

Westcon is committed to comply with all applicable legal requirements, protect the environment and avoid the harmful effects of pollutants and wastes in all our activities on all sites.

We believe that the best way of preventing pollution is to identify possible hazards, and avoid or reduce them to ensure a safe operation.

Our main environmental focus areas are:

- Integrate the consideration of environmental concerns and impacts into all of our decision making and activities.
- Promote environmental awareness among our employees and subcontractors, and encourage them to work in an environmentally responsible manner.
- Reduce our production waste through re-use and recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable.
- Avoid unnecessary use of hazardous materials and products, and seek substitutions when these are available.
- Reduce our energy consumption
- Communicate our environmental commitment to clients, customers and the public and encourage them to support it.
- continuously improve our environmental system in order to reduce the environmental impact
