

Jeffrey Charles Toubin, M.D., F.A.C.S.

UROLOGY

Compassionate, comprehensive, state-of-the-art patient care has been the hallmark of the practice of Jeffrey Toubin, M.D., for more than two decades. Designated as a Urolift Center of Excellence in 2017, Dr. Toubin was the first urologist in North Texas to achieve the highest level of training and experience in this procedure. He has successfully performed more than 500 cases of this minimally invasive outpatient treatment for enlarged prostates—a condition that impacts millions of men. After undergoing the Urolift procedure, Dr. Toubin's patients report a greatly improved quality of life. In addition to Urolift, Dr. Toubin's expertise includes the diagnosis and treatment of kidney stones, erectile dysfunction, elevated PSA, overactive bladder, enlarged prostates, and prostate cancer. His office is conveniently located on the campus of Methodist Dallas Medical Center
