

# Admission Cap Rules

## ACGME Admission Cap Rules

- 5 new patients per day for a PGY-1
  - o This includes all admissions and floor consults
- 10 new patients per day for a senior (PGY-2 or PGY-3)
  - o This includes all admissions and floor consults
- 14 total patients per day can be seen by a team with 1 senior and 1 intern
  - o This includes new admissions, floor consults and follow-ups
- 20 patients can be seen by a team with 1 senior and 2+ interns
  - o This includes new admissions, floor consults and follow-ups

## Census cap rules for med team admissions

The med team census will be evaluated at 7AM and 7PM

- The census calculation includes all non-ICU/CCU patients and patients without a discharge order

If the total med team census is  $\leq 45$ , **all patients will be accepted**

- This includes:
  - o IMC patients
  - o IM core faculty patients
  - o Unassigned patients
    - Patients without a PCP
    - Patients with a PCP not covered by another inpatient provider/group\*

If the total med team census at 7AM or 7PM is  $> 45$ :

- The AR1 will notify the ED secretary that med team is **only taking IMC/core faculty patients for the next 12 hours**

The ACGME admission cap rules (included above) are **always in effect**

- **If admission caps are reached, the AR2 will see new admissions**

\* For example: USACS, SHMG, Bonyo/Amanambu, Kusar, Smith
