

3.1 Gravity Sewer

Gravity systems are typically the most economical for life-cycle cost calculations in densely developed locations with topography that supports gravity flow. The use of gravity flow was maximized in the District. Areas with gravity sewer system will convey wastewater from individual parcels to gravity sewer mains using laterals. This plan includes connecting existing sewer pipes at each parcel to a lateral that extends to a gravity main or low pressure sewer system.

The gravity mains are generally large diameter pipe equal to or greater than 8 inches in diameter. Manholes are generally spaced at a maximum of 300 feet along the mains and at changes in pipe slope or direction. A minimum slope of 0.4% was assumed for this conceptual design in accordance with the Ten State Standards. Gravity sewer mains in the District terminate at a pump station and will be located to provide a minimum 10 foot horizontal separation from existing water lines.

3.2 Pump Stations

Wastewater from gravity mains and low pressure sewer systems collects at a pump station and is pumped via force mains to the Peekskill SSD. Pump stations include duplex submersible pumps with integral valve vaults built into the unused portion of the wet well, which allows the unit to be one structure and decreases the pump station footprint. The pump station would also be equipped with an odor control system and backup emergency generator. Pump stations will be designed in accordance with Ten State Standards to minimize wastewater residence time in the wet wells and associated odors.

Two pumps stations are required for Phase 1, one on Lakeview Drive at the north shore of Lake Shenorock and one on Lakeshore Drive at the north shore of Lake Lincolndale. The Phase 1 pump station at Lake Shenorock would need to be expanded in Phase 2A to accommodate the additional flow. In Phase 2B, an additional pump station would be required to collect additional flow on the west side of Lake Lincolndale. The third pump station would be located near the intersection of Larch Drive and Tulip Road.

3.3 Force Mains

Force mains are pressurized pipes that connect pump stations to their connection points into the Peekskill SSD. All force mains will be at least four feet below finished grade to prevent possibility of freezing. The force mains will also follow Ten State Standard guidance and will be located at least 10 feet horizontally from any existing water main. Cleanouts will be located at regular intervals and low points to facilitate maintenance, as recommended by Ten State Standards. Air release valves will be installed along the force main at all high points to prevent against air locking. Force mains will be sized to maintain a minimum cleansing velocity to re-suspend settled solid materials of 3 feet per second per New England Interstate Water Pollution Control Commission (NEIWPCC) Technical Report 16 (TR-16).

3.4 Low Pressure Sewer

Low pressure sewers are small diameter pipe buried at a depth shallower than typical gravity systems. They are commonly used to minimize construction costs in areas with adverse terrain or high groundwater tables, like areas that border lakes. In these locations, installation of pressure sewer avoids expensive construction costs from deep

trenching, rock excavation, and groundwater dewatering. Low pressure sewers can also be installed using horizontal directional drilling (HDD) which can further limit the amount of excavation.

Grinder pumps are required at individual parcels to convey wastewater into the low-pressure network. This study assumes that the existing sewer pipe will be connected to a grinder pump installed at each parcel and connected to the low-pressure main. Installation of grinder pumps, piping, and electrical connections are included in this plan; Operation and maintenance of the grinder pumps will be provided by the Sewer District.

3.5 Decommissioning of Onsite Treatment Systems

This plan includes abandonment of existing onsite wastewater treatment systems. Existing underground tanks will be left in-place and abandoned onsite, including pumping, knock-in, puncturing, and backfill of the tank in accordance with Westchester County Health Department requirements. Restoration will include replacement of disturbed areas to original condition.

4. COST DEVELOPMENT

The cost for this sewer project was estimated based on capital costs and operation and maintenance (O&M) costs. Capital costs include land acquisition, connection fee, and facility construction, and include an allowance for engineering, fiscal and legal services. Annual O&M costs include allowances for routine maintenance, pumping energy, and financing within the District. Annual costs also include assessed charges from the Peekskill SSD. As this is a preliminary planning document, a 25% construction contingency is added to the subtotal of raw construction costs to account for the degree of uncertainty at this level of project development.

4.1 Unit Cost Development

Capital costs are from various sources, including previous similar projects. Costs from previous projects have been adjusted by an estimated inflation rate of 3% per year to the year 2021.

This plan includes the cost of connecting individual parcels to the gravity sewer main or low pressure sewer network, including laterals, grinder pumps and electrical connections where necessary. Each low pressure sewer connection includes the grinder pump, a service lateral connection to the low pressure main, and connection to the existing electrical panel at the parcel. Existing underground tanks associated with onsite wastewater treatment will be left in-place and abandoned onsite, including pumping, knock-in, puncturing, and backfill.

Unit costs for construction are listed in Table 4. Detailed costs are in Appendix A.

Table 4: Unit Construction Costs

Facility	Unit	Unit Cost 2021\$
Land acquisition	ACRE	\$85,000
Mobilization/Demobilization	LS	varies by phase
Traffic control	LS	\$5,000
Concrete and rock excavation	CY	\$190
8-inch PVC gravity sewer pipe	LF	\$170
Manhole for gravity sewer	EA	\$11,000
Gravity connection to parcel with 4-inch lateral and onsite tank abandonment	EA	\$10,500
Low pressure connection to parcel with grinder pump, lateral, electrical, and onsite tank abandonment	EA	\$16,000
2-inch low pressure sewer	LF	\$100
4-inch HDPE force main	LF	\$130
Pump station	EA	\$510,000
Horizontal directional drilling (HDD)	EA	\$440,000
Force main air release manhole, complete	EA	\$16,400
Force main cleanout vault, complete	EA	\$10,900
Trench repair and temp. pavement (4-ft width)	SY	\$30
Permanent pavement (6-ft width)	SY	\$70

* Force main, gravity sewer, and low pressure sewer unit prices include excavation, pipe installation, and backfill.

To account for engineering, legal, and fiscal services needed for the project, as well as project uncertainty, multipliers are applied to the raw construction cost subtotal. Table 5 summarizes the multiplier values.

Table 5: Multipliers

Multiplier	
Construction Contingency	25%
Engineering, Fiscal, Legal	15%

It is assumed project capital costs would be financed through loans with an interest rate and term as summarized in Table 6.

Table 6: Project Financing

Financing	
Interest Rate	1.8%
Period	30 years

Annual O&M costs for the District are summarized in Table 7. Infrastructure within Somers Sewer District #2 will be maintained, including pump stations, force mains, gravity sewer mains, and low-pressure mains. Maintenance of sewer laterals will be the responsibility of the property owner. O&M costs for maintenance of Peekskill SSD infrastructure is addressed in Section 4.3.

Table 7: Somers Sewer District #2 Annual O&M Costs

Phase	Total Annual Cost for the District O&M
1 (Lake Shenorock)	\$10,000 / year
1 (Lake Lincondale)	\$9,500 / year
2A (Lake Shenorock)	\$20,000 / year
2B (Lake Lincondale)	\$18,000 / year

4.2 Property Owner Responsibilities

Property owners will be responsible for the following:

- Payment of Westchester County buy-in and operation and maintenance (O&M) fees for costs related to the treatment of wastewater for the Peekskill Sewer District;
- Payment of financing and O&M fees to the Somers Sewer District No. 2 for construction and operation of the sanitary sewer collection system;
- Granting of an easement on the parcel for access for construction of the sewer lateral and abandonment of the septic tank;

- Electrical usage for the grinder pump (where installed);
- Electrical upgrades to accommodate the grinder pump (if capacity does not exist in the existing electrical system at the parcel);
- Cleaning and maintenance of the service lateral between the building and the sewer main (for gravity connections);
- Cleaning, operation and maintenance of the effluent pipe from between the building and the grinder pump and electricity for operation of the pumps (for low pressure connections); and
- Plumbing modifications to change the sewer connection point if necessary to accommodate parcel owner preferences or correct non-compliant plumbing arrangements).

4.3 Peekskill SSD Surcharge and Tax Rate

Two fees will be assessed by the Peekskill SSD for utilizing their collections system and wastewater treatment facilities: (1) the cost to Buy-In to the County District; and (2) the Annual O&M tax.

The Buy-In cost, or surcharge, is based on the full equalized value (FEV) of each parcel. Per Westchester County Department of Environmental Facilities, the buy-in cost is \$5.63 per \$1,000 of FEV, divided over 10 equal annual installments. The average County Buy-In cost for the entire District is \$187 based on a total FEV for the entire District of \$329,177,543 as of February 2020. The total FEV for Phase 1 only as of February 2020 is \$32,919,674 resulting in an average County Buy-In for connected parcels in Phase 1 of \$180 per year.

The Annual O&M tax is based on the FEV of each parcel. Per Westchester County Department of Environmental Facilities, the 2020 tax rate is \$0.6924 per \$1,000 of full equalized value (FEV). The O&M tax will be assessed annually for the life of the project. The average County O&M cost for the entire District is \$230 based on the total FEV of \$329,177,543. During Phase 1, connected parcels only will pay an annual County O&M tax of \$221 per year based on the total FEV of \$32,919,674.

This project has support of several local Westchester County legislators, who have agreed to support language in the extension of the Peekskill Sewer District that does not apply the County's Buy-In or O&M fees to parcels until such time as construction begins on a phase of build-out that would result in the sewer being extended to serve those parcels. In this way, parcels that do not have the possibility to connect are not paying fees to the Peekskill Sewer District. Initially, only properties in Phase 1 would pay the County Buy-In and O&M cost. Then, once construction begins on a future phase to connect additional properties, the County Buy-In and O&M cost would be charged for those additional properties as well. The County Board of Legislators will consider the resolution upon the formation of the local Somers Sewer District No. 2.

In addition, while the County establishes the costs for Buy-In and O&M based on the full equalization value, the District is able to determine how those costs are applied to the District properties. Based on public feedback, this fee will be applied to applicable District parcels on a flat fee, all connected properties will pay the same rate for County costs.

4.4 Cost Summary

The cost estimate for the project is summarized in Table 8. Funding for Phase 2A and Phase 2B has not yet been finalized, but was assumed at \$19.2 M and \$16.8 M, respectively, to limit local financing costs. Annualized capital costs are based on a 1.8% interest rate over a 30-year period.

Table 8: Capital Cost Summary

Phase	Capital Cost (2021\$)	Outside Funding	Local District Financing	Annualized Capital ¹
1	\$10,000,000	\$10,000,000	\$0	\$0
2A (Lake Shenorock)	\$30,135,000	\$19,200,000	\$10,935,000	\$476,000
2B (Lake Lincolndale)	\$22,062,000	\$16,800,000	\$5,262,000	\$227,000
Total	\$62,197,000	\$46,000,000	\$16,197,000	\$703,000

Notes:

1. Annualized cost based on 1.8% interest rate over 30-year period.

Initially, just Phase 1 will be constructed utilizing the \$10M in EOH WQIP funding, with no District financing. Properties connected in Phase 1 will be assessed the County Buy-in Surcharge, County O&M, and Local District O&M. All other properties have no annual cost.

The annual cost per parcel is \$591, as summarized in Table 9 below. A full list of costs by property when Phase 1 only is constructed is included in Appendix B.

Table 9: Annual Costs with Only Phase 1 Connected

Phase	County Buy-In Surcharge	County O&M	Local O&M	Local District Financing	Total Cost per Parcel ¹
1	\$180	\$221	\$189	--	\$591 / year
2A & 2B	--	--	--	--	--

Note: Costs have been rounded to the nearest dollar.

Following Phase 1, additional funding will be pursued to implement future phases. These future phases will require District financing, which will be spread across all properties in the District in all phases, regardless of whether they are connected. At full buildout, a total of \$16.197M in local financing is required. Financing will be assessed on a flat rate basis. That is, each property pays an equal amount of the total District financing cost. In addition, District O&M costs will increase as additional properties are connected, but costs will spread across all of the connected properties on a benefit basis. At full buildout, the average costs per property are summarized in Table 10 below. Annual costs in this scenario range are \$1,187. A full list of costs by property at full buildout is included in Appendix C.

Table 10: Annual Costs at Full Buildout (All Parcels Including Phase 1 Parcels)

Phase	County Buy-In Surcharge	County O&M	Local O&M	Local District Financing	Total Cost per Parcel ¹
Full Buildout	\$187	\$230	\$58	\$711	\$1,187 / year

Note: Costs have been rounded to the nearest dollar.

The New York State Comptroller publishes yearly average estimated costs for special district formation. When annual costs to the typical property within the district exceed that yearly threshold, Comptroller approval is required. For 2020, the Comptroller's Special District Average Estimated Cost Threshold for Sewer Districts is \$818. Since the typical property in the Somers Sewer District No. 2 exceeds that threshold, Comptroller approval will be required for formation of the District.

The annual costs per parcel above are based on anticipated outside grant funding to limit the total debt incurred by each property. No local District financing in excess of \$16,197,000 shall occur without Supplemental Proceedings

affording district taxpayers full participation. A description of outside grant funding opportunities is included in Section 5.

DRAFT

5. FUTURE FUNDING OPPORTUNITIES

New York City's drinking water watershed remains a priority for protection and improvement. Formation of Somers Sewer District No. 2 is based on a plan to apply for a variety of outside funding sources, including these listed below which are applicable to the project:

- **New York City Watershed Protection Program:** The NYSDEC provides funding for water quality improvement projects addressing protection and enhancement of the quality of source waters of the NYC water supply system through the NYC Watershed Protection Program. One of the highest priorities of this program is pathogen and phosphorus reduction initiatives. As the projects listed below are implemented, the Northern Western Watershed Coalition will continue to partner with the member communities as well as Westchester County to continue to pursue funding opportunities from NYCDEP. However, this additional funding cannot be identified until the original projects are completed.
 - **East of Hudson Water Quality Investment Program:** This program provides \$68 M to support water quality investments to pay the costs of designing, planning, environmental assessment, permitting, acquisition, financing, constructing, and installing sewage diversion projects and other water projects which address existing or anticipated water quality problems in NYC source waters. The Memorandum of Agreement provided \$38 M to Westchester County to support the implementation of water quality investments in the Croton and Kensico watersheds. With interest, the fund is now over \$55 M dollars (Westchester County Executive Office, n.d.). The Northern Westchester Watershed Coalition requested that \$50 M be allocated for priority wastewater projects, subject to Board of Legislators approval and Right of Objection process. The five identified projects are:
 - Hallocks Mill Sewer District in Yorktown
 - Riverwoods and Random Farms WWTPs and the Stanwood and Yeshiva Focus Areas in New Castle and Bedford
 - Bedford Hills/Katonah focus area in the Town of Bedford
 - Lake Shenorock focus area in the Town of Somers
 - Peach Lake focus area in the Town of North Salem
- **New York State Statewide Grant Program:** provides funding for projects demonstrating direct environmental benefits that will help reduce polluted runoff, improve water quality and restore habitat in New York State waters. Of the three grant applications that fall under this program the Town would be most applicable to the "Non-point Source Abatement & Control/Aquatic Habitat Restoration" Application. Under this grant, the applicant is required to demonstrate water quality and/or aquatic habitat problems that the project will address; the water quality and/or aquatic habitat problem; the name of the priority pollutant(s) or disturbance(s) causing the impairments; the source(s) of priority pollutants or disturbances causing the impairment; The expected environmental benefit (e.g., the extent to which a water quality and/or aquatic habitat problem will be addressed by the project).
- **New York State Department of Environmental Conservation Water Quality Improvement Program (WQIP):** This program, administered through the Consolidated Funding Application (CFA) offers awards up to \$10,000,000 for wastewater treatment improvements that directly address document water quality impairments or protect a drinking water source.
- **New York State Environmental Facilities Corporation Water Infrastructure Improvement Act (WIIA):** WIIA funds clean water infrastructure projects. For projects up to \$50 million, the eligible grant amount is up to \$5 million; for projects between \$50 million and \$100 million, the eligible grant amount is up to \$12.5 million.

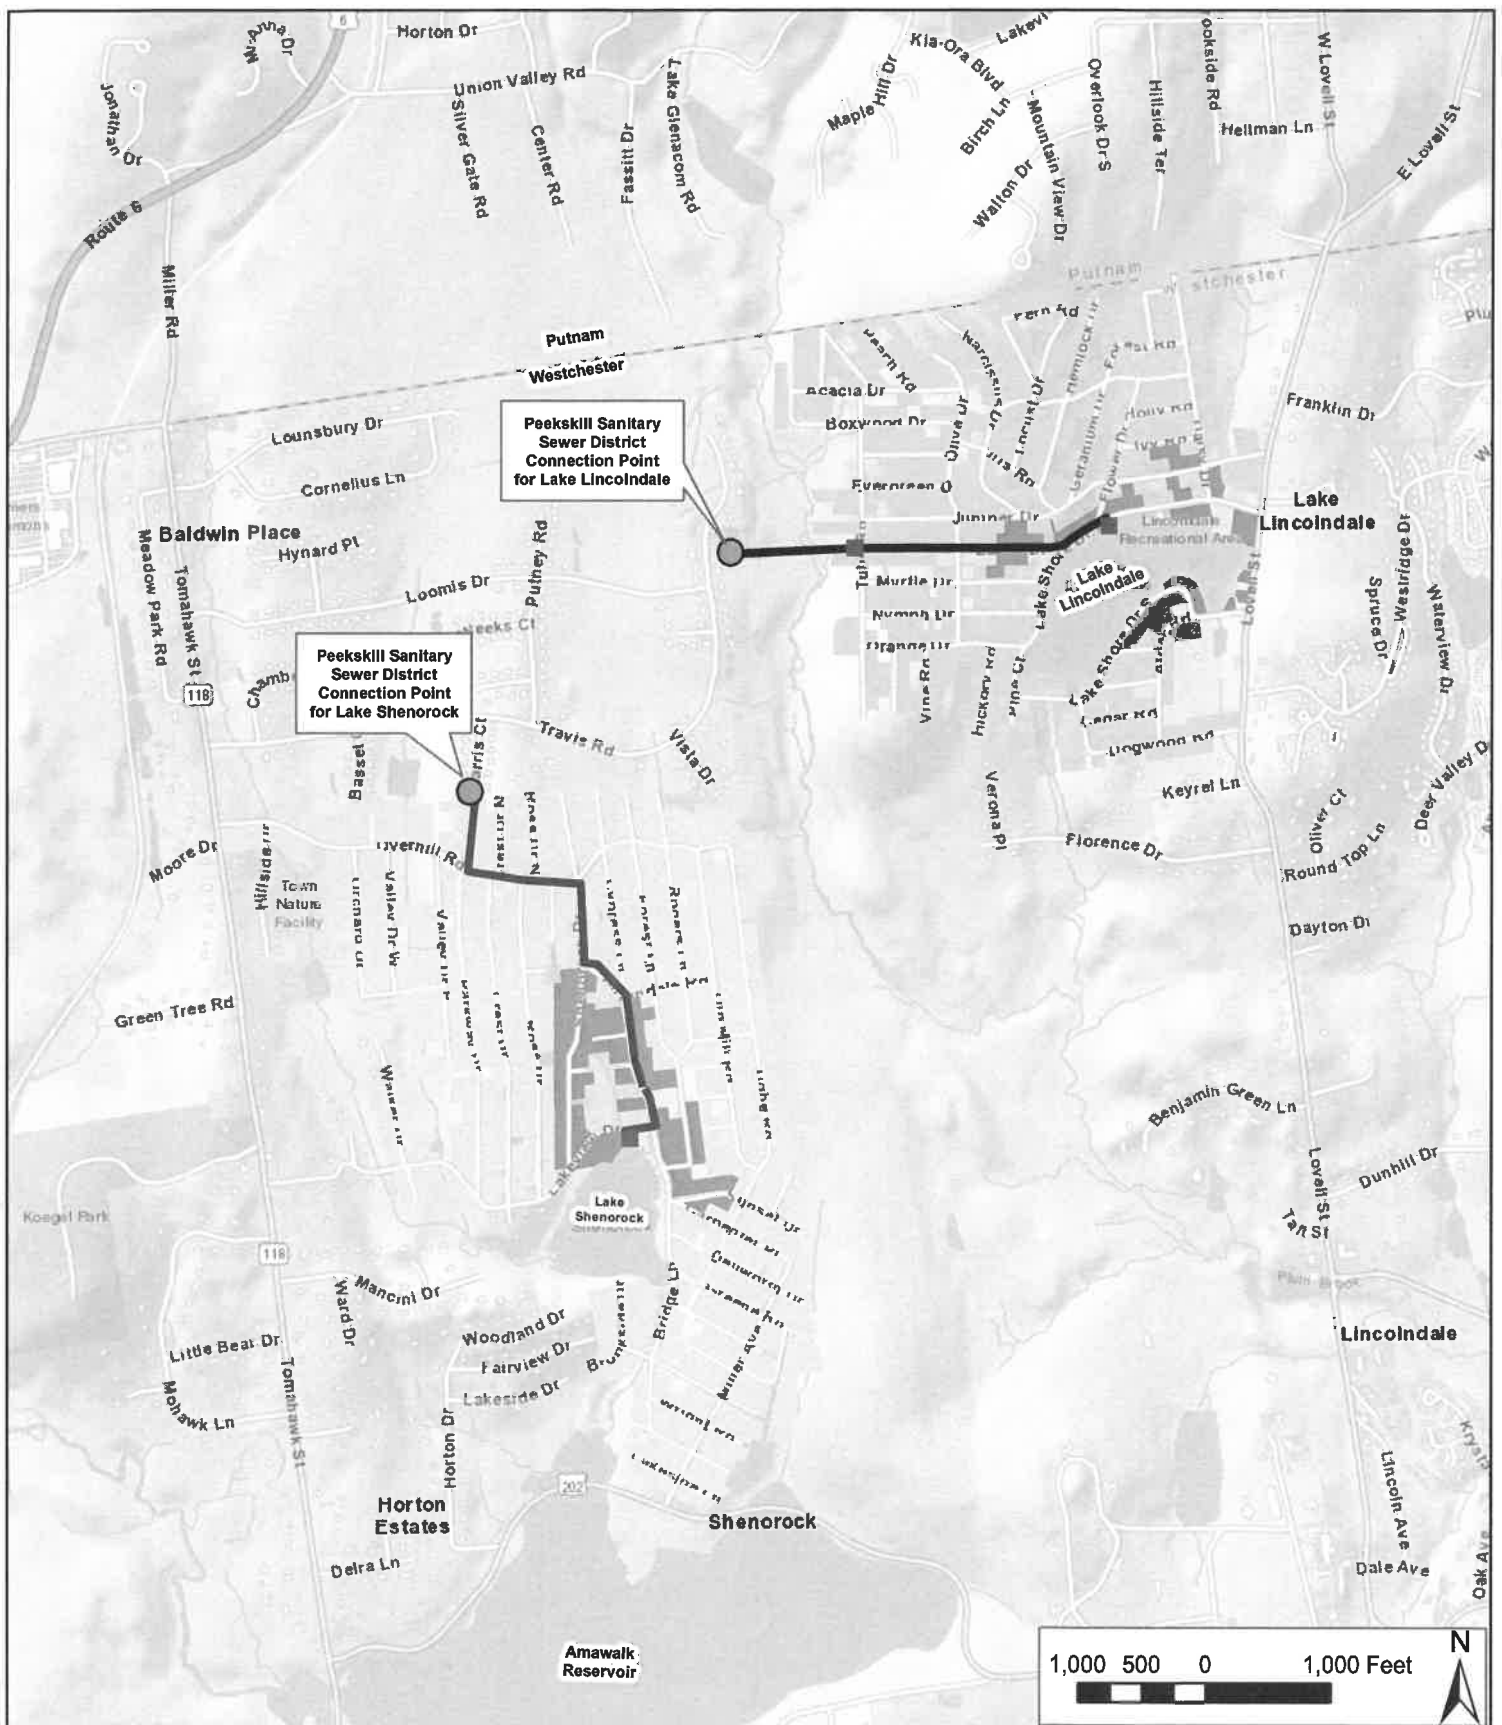

The WQIP and WIIA grant applications require that a sewer district be in place prior to award. Formation of the Somers Sewer District No. 2 as encompassing the entirety of both Lake Shenorock and Lake Lincolnale will enable the District to apply for these funding opportunities on an ongoing basis. This process began with an application for \$3 million in WIIA funding in September 2019, which was not awarded since the District had not been formed. An additional application will be made with the next round of WQIP and WIIA funding applications to be announced in summer 2020. The funding available with each additional round will determine the size of the projects to be completed as sub-phases after Phase 1.

APPENDIX A: COST ESTIMATES

Somers Sewer District No. 2

Phase 1: Portion of Lake Shenorock and Lake Lincolndale to Peekskill

March 2020

Item	# of Parcels	Cost	
Portion of Lake Shenorock	68	\$	3,980,000
Portion of Lake Lincolndale	35	\$	3,250,000
	Cost	\$	7,230,000
	Construction Contingency	\$	1,770,000 25%
	Engineering, Fiscal, and Legal	\$	1,000,000 15%
	Capital Cost Subtotal	\$	10,000,000
	EOH WQIP Allocation	\$	(10,000,000)
	Total Capital Cost	\$	-
	Annualized Capital Cost (If Loan)	\$	-

Somers Sewer District No. 2

Phase 2A: Remainder of Lake Shenorock to Peekskill

March 2020

Item	# of Parcels	Cost	
Remainder Lake Shenorock	605	\$	21,538,000
		Cost	\$ 21,538,000
		Construction Contingency	\$ 5,380,000 25%
		Engineering, Fiscal, and Legal	\$ 3,217,000 15%
		Capital Cost Subtotal	\$ 30,135,000
		Grant Funding	\$ (19,200,000)
		Total Capital Cost	\$ 10,935,000
		Annualized Capital Cost (If Loan)	\$476,000

Somers Sewer District No. 2

Phase 2B: Remainder of Lake Lincolndale to Peekskill

March 2020

Item	# of Parcels	Cost	
Remainder Lake Lincolndale	281	\$	15,800,000
		Cost	\$ 15,800,000
		Construction Contingency	\$ 3,900,000 25%
		Engineering, Fiscal, and Legal	\$ 2,362,000 15%
		Capital Cost Subtotal	\$ 22,062,000
		Grant Funding	\$ (16,800,000)
		Total Capital Cost	\$ 5,262,000
		Annualized Capital Cost (If Loan)	\$227,000.00

JUSTICE COURT

Town of Somers

WESTCHESTER COUNTY, N.Y.

TOWN JUSTICES

Hon. Denis J. Timone
Hon. Michael J. McDermott

TOWN HOUSE
335 ROUTE 202
SOMERS, NY 10589

(914) 277-8225
FAX
(914) 277-3771

February 10, 2020

Dear Mr. Morrissey:

Pursuant to Uniform Justice Court Act § 2019-a, it is the duty of every justice to present his/her records and docket, at least once a year and upon the last audit day of the town, to the auditing board of the town, which shall examine said records or docket, or cause same to be examined, and enter in the minutes of its proceedings the fact that they have been duly examined.

Consistent with Section 2019-a of the Uniform Justice Court Act, [I/we] hereby advise that the records and docket for the Somers Justice Court for Calendar Year 2019 are available to be presented for such examination. We look forward to working with you to schedule such examination in an expeditious manner.

It is our understanding that OCA's Internal Audit Services (IAS) unit will be corresponding with you as well in the very near future in this regard. Subsequent to the audit or examination, please forward to the IAS unit the audit report, as well as the Board's resolution noting that the records have been duly examined, and that the fines therein collected have been turned over to the proper officials of the Town as required by law. Such materials may be mailed to the following:

Internal Audit Services Unit
Attn: Joan Casazza
2500 Pond View, Suite LL01
Castleton-on-Hudson, NY 12033

In the alternative, such materials may be sent via email to: icasazza@nycourts.gov

Thank you.

Very truly yours,

Judge

Denis J. Timone

Supervisor Rick Morrissey
Town of Somers
335 Route 202
Somers, NY 10589

Dear Supervisor Morrissey:

Section 2019-a of the Uniform Justice Court Act requires that town and village justices annually provide their court records and dockets to their respective town and village auditing boards, and that such records then be examined, and that fact be entered into the minutes of the board's proceedings.

The Unified Court System's Internal Audit office is responsible for monitoring town and village board compliance with Section 2019-a. Accordingly, I am requesting that you provide a copy of the audit of your local court's records for fiscal year ending in 2019 and a copy of your board resolution acknowledging that the required examination was conducted. Please email the report and the resolution to jcasazza@nycourts.gov or mail to George Danyluk, Chief Internal Auditor, NYS Unified Court System, 2500 Pond View, Suite LL01, Castleton-on-Hudson, NY 12033. Please respond by March 1, 2020.

If you have any questions, please contact Joan Casazza at (518) 238-4303 or at the email listed above. Thank you for your cooperation.

Very truly yours,

A handwritten signature in cursive script, appearing to read "George Danyluk".

Subject: Tax Map Maintenance Contract

Dear Valued Client:

In a continuing effort to streamline our administrative processes and thereby help control our maintenance service costs for all our clients, we have establish a new annual Map/GIS Maintenance renewal process. To that end, attached you will find the renewal for your 2021 budget cycle.

Some of you are already accustomed to receiving these documents via e-mail, but this is the first time we're implementing the process for all clients. We do not intend to send hard copies of these documents. Further, if it works for you, there is no need to mail a hard copy back to us. You can simply e-mail the executed document.

If this annual renewal should go to someone else, please forward it and let us know so that future documents go to the correct individual. We sincerely appreciate the opportunity to serve you and your community. If you have any questions or would like to discuss this further, please don't hesitate to contact us.

TAX MAP MAINTENANCE PROPOSAL FOR THE TOWN OF SOMERS, NY

Our processing data period is 01/01/2020 through 12/31/2020

February 13, 2020

Cartographic Associates, Inc., a New Hampshire corporation doing business as CAI Technologies, with its office located at 11 Pleasant Street, in Littleton, N.H. 03561, hereinafter called CAI, proposes to the Town of Somers, NY, hereinafter called the CLIENT, to provide professional mapping services according to the specifications, terms, and conditions below written:

SCOPE OF SERVICES

A. Compilation

1. CAI shall review and incorporate all subdivisions, boundary line adjustments and surveys and make any required property line, area, and/or frontage changes.
2. CAI shall review all title conveyance deeds and make any required changes. - N/A*
3. CAI shall calculate the area of any parcel that is changed as a result of the above Items 1 and 2, following professionally accepted roundoff rules.
4. If copies of the property record cards for parcels with new or changed buildings, including the building sketches, are provided, CAI shall use the most recent available orthoimagery to accurately place building footprints.
5. CAI shall review information from the previous tax year, regarding problem areas and shall attempt to resolve any discrepancies or problems in a fair and equitable manner for tax assessment purposes.
6. As all the above referenced data are compiled throughout the year, CAI shall mark each document confirming the intent stated therein. If the intent is not a direct conveyance, CAI shall label the document appropriately with the new parcel number and area.
7. All data shall be incorporated and formatted in a manner consistent with the existing map/GIS data.
8. All work shall be reviewed and checked for errors and preliminary PDFs shall be provided for review prior to finalizing the annual service.

B. Computer Map Index Services - N/A*

1. CAI shall maintain an index of property records that corresponds to the the property maps.
2. All index changes shall be coded in the change field as follows:

M1 - Name/Book and Page	A - Add New Lot
M2 - Area	D - Delete Lot
M3 - Parcel Id Number (i.e. Map and/or Lot number	
M4 - Multiple of M1, M2, M3	
M5 - Other (such as plan name or plan lot number)	
3. CAI shall provide computer index printouts to the CLIENT sorted as follows:
 - a. Numerical by map and lot number
 - b. Alphabetical by owner's name
 - c. Change list by change code with secondary sorting by map and lot
 - d. Other index printouts will be available upon request, at current CAI prices

C. GIS

1. All digital files will be processed using Esri GIS software.
2. All data will be checked for topology errors and corrected.
3. GIS data will be delivered in Esri's shape file, geodatabase, or other format, depending on the format of the existing data.

D. Responsibilities of the CLIENT

1. The CLIENT shall provide a copy of each deed, keyed to the correct map and lot. - N/A*
2. The CLIENT shall provide a print of each subdivision plan, boundary adjustment plan, and map to be incorporated, keyed to the correct map & lot.
3. The CLIENT shall acquire as much information as possible about any questions and/or problems.
4. If buildings are to be added or changed, the CLIENT shall provide a copy of the appropriate Property Record Card, including the building sketch.
5. The CLIENT shall notify CAI of approval of preliminary PDFs or edits to be made within thirty days of receipt of said preliminary PDFs.

ADMINISTRATIVE

A. Documenting Progress

1. An officer of CAI shall be responsible for monitoring and documenting the progress of the maintenance process.
2. Flow charts shall be maintained, monitoring the progress of the maintenance procedure; the purpose of which is to be able to inform the CLIENT of exactly where the project stands at any given time. The charts shall include the following:

a. receipt date of data to be processed	e. completion date of second draft
b. completion date of compilation	f. date printed
c. completion date of first draft	g. date shipped
d. completion date of checking	

TIMING

CAI shall complete and deliver the work described within 45 days of the receipt of the final information to be incorporated as defined in this proposal.

COST

Map/GIS Maintenance Service	\$4,100.00
Building Footprints (if building sketches are provided as described above)	\$15.00/building added or changed

DELIVERABLES

Deliverables shall include two (2) complete sets full size and two (2) complete sets reduced size tax map prints and GIS data, all current to June 1st, PDFs

PAYMENT

Payment shall be made to CAI within thirty (30) days of invoicing, per terms of the invoice. Said invoicing shall be done on a quarterly basis throughout the project cycle, unless other payment arrangements have been made.

GUARANTEE

CAI shall guarantee all data generated against any errors or omissions for one (1) full year from the date of delivery. This guarantee does not include any changes due to data not made available under the terms of this proposal or any new information that is made available subsequent to the delivery date.

TAX MAP MAINTENANCE CONTRACT FOR THE TOWN OF SOMERS, NY

Contracting was awarded 01/01/2020 through 12/31/2020

This is a contract made this 13 day of February, 2020, between Cartographic Associates, Inc., a New Hampshire corporation doing business as CAI Technologies, with its office located at 11 Pleasant Street, Littleton, NH 03561, hereinafter called CAI, and the Town of Somers, NY, hereinafter called the CLIENT, to provide professional mapping services according to the specifications, terms, and conditions below written.

Witnesseth, the above parties agree as follows:

1. All work shall be done according to the Tax Map Maintenance Proposal, dated February 13, 2020, hereto annexed. It is the intent of the parties that the above referenced proposal be considered a part of this contract, the same as if fully incorporated into this contract.
2. The CLIENT shall pay \$4,100.00 for the map/GIS maintenance services under this contract. If Property Record cards, including building sketches are provided, the CLIENT shall pay an additional \$15.00/building added or changed. There will be no additional charge if Property Record cards are not provided.
3. CAI agrees that this contract shall not be assigned, transferred, conveyed, or otherwise disposed of without the previous express written consent of the CLIENT and neither shall said CAI's right, title, interest, or power to execute such contract be assigned, transferred, conveyed or otherwise disposed of without written consent of the CLIENT.
4. The Parties executing this contract agree that the above recitals constitute the entire agreement between the parties for the requested mapping services.

This contract shall be construed under the laws of the State of New York.

The parties hereto have executed this agreement by their duly authorized officers.

NETWORK CABLING INSTALLATION PROPOSAL

For

Town of Somers

Assessor's Office

February 1, 2020

I INTERPRETATION OF PROJECT REQUIREMENTS

Provide the required labor to install a new Category 6 cable to provide voice to the assessor's desk, add floor molding throughout the office space, replace damaged patch cords, add surface raceway to route existing cables & test the devices affected.

All work in this proposal is based on working hours between 7AM - 5:00PM, Monday through Friday.

II STANDARDS ADHERENCE

All Telenet Communications installations comply fully with The National Electric Code and all local codes.

III PROJECT PRICE

Provide the labor required to accomplish the above scope

\$ 2,375.00

Terms of cable plant installations for Town of Somers Assessors Office:

- Telenet Communications will install and test the passive network wiring as stated in this proposal.
- Town of Somers agrees to pay Telenet Communications a total of \$ 2,375.00 for the work stated in this agreement according to the following terms:
- Tasks outside the scope of work will be brought to your attention before proceeding. Out of scope work will be billed separately if approval is received to proceed
- All pricing is proposed at working hours between 7:00AM - 5:00PM, Monday through Friday, unless otherwise specified.
- The pricing of this quotation will be honored for a period of thirty days.
- Billing for work in progress will be at month end or upon project completion, whichever comes first. The terms for Telenet Communications invoices are Net 10.
- Order acceptance by Telenet Communications is predicated on receiving this document signed below, with a 30% down payment.
- Telenet Communications warrants the materials and workmanship, supplied by Telenet Communications, for a period of (1) year, from the date of acceptance.
- Town of Somers is responsible for sales tax and any permit fees.
- This Proposal supersedes all other pricing, written or verbal, submitted for this project.

Re: T16-058 & ML2643

Dear Supervisor Morrissey:

Thank you for your letter requesting a reduction in the speed limit on Route 100 between Plumbrook Road and Route 202 in the Town of Somers. In your correspondence, you enclosed a copy of a Resolution adopted by the Town of Somers requesting a reduction in the speed limit from 55 MPH to 35 MPH along this section of highway. In response to your letter, this Department initiated a study to determine if a speed limit reduction would be appropriate for this section of Route 100.

This Department has completed our traffic study concerning the speed limit on Route 100 between Route 35 and Route 202. This study included a review of the recent accident history, the collection of motorists operating speed data, field review of the subject section of roadway, and a meeting with the Town to discuss the crash history and speed data we collected. Our speed survey found that motorists are typically travelling between 40 and 50 MPH through most of the subject corridor. Posting a speed limit of 35 MPH would be too low for this section of roadway. As part of the traffic speed study for Route 100 between Route 35 and Route 202 this Department considered whether a posted speed limit lower than the statewide 55 MPH speed limit would be appropriate. This Department evaluated whether a 45 MPH speed limit should be placed on Route 100 between Route 35 and the 35 MPH speed zone just south of Route 202.

As a result of this Department's review of Route 100, it is our determination that posting a linear speed limit of 45 MPH would be appropriate for the section of Route 100 between Route 139 and Route 202. This Department will place the signing necessary for the new speed limit. As part of our study this Department decided to remove all the passing zones on Route 100 between Route 139 and Route 138.

Thank you for bringing your concerns to our attention. If you have any questions or need additional information, please feel free to contact me at (845) 437-3396.

Sincerely,

Adam S. Levine, P.E., AICP
Regional Traffic Safety & Mobility Engineer

Re: Performance Bond #106481274 and Maintenance Bond #107207541

Dear Steve,

Per your memo to the Town Board dated September 12, 2019, upon the Board accepting the roads, the Performance Bond in the amount of \$3,032,000.00 may be released in lieu of a Maintenance Bond in the amount of \$303,200.00 (10% of Performance Bond) and will be held for one year.

Enclosed, please find Maintenance Bond #107207541 in the amount of \$303,200.00 along with release language required by the surety company which needs to be on Town letterhead and signed. Please return signed release letter and Performance Bond to my attention at the address below.

Please feel free to reach out should you have any questions.

Sincerely,

RELEASE

Travelers Casualty and Surety Company of America issued a Subdivision Performance Bond (Bond No. 106481274) in the amount of \$3,032,000.00 (the "Bond") at the request of the AvalonBay Communities, Inc., as Principal, for the benefit of the Town of Somers, as obligee ("Obligee").

Obligee hereby fully and unconditionally discharges and releases the Bond and releases Travelers Casualty and Surety Company, its parents, affiliates and subsidiaries ("Travelers") from any and all past, present and future liability under said Bond. Contemporaneous with the execution of this Release the Bond is discharged and the Obligee shall return the original Bond to Travelers and Obligee hereby surrenders any and all rights associated with the Bond. The undersigned warrants that he or she has the authority to execute this Release on behalf of the Obligee and to bind the Obligee hereunder.

Signed by officer with requisite authority to sign on Obligee's behalf

**MAINTENANCE
BOND**

**Travelers Casualty and Surety Company of America
Hartford, CT 06183**

Bond No.: 107207541

KNOWN ALL BY THESE PRESENTS: That we AvalonBay Communities, Inc.,
as Principal, and Travelers Casualty and Surety Company of America, a corporation
organized and existing under the Laws of the State of Connecticut, as Surety, are held
and firmly bound unto Town of Somers, as Obligee, in the
total sum of Three Hundred Three Thousand Two Hundred and 00/100
U.S. Dollars (\$303,200.00) for the payment whereof said Principal and Surety bind
themselves, jointly and severally, as provided herein.

WHEREAS, the Principal entered into a contract with the Obligee dated August 15, 2017 for
Somers Realty Subdivision Phase 3, Dedication of Roads: Clayton Blvd, Halstead St., Hoyt St., Columbus St., Dedication of Land Parcels
("Work").

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION IS SUCH, that if the Principal
shall maintain and remedy said Work free from defects in materials and workmanship for a
period of 1 year(s) commencing on February 1, 2020 (the
"Maintenance Period"), then this obligation shall be void; otherwise it shall remain in full force
and effect.

PROVIDED, HOWEVER, that any suit under this bond shall be commenced no later than one
(1) year from the expiration date of the Maintenance Period; provided, however, that if this
limitation is prohibited by any law controlling the construction hereof, such limitation shall be
deemed to be amended so as to be equal to the minimum period of limitation permitted by
such law, and said period of limitation shall be deemed to have accrued and shall commence
to run on the expiration date of the Maintenance Period.

SIGNED this 1st day of February, 2020

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the "Companies"); and that the Companies do hereby make, constitute and appoint **Mark W. Edwards, II** of **Birmingham, Alabama** their true and lawful Attorney-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this 3rd day of February, 2017.

State of Connecticut

City of Hartford ss.

By:

Robert L. Raney, Senior Vice President

On this the 3rd day of February, 2017, before me personally appeared **Robert L. Raney**, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the 30th day of June, 2021

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 1st day of February, 2020

Kevin E. Hughes
Kevin E. Hughes, Assistant Secretary
