

**Covenant College strives to be
a vibrant Christ-Centred community,
where parents and teachers
serve in partnership
to nurture in each child
a passion for learning and
an uncompromising desire
to live according to God's Word.**

Christ-Centredness

...a distinctive choice

At Covenant College, we believe the Bible is clear in its directive to parents about raising children – it is each parent's responsibility to educate their children, instructing them according to God's Word.

Our College has been established by parents with these convictions and everything we do today is guided by this mandate. We want to honour Christ in all we do and our desire to achieve excellence in education is driven by this.

Partnership

...working together

Our vision for education at the College is based on the belief that we are in PARTNERSHIP with parents. Parents are connected at every level – parents oversee the College as board members, parents have direct access to all staff and the College Principal, parents are actively involved and valued.

...belonging

The environment we cultivate at Covenant College is our defining characteristic – our Christian ethos. All our staff support this Christian ethos, the vast majority of families are Christian, our curriculum is grounded in Biblical Truth, devotions are daily and we seek to honour the Lord in all we do. We value relationships. We believe that this ethos is necessary in order to nurture a passion for learning in each of our students – learning within the context of acceptance and sense of belonging is vital.

Discipleship

Community

...connecting

Our community is enriched by diversity. We come from a variety of cultural backgrounds and church denominations. Families get to know each other, relationships develop, life-long friendships are formed.

Kindergarten

...the gateway to our community

Our Early Childhood program is based on a PLAY philosophy where open ended exploration and learning is achieved through play.

We know that children learn through their ability to touch, manipulate and experiment with their surroundings. By providing a stimulating environment that ignites young imaginations, a passion for learning is both developed and nurtured.

...developing strong foundations

During the Junior School years 'Foundation to Year 4', the basic foundations of faith, learning and behaviour are developed and strengthened. We strive to create a learning environment which is just, happy and positive and one which supports and broadens students in their differing learning styles.

Junior School

Middle School

...a process of change

Middle School involves the learner in exploration, creativity and interdisciplinary instruction by means of an integrated curriculum. Teachers work in teams collaborating across disciplines to enhance both teaching and learning. The curriculum stresses the responsibility of Christians living and working in a community. The emphasis is on independent learning and how to help others live and learn.

...making right choices

Our aim is to prepare each student for life by helping them discover their sense of purpose and unique abilities, equipping them to make good decisions. Graduates can serve God, their neighbour faithfully and become good stewards of His creation.

Senior School
