

OUTPATIENT orders now require a cosigner. To pick a co-signer follow the rules below

- a. If you are in the clinic, your assigned preceptor will be the one who cosigns your orders
- b. If you are putting in orders after hours or on weekends (patient calls/catching up on box messages/etc), please see the attachment to see your “order supervisor” (hint: it is your advisor for most people, unless your advisor does not work in the IMC).
 - i. If you are ordering something routine/non-urgent, you do not need to notify your supervisor.
 - ii. If you are ordering advanced imaging, your patient is sick, or you’re following up on an abnormal lab value, please route the encounter to your supervisor as an FYI.
