**IMPORTANT NOTES TO APPLICATION FOR APPROVAL OF CRANE OPERATION WHICH IS A CONTROLLED
ACTIVITY**

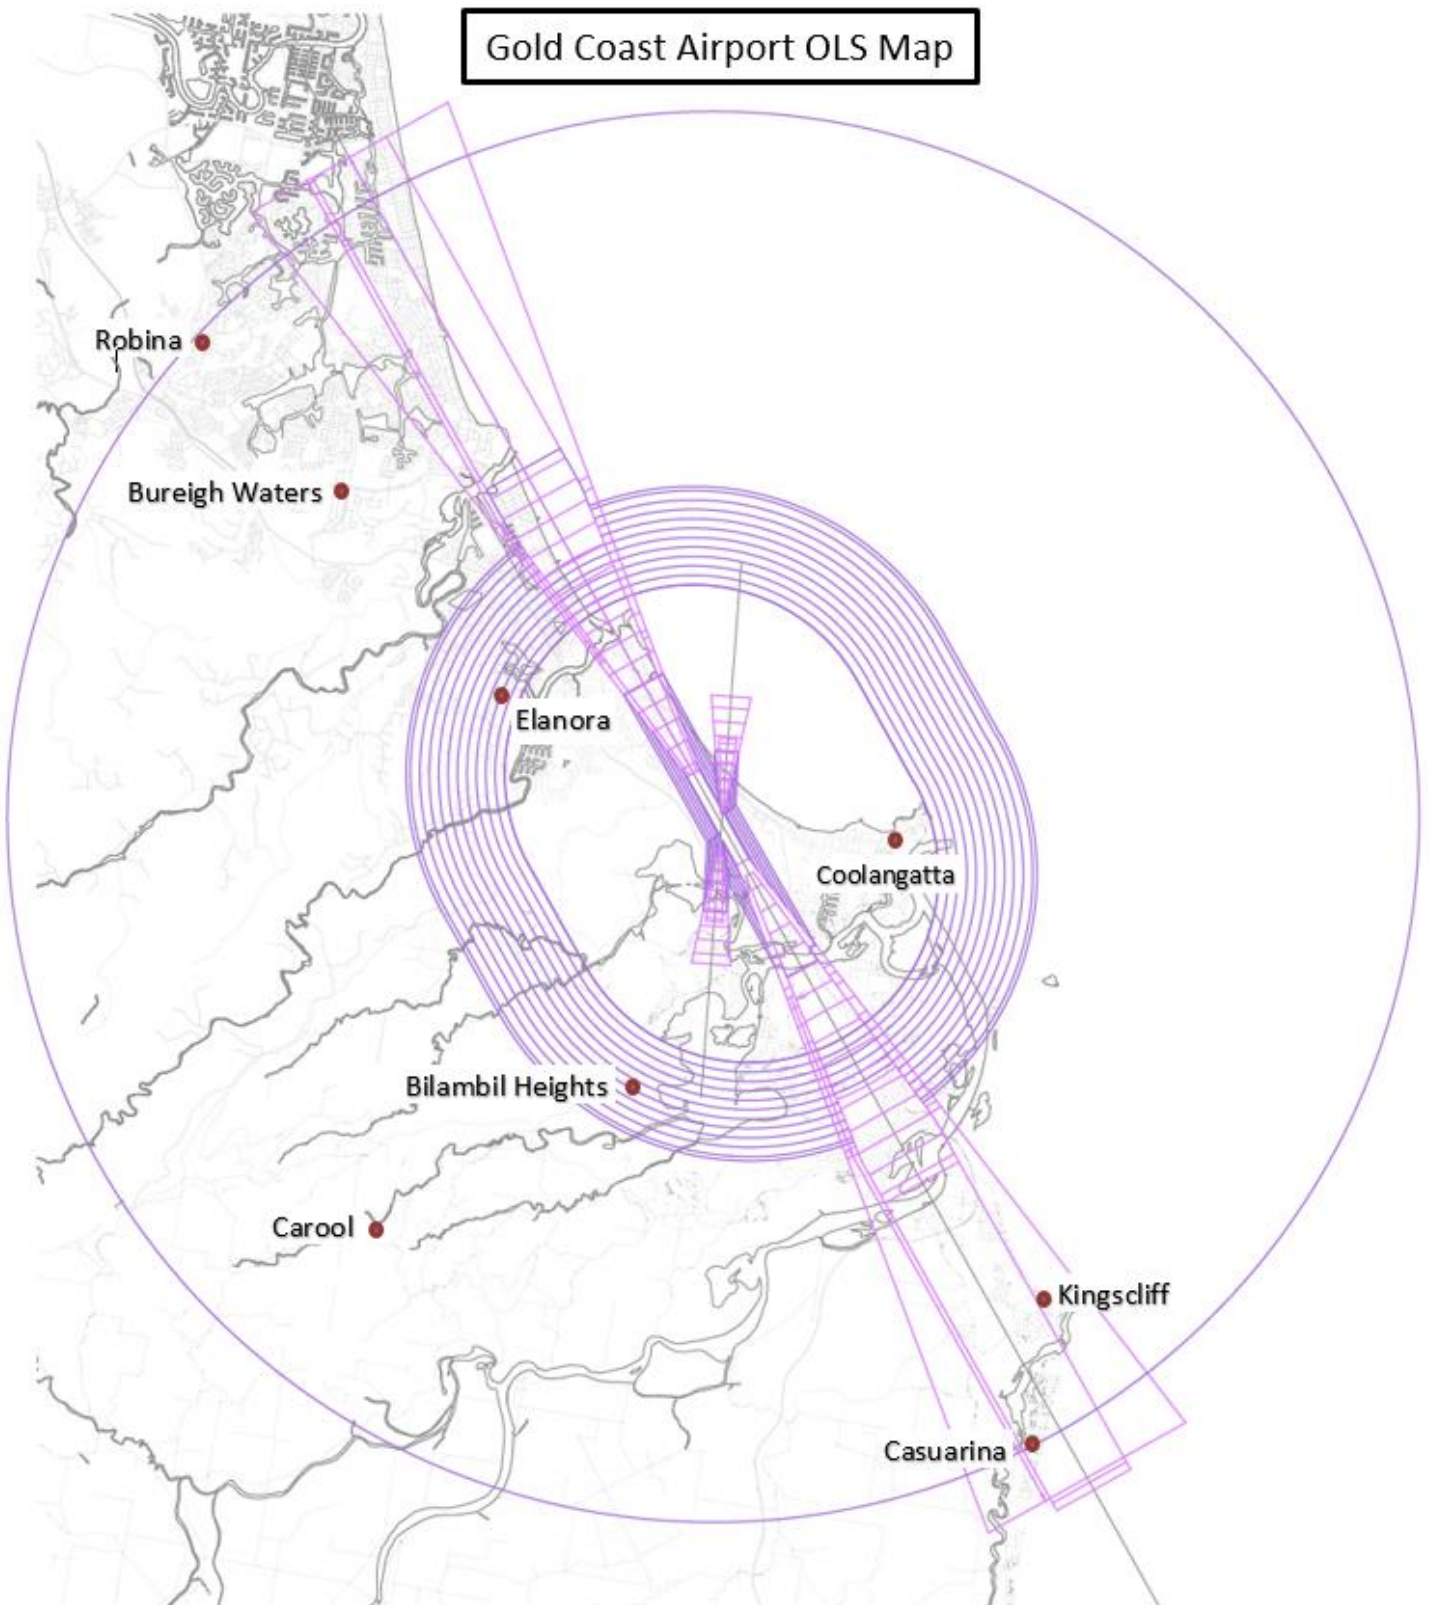

[Airports Act 1996 and Airports (Protection of Airspace) Regulations 1996]

1. Section 182: defines "controlled activities" – includes intrusions by cranes into prescribed airspace.
2. Section 187: if a controlled activity is carried out without approval or is carried out otherwise than in accordance with an approval, the Federal Court may order a person to carry out remedial work on a building, structure or thing; to mark it or light it or both; to reduce its height.
3. Section 183: a person who carries out a controlled activity without the approval of the Secretary or Airport commits an offence against section 183 of the Act.
Penalty: 250 penalty units for each such offence.
4. Regulation 8: a building authority that receives a proposal for a building activity that, if undertaken, would constitute a controlled activity in relation to an airport must give notice of the proposal to the airport.
Penalty: 50 penalty units for each such offence.
5. If the activity is a short-term activity (less than 3 months), the Airport will determine the application pursuant to delegated authority from the Secretary.
6. If the activity is a long-term activity (greater than 3 months), the Secretary will determine the application.
7. If the activity is a long-term intrusion into PANS-OPS, the application will not be approved. [Reg 9].
8. The Airport will give notice of the application to, and invite submissions from, the Civil Aviation Safety Authority of Australia (CASA) and AirServices Australia. [Reg 10].
9. Upon receipt of submissions from CASA and AirServices, the Airport will refer the application and any submissions from CASA and AirServices, as well as the Airport, to the Secretary, or will determine the application itself if it is a short-term activity.
The Secretary or the Airport will notify you in writing of their decision.
10. Neither the Secretary or the Airport will approve any activity if CASA advises that carrying out the activity would have an unacceptable effect on the safety of existing or future air transport operations into or out of the Airport. [Reg14(6)].
