## MOST WARRANTIES AND INSURANCE POLICIES DON'T PROTECT YOU FROM ICE DAMMING.

## PREVENTION DOES.

Engineered Roof Deicing' heated T-Panels stop ice buildup on the full length overhang, where it can do the most damage.

Damage from Ice Dams is considered an act of nature by most warranties and insurance companies.

The only protection from ice damage is prevention.

Engineered Roof Deicing carries a full line of products to protect homes and business structures from ice damming.
