## Matrix Clearance Services Explained

Here at Matrix we are all about providing the best in quality of service and we know that when moving home there will always be some items that are surplus to requirements, or may just be more appropriate to your old property than your new one. Our team at Matrix have service agreements set in place with friendly local clearance companies to ease the burden in dispersing or disposing of these items. Our clearance team will attend your home at a time of your choosing and load all your unwanted furniture, clothing and unwanted articles before dispersing them through appropriate local charities, recycling centres or local refuse sites.

The advantage of using Matrix clearance services over a skip are many so below are a few examples of what you can expect if you ask us for our help.

- Our vehicles will take the equivalent volume of effects equal to a conventional 12-yard skip and charge much less.
- Fixed price guarantee at the time of booking.
- We use only local, friendly businesses and aim to provide the best quality service possible.
- Our members of staff are experienced and sensitive to the difficulties of moving.
- We supply the labour and load our own vehicles directly at your home, we even go in your loft if you need us to.
- We have very strong relationships with charities such as Debra, QEF and The British Heart Foundation so only the bare minimum goes to waste.
- We do the back breaking work so that you don't have to, you decide what's for clearance point in the right direction and we will take care of the rest.

If we have not provided you with a quotation for the above service we are very happy to do so, just let us know. If we have already provided you with a quotation for clearance services and wish to book us in please ring us on 01483 494010 and speak to our team.

Subject to availability we can organise clearance services to suit with 3-5 day's notice, we look forward to hearing from you.
