OUTSIDE ART is a community organization that produces and creates public art for Plattsburgh.

OA works with local, regional, and national artists to animate public space with the goal of building community and making Plattsburgh a destination for art and a place for artists to settle and create.

Founded by artist activists Julia Devine and Amy Guglielmo in January 2016, OUTSIDE ART has produced 13 murals in under five years for downtown Plattsburgh. They have blazed a trail for public art acceptance.
