Project Title	Prestigious Central London Theatre
Value	£250,000.00
Programme Duration	8 Weeks
Nature	Asbestos Removal
Client	Overbury plc

About The Project

Overbury plc were the principal contractor for the scheme to refurbish this prestigious theatre and appointed Decontaminate to undertake the asbestos abatement. Our team carefully and safely removed asbestos from within the main auditorium and ancillary areas. Due to the significant height within the auditorium it was necessary to construct a fixed scaffold upon which our enclosure was erected. Contaminated masonry and ductwork was removed as part of the abatement process.

Material removed:

- Sprayed asbestos residue
- Contaminated masonry
- Contaminated mechanical services
- Asbestos containing floor tiles
- Asbestos flash guards
- Asbestos cement

Project Challenges

- Working at height
- Accessing the work areas through operational buildings
- Co-ordination of work with other trades
- Restricted access for waste movements
- Restricted access for personnel to transit to decontamination facilities
